**INSTRUCTIONS FOR USING THE GENERAL PERMIT
BWEW-GP-2
Small Docks and Boat Launching Ramps**

PRIOR TO REGISTRATION TO USE:

1. Carefully review the definitions and requirements of the General Permit (Part One and Part Two) to determine if your project can qualify for authorization under this General Permit. Refer to Part One, Section B regarding area restrictions and Part One, Sections D and E regarding criteria. If your project cannot be authorized under the General Permit, you may request approval of an individual permit by submitting an application to the appropriate Soils and Waterways Section in the Regional Office as listed on Exhibit B.
2. Locate your project on a United States Geological Survey (U.S.G.S.) 7½ Minute Quadrangle Map¹ and prepare a project LOCATION MAP, utilizing a photocopy of the U.S.G.S. Quadrangle Map.
3. Complete the Pennsylvania Natural Diversity Inventory (PNDI) Form and submit it to the person conducting the online PNDI Project Planning and Environmental Review Tool search. This person performing the search could be someone from DEP, the County Conservation Districts, or a consultant. Alternatively, if you plan to conduct the PNDI online search yourself – a search form is not needed prior to the PNDI online search.

After conducting the PNDI online search, if your PNDI Project Environmental Review Receipt has "Potential Impacts," DEP and the jurisdictional agencies require that you submit additional information to the agencies noted on the Receipt for further review. Please send a copy of the PNDI Receipt, a completed PNDI Form, and a USGS 7.5 minute quadrangle map with project boundaries delineated on the map to the agencies referenced on your PNDI Receipt.

4. Your project may also require a permit from the U.S. Army Corps of Engineers under section 404 of the Federal Clean Water Act, sections 9 and 10 of the Rivers and Harbors Act and/or section 103 of the Marine Protection, Research and Sanctuaries Act. The registration to use this State General Permit does not relieve you of the obligation to comply with, and the State is not authorized to address, these Corps of Engineers' requirements. Therefore, in order to avoid violation of Federal statutes, please contact the appropriate U.S. Army Corps of Engineers District Office listed below to determine whether a Federal permit is required for your project.

Delaware River Basin
Philadelphia Dist. Corps of Engineers
Wanamaker Bldg., 100 Penn Square East
Philadelphia, PA 19107
(215) 656-6725

Susquehanna River Basin
Baltimore Dist. Corps of Engineers
P.O. Box 1715
Baltimore, MD 21203-1715
(410) 962-1846 or (814) 235-0570

Ohio River Basin and Lake Erie Basin
Pittsburgh Dist. Corps of Engineers
Regulatory Branch
1000 Liberty Avenue
Pittsburgh, PA 15222
(412) 395-7152

¹ Commonly called "topographic maps", U.S.G.S. Quadrangles may be available from local merchants dealing in books, hunting supplies and camping equipment.

5. For any earthmoving activity² associated with your project, prepare the Erosion and Sediment Control Plan which must be reviewed and determined satisfactory by the County Conservation District in the county where your project is located. The required Erosion and Sediment Control Plan must be prepared and submitted to the Conservation District for review prior to or concurrent with your registration to use the General Permit.

THE REGISTRATION PROCEDURE:

6. Fill in all information on the GENERAL PERMIT REGISTRATION form and make multiple copies. Send one copy each to the municipality and the county in which the project is located.
7. To register use of the General Permit, prepare a complete registration "package" consisting of:
 - Two Copies of the GENERAL PERMIT REGISTRATION form
 - Two copies of the LOCATION MAP
 - Two copies of the PNDI Form and an initialed search receipt

Send these items to either:

- The County Conservation District for projects located in all counties where there is a delegation agreement (see Exhibit C).
 - OR -
 - The Permitting and Technical Services Section having responsibility for the counties where there is no delegation agreement with the County Conservation District (see Exhibit B).
8. If you are also applying for an individual Water Obstruction and Encroachment Permit to authorize related work, you may register to use the General Permit in conjunction with your individual permit application (See Part Two, Section A, Item 2).

