TAMPER EVIDENT

# Rainbow Trays™

The Tamper Evident Rainbow Tray™ provides secure and auditable storage for all controlled drugs whilst in transit between secure locations.

As part of the Rainbow Tray™ system, the Tamper Evident tray delivers the same organisational benefits as the Rainbow Trays™ in addition to providing a robust tamper evident sealed unit that encapsulates the Chain-of-Custody information required by Accountable Officers for Controlled Substances.

# TAMPER EVIDENT RAINBOW TRAYS™

## SECURE

- ✓ Securely sealed immediately after dispensing
- ✓ No access to contents after securing with label until required
- ✓ Crush resistant tray protects contents
- ✓ Comprehensive tamper evident features show any attempt to access the tray and its contents

## AUDITABLE

- ✓ Chain of Custody compliant
- ✓ Ideal for securing against diversion
- ✓ Label notes are sealed and cannot be altered
- ✓ Origination, destination and contents are clear and unambiguous
- ✓ Versatile - write what you need on the label, make it your own.
- ✓ Date and time of dispensing and expiry with second check option

## ACCESSIBLE

- ✓ Contents are easy to identify in the transparent tray
- ✓ Easy removal from the base using tab
- ✓ Quick release perforation to open tray and access contents

**Stackable**

**Clicks shut**

**Versatile**

**Simple to prepare**

**Customisable**

**Lightweight**

**High impact adhesive**

# TAMPER EVIDENT RAINBOW TRAYS™ SUPPORT

## ACCOUNTABLE OFFICERS

The simple auditable label can be customised for local protocols to verify the chain of custody for the controlled drugs whilst in transit between Pharmacy and Patient. The tray and label are compliant with CQC & NHS recommendations for the security of controlled drugs.

## PHARMACISTS

Easy to prepare and store, the trays and labels will verify the contents, origination and destination while referencing the original prescription. Ideal for dispensing for multiple locations and using the tamper evident label to complete the audit trail as required.

## ANAESTHETISTS AND NURSES

The secure tray design allows the anaesthetist to confirm the authenticity of the tray contents and access them in a timely manner when required. Suitable for use where expired or unused drugs need to be safely returned to the pharmacy.

## EMERGENCY DEPARTMENT

Ideal for use in Emergency Departments where drugs can be easily identified and accessed whilst remaining secure. The cutomisable label makes the tray suitable for drugs used for trauma.

Customisable label.  
Complete with  
information as required.  
Add text or stickers and  
encapsulate for total  
security.

Can also be  
used to return  
unused or expired  
drugs safely to  
pharmacy.

Ideal for  
Emergency Drugs  
where secure  
storage  
is required.

The Versatile design  
of the tray and the label  
allows the trays to be  
used for any drug type  
required and in any  
department.

For infection  
control.  
Bacteriostatic  
material will not  
harbour bacterial  
growth.

Allows the  
pharmacy to draw up  
anaesthetic drugs in a  
controlled environment and  
distribute to operating  
theatres prior to  
procedures.

Quick and  
easy to open to  
access the drugs  
in an emergency.

Tamper Evident  
Rainbow Trays™ are the  
natural extension of the  
Rainbow Trays™ system  
to provide secure and safe  
storage of Anaesthetic drugs  
prior to administration whilst  
supporting the critical care  
colour labelling  
system.

The Tamper  
Evident system allows  
anaesthetists and nurses  
to draw up their drugs in  
advance and secure them  
in the Tamper Evident  
Rainbow Trays™ for  
future use.

Tamper Evident  
security features:

- Permanent adhesive
- Security cuts to  
evidence tampering
- Encapsulated text
