

Freight Forwarding

Clearing Services

Logistics Consulting

End to End Supply Chain Solutions

Welcome to Nexlog

Nexlog is a third party logistics (3PL) company offering complete freight management solutions within Southern Africa. Nexlog seeks to offer a differentiated clearing and forwarding service. There are four main pillars to this:

- We have assembled a team of experts with a thorough understanding of the value chain. All steps in the logistics flow can be catered for.
- Our goal is to provide absolute transparency in the pricing and implementation of our services.
- The customer's needs will always come first. We will not be attempting to persuade customers to use services they do not need.
- We will take full accountability for what is our responsibility.

Our Management Team

CEO Marwaan Abdul served as CFO of Damco Logistics Southern Africa for 5 years before deciding to start this new venture. He has extensive logistics experience in Africa with focus on Retail, Aid and Relief, Government and Defence, FMCG sectors, Mining and Agriculture.

Commercial Director Riad Khan comes into the business with a wealth of experience in senior positions in Government, culminating in his recently expired 5 year contract as CEO of the National Ports Regulator. He was instrumental in creating a professional structure in the National Port Regulator resulting in highly efficient management of Transnet National Port Authority's annual tariff increase application.

Operations Director Mike Walwyn has over 30 years experience in the areas of clearing and forwarding, and ships agency. He currently serves as Vice-Chairman of the South African Association of Freight Forwarders (SAAFF), and he chairs the Cape Town Port Liaison Forum. He is also Cape Town's representative on the National Ports Consultative Committee.

Through our combined strengths, it is the team's mission to provide one of the most efficient and cost effective transport and logistics solutions in Southern Africa.