BEFORE AND DURING CONSTRUCTION:

9. Do not begin work until:
 - a. You have received an acknowledgement from the Permitting and Technical Services Section or County Conservation District that your General Permit Registration form has been received and registered.
 - b. Your Erosion and Sediment Control Plan has been reviewed and determined to be satisfactory by the County Conservation District.
 - c. You have notified the Pennsylvania Fish and Boat Commission and the County Conservation District 10 days prior to start of construction (See Part Two, Section D).
 - d. You have obtained any other Federal, State or local permits which may be required.
 - e. You have complied with any other applicable preconstruction requirements as listed in Part Two, Section E.
 - f. You have provided written notifications to the municipalities and county where the projects are located prior to the start of construction.
10. During construction of your project, you are responsible for adhering to all terms and conditions of the General Permit, including your approved Erosion and Sediment Control Plan and all applicable design and construction criteria in Part One, Sections D and E.

² For the definition of earthmoving activity, see Part Two, Section C.

**COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF WATERWAYS ENGINEERING AND WETLANDS
GENERAL PERMIT
BWEW-GP-2
SMALL DOCKS AND BOAT LAUNCHING RAMPS**

PART ONE

- A. GENERAL DESCRIPTION AND FEES** - The Department of Environmental Protection hereby authorizes, by General Permit, subject to the terms and criteria set forth below, the installation, operation, modification and maintenance of small docks and boat launching ramps in and along the regulated waters of this Commonwealth. **The fee required for a project authorized under this General Permit shall be consistent with 25 PA Code §105.13 (relating to regulated activities – information and fees).**
- B. SITES AND CONDITIONS WHERE THIS GENERAL PERMIT DOES NOT APPLY** - This General Permit does not apply and is not valid in the following situations. Where the General Permit is not applicable, you may request approval of an individual permit by submitting an application to the appropriate Permitting and Technical Services Section in the Regional Office (see Exhibit B).
1. Historical, cultural or archaeological sites as identified in the latest published version of the Pennsylvania Inventory of Historical Places or the National Register of Historical Places. This information is available from the Pennsylvania Historical and Museum Commission, 400 North Street, Second Floor, Harrisburg, PA 17120-0093, telephone (717) 783-8946.
 2. Sites identified in the latest published version of the National Registry of Natural Landmarks.
 3. Areas in or within 100 feet of a watercourse designated wild in the National or State Scenic Rivers system in accordance with the National Wild and Scenic Rivers Act of 1968 or the Pennsylvania Scenic Rivers Act. For details on scenic river classifications, contact the DCNR, Division of Greenways and Conservation Partnerships, Pennsylvania Scenic Rivers Program, P.O. Box 8475, Harrisburg, PA 17105-8475, telephone (717) 787-2316.
 4. Construction activities in stocked trout streams from March 1 through June 15, in wild trout streams from October 1 through December 31, and in Lake Erie tributaries from March 1 through June 15 and from September 1 through December 31 unless written approval is obtained from the Pennsylvania Fish and Boat Commission's Division of Environmental Services (see Exhibit A). Stocked and wild trout stream locations are compiled by the Commission's Division of Fishery Management (see Exhibit A).
 5. Projects located where there would be an impact on species of special concern listed under the Endangered Species Act of 1973, the Wild Resources Conservation Act, the Fish and Boat Code or the Game and Wildlife Code. Records regarding species of special concern are maintained in a computer database called the "Pennsylvania Natural Diversity Inventory" (PNDI). To verify that there will be no such impacts for a specific project, the Department requires submission of the attached PNDI Form and an initialed search receipt.
 6. Streams or waterbodies designated as Exceptional Value Waters as defined and listed in Chapter 93 (relating to water quality standards).
 7. Projects requiring excavation of mudflats in the tidal waters of the Delaware River.

C. DEFINITIONS APPLICABLE TO THIS GENERAL PERMIT - The following words and terms, when used in this General Permit, have the following meanings:

BOAT LAUNCHING RAMP - A sloping stabilized roadway constructed in and along a stream or lake for the purpose of launching boats from vehicular trailers, including associated walkways for boarding boats and on-grade improvements for access, turning and parking.

