## ALAN GRUBB - COMMITTEE MEMBER

I've lived in Southend for 60 years and I enjoy spending time with my family and grandchildren. For twenty five years I was employed on the railway, mostly with BR and I continue to work within the transport industry.

My leisure interests are varied and I particularly enjoy television programmes about Transport, Education, health and Current Affairs documentaries.

I take an active interest in my local community and I am particularly interested in monitoring planning applications in the town and with a focus on the ward where I live - its important not to have inappropriate development or changes to our area.

There are a number of Associations and Service user panels that I am involved with including: Westborough Community Association, Neighbourhood Action Panel, Healthwatch, Regulatory Service Group, Southend Area Bus Users Group, Southend Rail Travellers Association, Southend Pensioners, Southend Supporting People Service Users Panel and of course an active member of the Older People's Assembly.

Together our voice can be heard and we can make a difference hence my commitment to Southend Older Peoples Assembly .
