

ICCOC Grade Publishing Application

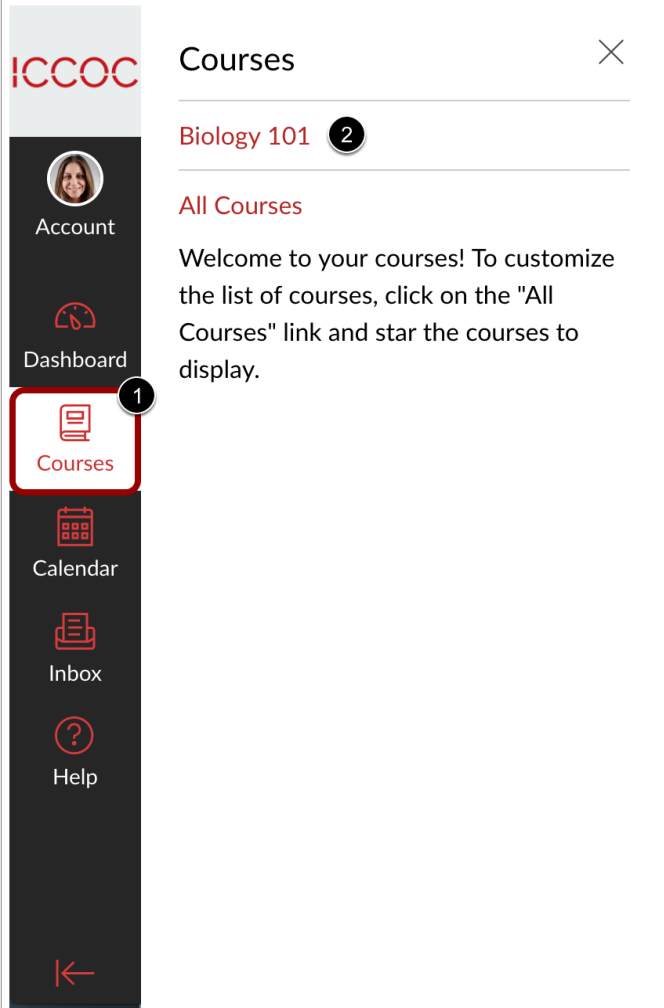

INSTRUCTOR

The Grade Publishing Application created by Instructure for Iowa Community Online Consortium.

How do I override and submit midterm or final grades?

You can change, override, and publish midterm and final grades for the entire course roster. Changes made to the Grade Publish page are not saved until they are published. Overridden grades, however, are saved when switching between midterm and final grades.

Open Courses

The screenshot displays the ICCOC Courses application interface. On the left is a dark sidebar with navigation icons and labels: Account, Dashboard, Courses (highlighted with a red box and a '1' callout), Calendar, Inbox, and Help. The main content area is titled 'Courses' and features a list of courses, with 'Biology 101' highlighted by a '2' callout. Below the course list is an 'All Courses' link and a welcome message: 'Welcome to your courses! To customize the list of courses, click on the "All Courses" link and star the courses to display.'

In Global Navigation, click the **Courses** link [1], then click the name of the course [2].