DREDGE - To remove sand, gravel, mud, or other materials from the beds of regulated waters of this Commonwealth.

FILL - Sand, gravel, earth or other material placed or deposited to form an embankment or raise the elevation of the land surface. The term includes material used to replace an area with aquatic life with dry land or to change the bottom elevation of any regulated water of this Commonwealth.

OTHER PRIVATE AND COMMERCIAL FACILITIES - Docks and boat launching ramps other than those defined as private recreational docks, public access facilities and public service facilities.

PRIVATE RECREATIONAL DOCK - A dock utilized for private recreational purposes by the riparian land owner.

PUBLIC ACCESS FACILITY - A dock or boat launching ramp for public recreational purposes when the facility is open to the general public and maintained on a nonprofit basis or for use without fee.

PUBLIC SERVICE FACILITY - A dock or boat launching ramp constructed, owned or operated by a political subdivision of the Commonwealth which provides services necessary for public health and welfare, or in connection with a service for which no fees or charges other than general taxes are imposed.

SHORELINE - The edge of water in a lake or other body of water at normal pool elevation; the edge of water along a waterway at the ordinary low water level.

SMALL DOCK - A single floating, cantilevered or pile structure constructed within a waterway or other body of water and located on lands or adjacent to riparian lands which are owned or leased by the dock owner. Small docks authorized under this General Permit are classified in four categories based on the proposed use and type of ownership. These categories are (1) private recreational dock, (2) public access facility, (3) public service facility and (4) other private and commercial facilities.

D. PROJECT DESIGN AND CONSTRUCTION CRITERIA FOR DOCKS

1. Small Docks may be constructed to any configuration but shall not exceed 750 square feet in surface area, except where other limits apply on navigable rivers of the United States and on Scenic Rivers (see items 1a and 1b which follow).
 - a. A Federal permit is required from the U.S. Army Corps of Engineers for small dock structures located on rivers and other waterways which are designated Navigable Waters of the United States and regulated under Section 10 of the Rivers and Harbors Act. The small dock surface area and configuration on these navigable waters must be in conformance with any applicable Section 10 permit criteria which may be more restrictive than this General Permit. Size and shape limitations may be subject to change and may vary between Corps District Offices.
 - b. In waterways which are part of the National or Pennsylvania Scenic Rivers System the total surface area of a small dock shall not exceed 250 square feet.
2. A small dock on a lake shall not extend more than 50 feet from the edge of normal pool elevation. In a river or other stream, a small dock shall not extend more than 20 percent of the width of the stream; however, it shall in no instance extend more than 100 feet from the ordinary low water mark of a stream.

3. Only one small dock shall be constructed on a given riparian parcel under this General Permit, except where the parcel is common property or where multiple parties have deeded access rights or easements. See Section F, Items 2 and 3 for specific terms regarding multiple use of this General Permit on a given riparian parcel.
4. No part of the small dock structure or associated boat mooring area may extend in front of adjacent riparian properties or otherwise interfere with access and use of the water by adjacent riparian land owners.
5. Each small dock shall be constructed in such a way that it does not hinder commercial or recreational navigation and does not interfere with normal fish migration.
6. Construction and other activities authorized by this General Permit shall be performed in a manner that minimizes use of equipment within the stream channel or body of water.
7. Construction of a small dock on a waterway shall take place during periods coinciding with lower stream flows.
8. Each small dock shall be constructed in such a way as not to obscure any navigation aids or lights for bridges in the area.
9. Small docks shall be maintained in a functional condition which includes the periodic removal of debris.
10. Maintenance dredging to restore original depths is permitted only in the mooring area for boats and is limited to 10 feet beyond the edge of the dock.
11. Dredging for construction purposes is not authorized by this General Permit.
12. This General Permit does not authorize the storage of fuel or the construction of fuel servicing facilities on the small dock.
13. This General Permit does not authorize the construction or modification of a small dock for use as a habitable structure with living facilities such as beds, bathrooms or kitchens.
14. The owner shall employ measures to prevent and control spills of fuels or lubricants into the waterway.
15. Flotation devices, if used, shall be securely fastened to the structure to prevent separation from the small dock.
16. Drums to be utilized as flotation devices that have been previously filled with another substance shall be thoroughly cleaned before use to preclude the possibility of pollution.
17. The small dock structure shall be adequately secured to the shoreline to insure the structure's stability to withstand the effects of wind, stream flows and wave action.
18. Anchorages shall be placed so they do not accelerate erosion or cause degradation of the streambanks.
19. The placement of fill or dredged material into a watercourse, floodway or body of water is not authorized under this General Permit.
20. To the greatest extent possible, the project shall be designed and constructed in a manner which will (a) prevent permanent or long-term changes in water quality, (b) minimize alterations in natural aquatic habitat and (c) maintain natural streamflow velocities and mixing patterns.

