

Smarthinking's New Group Tutoring gives students the ability to collaborate with other students at their institution in an online whiteboard tutoring session.

Group Sessions

Launch a group session whiteboard. Please select your subject and relevant topic - you may enter your own topic. Students from your institution will be able to join your session based on this subject and topic. Once in the session, you may have the opportunity to invite a tutor to join your group session.

Choose Discipline

Uses:

1. Work on group projects
2. Have live group discussions
3. Create study groups
4. Connect to a tutor as a group

Features

1. Up to 10 students can join a group tutoring session at a time.
2. Only students from your institution will be able to join sessions with each other.
3. Each student has their own color so students can easily see who is typing in the whiteboard.
4. A chat box is available to help streamline the conversation
5. Students have the option to bring a tutor online who will work with the group as a whole. Time is only deducted when a tutor is online and the time is split evenly by the students in the group session.

Learning makes us

Every lesson builds character, shapes dreams, guides futures, and strengthens communities. At Pearson, your learning gives us purpose. We are devoted to creating effective, accessible solutions that provide boundless opportunities for learners at every stage of the learning journey.
