WALL ATTACHMENT METHOD

VE TIP:

Not picky when it comes to Fascia? The most cost-effective Fascia option is our standard, 8" Flat-Face

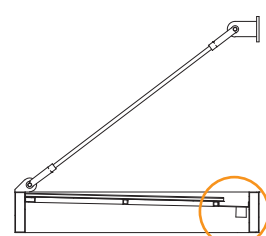

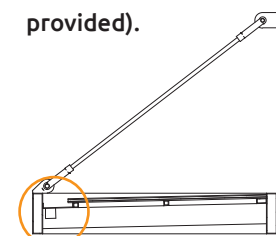

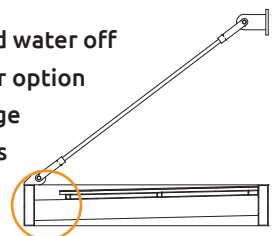

TIE-ROD & CANTILEVERED

Tie-rod canopies may utilize our ledger brackets while cantilevered canopies are bolted directly through the back-plate, into the structural blocking of the building.

DRAINAGE OPTIONS

Vestis canopies may shed water off the front via the open-air option or to a front/rear drainage gutter. Water then drains directly from a scupper or into an attached downspout (not provided).

STANDARD SIZES

All products are custom-made to order, guaranteeing that each item aligns with the specific dimensions and requirements of the project.

VE TIP:

Not locked into your dimensions? Great! Let us help design the most cost-effective Balcony that fits your needs!

WATERPROOFING

Bolt-on canopy knife-plates and ledger brackets allow for a watertight membrane, minimizing penetrations that lead to water intrusion.

SIMPLE INSTALLATION

- 1) Install Mounting Brackets
- 2) Attach Canopy
- 3) Adjust Tie-rods

LEDGER-BRACKETS

Installation of Vestis canopies is expedited with the use of our proprietary ledger brackets.

VE TIP:

Want to save on installation by doing it yourself? Canopies ship with pre-assembled roofing & step-by-step instructions!