21. Archaeological artifacts discovered during the performance of work authorized under this General Permit must be adequately protected and their discovery promptly reported to the Bureau for Historic Preservation, Pennsylvania Historical and Museum Commission, 400 North Street, Second Floor, Harrisburg, PA 17120-0093, telephone (717) 783-8946.

E. PROJECT DESIGN AND CONSTRUCTION CRITERIA FOR BOAT LAUNCHING RAMPS

1. Boat launching ramps authorized by this General Permit are limited to a maximum width of 20 feet.
2. Boat launching ramps shall be located to minimize streambank excavation and wetland impacts. Boat launching ramps are limited to a maximum length of 100 feet measured from the top of the ramp to the shoreline.
3. Only one boat launching ramp shall be constructed on a given riparian parcel under this General Permit, except where the parcel is common property or where multiple parties have deeded access rights or easements. See Section F, Items 2 and 3 for specific terms regarding multiple use of this General Permit on a given riparian parcel.
4. Construction and other activities authorized by this General Permit shall be performed in a manner that minimizes use of equipment within the stream channel or body of water.
5. Construction of a boat launching ramp along a waterway shall take place during periods when the stream is at low flow.
6. To the greatest extent possible, the project shall be designed and constructed in a manner which will (a) prevent permanent or long-term changes in water quality, (b) minimize alterations in natural aquatic habitat and (c) maintain natural streamflow velocities and mixing patterns.
7. Where required to support boat trailers, the portion of a boat launching ramp located in a streambed or lakebed may be stabilized by clean rock and/or gravel, timber, pre-cast concrete planks, or pre-cast concrete slabs (formed onshore and pushed or lifted in place). This stabilization of the bed surface shall be limited to the minimum length necessary for boat launching.
8. Exposed bank areas along the approach ramp shall be stabilized and protected from the erosive action of waves and stream currents.
9. For launching ramps which require associated facilities such as parking lots and turn-around driveways in the floodway along a stream, necessary regrading shall be accomplished without the addition of fill within the regulated floodway. Parking facilities shall be built on existing grade or with minimal grade changes not exceeding 12 inches. Surfaces shall be stabilized with gravel, macadam or concrete. There shall be a volume of soil material removed from the floodway equal to or greater than the volume of construction materials to be used, and there shall be no net loss of conveyance area in the floodway cross-section. Along waterways designated Exceptional Value (EV) or High Quality Waters (HQ) under Chapter 93 Rules and Regulations (relating to water quality), a 50-foot wide vegetated buffer strip is required between parking facilities and the streambank. Access roads which cross wetlands and improved parking areas in wetlands are not authorized by this General Permit.
10. Boat ramps constructed along Lake Erie shall be located near the western edge of a property to allow space to dispose future dredge material. Material from maintenance dredging of a boat ramp along the shoreline of Lake Erie shall be placed on the shoreline to the east of the removal site.
11. Archaeological artifacts discovered during the performance of work authorized under this General Permit must be adequately protected and their discovery promptly reported to the Bureau for Historic Preservation, Pennsylvania Historical and Museum Commission, 400 North Street, Harrisburg, PA 17120-0093, telephone (717) 783-8946.

