## Our Mission

It is the mission of Guildhaus to deliver conscientious, compassionate support to Guildhaus Men establishing a solid recovery foundation, providing assistance in their transition to a drug and alcohol free lifestyle. We are committed to:

- ◆ A Safe and supportive environment for personal growth.
- ◆ Fostering an environment of Dignity, Respect, Encouragement and Hope.
- ◆ Enthusiastic modeling of 12-Step Recovery Principles.
- ◆ Exercising sound clinical judgement to deliver services that are in the best interest of the individual's personal needs.
- ◆ Creating a Guildhaus Brotherhood and promoting a sense of belonging.
- ◆ Encouraging a positive transition back in to the community.

GUILDHAUS encourages that all family members and/or significant others become involved in the recovery process by seeking education about addiction and recovery by attending 12-step support groups, and by contacting staff members for any referrals.

Clinical staff services are provided by IAODAPCA certified counselors. Guildhaus was founded in 1987 by Jack King.

VOCATIONAL AND EDUCATIONAL NEEDS

### COST OF TREATMENT

The cost of all services rendered will be based on a sliding fee scale in accordance with the current resident income eligibility criteria. A co-payment is expected from all residents who have an ability to pay. We will accept third party payers and/or insurance.

NO ONE IS DENIED SERVICES DUE TO HAVING AN INABILITY TO PAY.

## Admission Policy

All residents will be accepted or denied admission to this level of care based on the utilization of the established ASAM Patient Placement Criteria, LEVEL III.I.

Prior to admission a biopsychosocial assessment is conducted to ascertain the resident's current functioning level. This evaluation includes physical, medical, psychological, emotional, behavioral, nutritional, and environmental factors.

This initial assessment is the first part of an ongoing process that is continuously updated to ensure that our residents will receive the most appropriate placement through the continuation of care and / or a referral to a more beneficial level of care.

### ADMISSION REQUIREMENTS

Residents must be 18 years old.

Residents must meet DSM IV criteria for substance abuse / dependence.

Residents must be assessed as being at minimal risk of severe withdrawal syndrome from alcohol and / or drugs.

Resident must be medically stable.

Resident must be psychologically and emotionally stable in order to permit successful participation in treatment.

Resident must demonstrate sufficient cooperation and motivation to be able to respond to treatment at this level of care.