F. SPECIAL PROVISIONS REGARDING PROPERTY RIGHTS

1. Submerged Lands License Agreements and Fees - As explained in Part Two, Section E, Item 1 of this General Permit, a license agreement is required for projects which are located in certain waters designated navigable or public highways and which are held in trust by the Commonwealth. In accordance with Chapter 105 Rules and Regulations, a minimum annual license fee of \$250 is assessed except for the following types of facilities and uses:
 - a. Private recreational docks constructed under a General Permit.
 - b. Public Access Facilities provided without charge or on a nonprofit basis.
 - c. Public Service Facilities provided without fees or charges.

There is no annual fee assessed for the facilities listed above. However, other types of docks or boat launching ramps will require an annual fee when located in Submerged Lands of the Commonwealth. Therefore, the user of this General Permit is required to indicate the type of structure on the **General Permit Registration** form.

2. Multiple Use of the General Permit on Common Property - An association of homeowners or similar group (association) holding title to common property with riparian rights may register to construct and maintain docks on behalf of individual members. The association shall assure that adequate spacing for mooring and access is maintained between docks. Each dock shall be registered by the association and constructed in accordance with the General Permit.
3. Use of the General Permit where Multiple Parties Hold Access Rights on Riparian Land - In areas where common use of riparian land is reserved by easement or other deed restrictions, and where there is no homeowners association or similar organization with appropriate authority, each holder (owner) of such easement or deed restriction may register and construct one dock and boat launching ramp under the authority of this General Permit. Owners are mutually responsible to assure that adequate spacing for mooring and access is maintained between structures. Registering the use of this General Permit does not grant the right to interfere with other eligible users or with the riparian rights of others. Users of this General Permit are solely responsible to mutually resolve any problems of interference or other disagreements on riparian lands where access rights are shared.

- G. AUTHORITY AND CONTINUING AUTHORIZATION** - Authorization of this General Permit is under section 7 of the Dam Safety and Encroachments Act 32 P.S. §693.7 and the rules and regulations promulgated thereunder at 25 Pa. Code §§105.441-105.449 (relating to General Permits). This General Permit shall authorize the continued operation and maintenance of private recreational docks authorized by General Permit BWEW-GP-2 (Private Recreational Docks) issued on December 29, 1990.

**COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF WATERWAYS ENGINEERING AND WETLANDS
GENERAL PERMIT**

PART TWO

A. REGISTRATION OF PROPOSED USE OF GENERAL PERMITS

1. Standard Procedure

Prior to construction, the owner shall submit the following items to the DEP Permitting and Technical Services Section in the appropriate Regional Office or the delegated County Conservation District where the project is located (see Exhibits B and C):

- (a) Two copies of the GENERAL PERMIT REGISTRATION form, one copy with original signatures.
- (b) Two copies of a location map (see Drawing No. 1).
- (c) Two copies of the PNDI Form and/or initialed search receipt.
- (d) Two copies of any other items required in the Instructions and Part One (if applicable).

The owner is required to send additional copies of the General Permit Registration form to the municipality and the County Board of Commissioners where the project is located. Also, as part of the registration, the owner shall certify that an Erosion and Sediment Control Plan has been submitted for review to the County Conservation District in which the work will be performed. **The owner is not authorized to use the General Permit until he has notified the DEP Permitting and Technical Services Section of the appropriate Regional Office or the appropriate delegated County Conservation District and received an acknowledgement of that registration. The Department's acknowledgement serves as registration to use this General Permit. The owner may not begin work until all preconstruction requirements of this General Permit have been completed.**

Registration for the use of this General Permit must be sent to the County Conservation District in counties where the District has a delegation agreement with the Department of Environmental Protection. To determine whether this alternate registration procedure currently applies for your location, refer to Exhibit C and/or contact the appropriate DEP Permitting and Technical Services Section or County Conservation District.

2. In Conjunction with a Water Obstruction and Encroachment Permit Application:

When an activity or structure authorized by the General Permit is an integral part of a larger project which requires an individual Water Obstruction and Encroachment permit, intent to use the General Permit may be registered by attaching copies of the GENERAL PERMIT REGISTRATION form to the individual permit application, and clearly identifying, in the permit application narrative and/or on site plans, any structure or activity which will be constructed in accordance with the terms and conditions of the General Permit. The Department's acknowledgement of the General Permit registration will be included in the individual permit, and upon issuance of the permit the owner may begin work on the structure or activity authorized by the General Permit. Where applicable, this registration procedure is preferred and recommended by the Department, because written authorization for a project can be combined into one action and the associated documentation can be maintained under a single file number.

3. In Conjunction with an Enforcement Action:

The General Permit may also be used, at the discretion of the Department, in conjunction with an enforcement action or settlement of violations, to register regulated activities conducted without prior permit or authorization.

- B. DENIAL OF AUTHORIZATION** - The Department shall have the discretion, on a case-by-case basis, to deny, revoke or suspend the authorization to use a General Permit for any project which the Department determines to have a substantial risk to life, health, property or the environment, or otherwise could not be adequately regulated by the provisions of this General Permit.
- C. STANDARD DEFINITIONS FOR GENERAL PERMITS** - The terms as used in this General Permit shall have the following meanings:

BODY OF WATER - Any natural or artificial lake, pond, reservoir, swamp, marsh or wetland.

DEPARTMENT - The Department of Environmental Protection.

EARTHMOVING ACTIVITY - Any construction or other activity which disturbs the surface of the land including, but not limited to, excavations, embankments, land development, subdivision development, mineral extraction and the moving, depositing or storing of soil, rock or earth. This includes any excavation or fill within a stream channel.

EROSION AND SEDIMENT CONTROL PLAN - A plan which is designed to minimize accelerated erosion and sedimentation consistent with the requirements of 25 Pa. Code Chapter 102.

FLOODWAY - The channel of the watercourse and portions of the adjoining floodplains which are reasonably required to carry and discharge the 100-year frequency flood. Unless otherwise specified, the boundary of the floodway is as indicated on maps and flood insurance studies provided by the Federal Emergency Management Agency (FEMA). In an area where no FEMA maps or studies have defined the boundary of the 100-year frequency floodway, it is assumed, absent evidence to the contrary, that the floodway extends from the stream to 50 feet from the top of the bank of the stream.

INSTALL - To construct, deposit, place, lay or set in place.

OWNER - A person who owns, controls, operates, maintains, or manages a dam or reservoir, water obstruction or encroachment.

PERSON - A natural person, partnership, association, corporation, public utility, municipality, municipal authority, political subdivision of the Commonwealth, receiver or trustee, and any department, board, commission, or authority of the Commonwealth.

POLITICAL SUBDIVISION - A county, city, borough, incorporated town, township, school district, authority or other governmental unit or a combination thereof acting jointly.

REGULATED WATERS OF THIS COMMONWEALTH - Watercourses, streams or bodies of water and their floodways wholly or partly within or forming part of the boundary of this Commonwealth.

SCENIC RIVERS - Areas in or within 100 feet of a watercourse or body of water designated a component of the Pennsylvania Scenic Rivers System in accordance with the Pennsylvania Scenic Rivers Act (P.L. 1277, Act No. 283 as amended by Act 110, May 7, 1982), or which are 1-A candidate rivers listed in the Pennsylvania Scenic Rivers Inventory.

STOCKED TROUT STREAM - A stream classified as approved trout waters by the Pennsylvania Fish and Boat Commission. For current designations of stocked trout streams, contact the Division of Fisheries Management (see Exhibit A).

SUBMERGED LANDS OF THIS COMMONWEALTH - Waters and permanently or periodically inundated lands owned by the Commonwealth, including lands in the beds of navigable lakes and rivers and beds of streams declared public highways which are owned and held in trust by the Commonwealth.

WATERCOURSE - A channel or conveyance of surface water having defined bed and banks, whether natural or artificial, with perennial or intermittent flow.

WETLANDS - Areas that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions, including swamps, marshes, bogs and similar areas.

WILD TROUT STREAM - A stream classified as supporting naturally reproducing trout populations by the Pennsylvania Fish and Boat Commission. For current designations of wild trout streams, contact the Division of Fisheries Management (see Exhibit A).

D. PRECONSTRUCTION REQUIREMENTS FOR ALL PROJECTS

1. OTHER PERMITS - Nothing in this General Permit relieves the owner of the obligation of complying with all Federal, Interstate Compact, State and local laws, regulations and standards for the construction, operation or maintenance of the project or activity. The project owner is advised that written authorization from the U.S. Army Corps of Engineers may be required for compliance with Section 404 of the Clean Water Act.
2. BEST MANAGEMENT PRACTICES - Work must be done in compliance with Chapter 102 (relating to Erosion Control). **Prior to construction, an Erosion and Sediment Control Plan must be reviewed and determined adequate by the County Conservation District in which the activities are proposed and implemented prior to, during and after construction. The County Conservation District shall be notified 10 days prior to the start of construction.** The project site shall at all times be available for inspection by authorized employees of the County Conservation District. The Erosion and Sediment Control Plan shall be available at the site.
3. PENNSYLVANIA FISH AND BOAT COMMISSION NOTIFICATION - The owner shall notify the Pennsylvania Fish and Boat Commission's Regional Field Office Manager (see Exhibit A) responsible for the County where the activities are proposed 10 days prior to start of construction. Written notification is suggested. The project site shall at all times be available for inspection by authorized officers and employees of the Pennsylvania Fish and Boat Commission.
4. NOTIFICATION TO OPERATORS OF PUBLIC WATER FACILITIES - Owners will investigate for drinking water intakes or reservoirs for public water supplies and permitted public bathing beaches within 5 miles downstream of the site of the project. Written notice shall be given at least 10 days prior to construction to the Department and to operators of any such intakes, beaches or reservoirs. This notification shall include expected starting and completion dates for the construction activities. Owners must notify the Department and operators immediately and no longer than 1 hour after the occurrence at the site which results in the release of suspended solids and turbidity to the stream. Public drinking water sources are listed by the DEP Bureau of Water Standards and Facility Regulation, and this information is available from each DEP Regional Office.

E. OTHER PRECONSTRUCTION REQUIREMENTS WHERE APPLICABLE

1. SUBMERGED LANDS OF THIS COMMONWEALTH - This General Permit shall not be effective to authorize any project over, across or occupying submerged lands of this

Commonwealth until the owner has obtained a license from the Department authorizing the occupation of such submerged lands issued under section 15 of the Dam Safety and Encroachments Act (32 P.S. §693.15), section 514 of the Administrative Code of 1929 (71 P.S. §194), or other applicable laws. Upon receipt of the General Permit Registration form from the owner, the Department will review the project to determine if its location is over, across or occupies submerged lands of the Commonwealth. If applicable, the Department will prepare a Submerged Lands License Agreement and forward same to the owner for execution prior to acknowledgement of registration to use the General Permit. No annual charge is required for facilities constructed, owned or operated by a Political Subdivision of the Commonwealth.

2. UTILIZATION OF GENERAL PERMIT BDWM-GP-8, TEMPORARY ROAD CROSSINGS - Temporary road crossings of streams and causeways that are necessary for equipment to move back and forth across a stream during construction of a project are authorized by, and must be constructed in accordance with BDWM-GP-8. The owners shall indicate utilization of BDWM-GP-8 on the General Permit Registration form in the box provided. Owners constructing temporary road crossings in those areas excluded from the application of BDWM-GP-8 must apply for an individual Water Obstruction and Encroachment Permit for those road crossings.
3. USE OF EXPLOSIVES - Prior to the use of explosives in a watercourse or body of water, the permittee shall secure a written permit from the Pennsylvania Fish and Boat Commission, under the Fish and Boat Code, Act 1980-175 Title 30 Pennsylvania Consolidated Statutes, Section 2906. Requests should be directed to the Pennsylvania Fish and Boat Commission, Division of Environmental Services (see Exhibit A).

F. STANDARD PROVISIONS OF THE GENERAL PERMIT

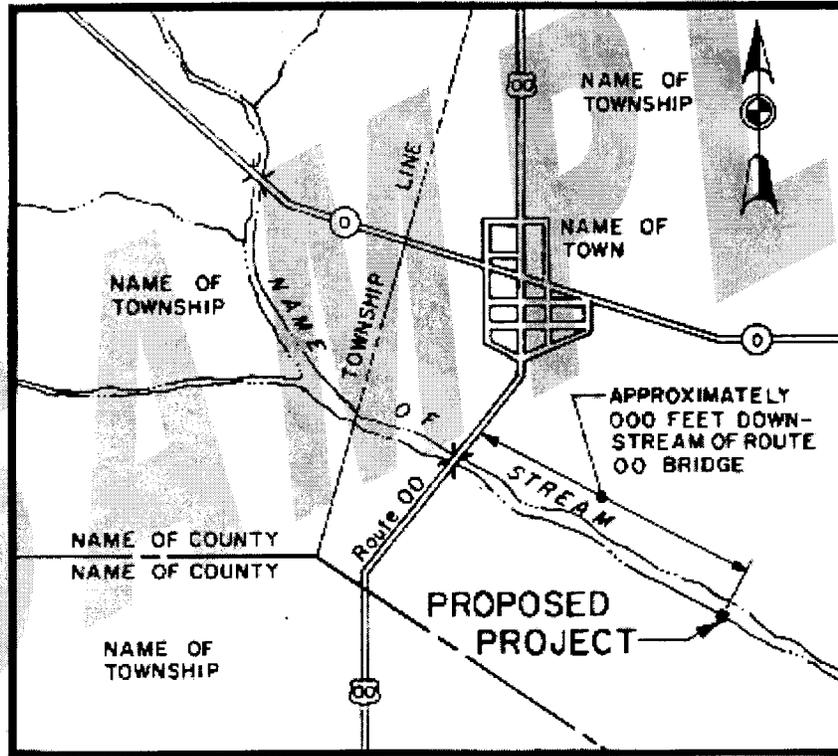

1. EFFECTIVE TIME PERIOD - This General Permit will remain in effect indefinitely unless specifically modified, suspended or revised by the Department.
2. SUSPENSION, MODIFICATION OR REVOCATION - The Department may suspend, modify or revoke this General Permit at any time upon notice in the Pennsylvania Bulletin.
3. PROJECT INTERFERENCE - This General Permit does not authorize any interference with any existing or proposed local, State, Federal or Federally licensed project, and permittee shall not be entitled to compensation for damage or injury to the work authorized herein which may be caused by or a result of existing or future operations undertaken by the United States or the Commonwealth of Pennsylvania or its Political Subdivisions in the public interest.
4. DEPARTMENT INSPECTION - As a condition of use of this General Permit, and of the owner's authority to conduct the activities authorized by this General Permit, the owner hereby authorizes and consents to allow authorized employees or agents of the Department, without advance notice or a search warrant, at any reasonable time and upon presentation of appropriate credentials, and without delay, to have access to and to inspect all areas where the project is being constructed, operated or maintained. The authorization and consent shall include consent to conduct tests or sampling, to take photographs, to perform measurements, surveys and other tests, to inspect the methods of construction, operation or maintenance, to examine and copy books, papers and records pertinent to any matter under investigation, and to take any other action necessary to assure that the project is constructed, operated or maintained in accordance with the terms and criteria of the General Permit. This General Permit condition is referenced in accordance with Section 16 of the Dam Safety and Encroachments Act, 32 P.S. §693.16, and in no way limits any other powers granted under the Dam Safety and Encroachments Act.

5. ACTIVITIES NOT IN ACCORDANCE WITH THE TERMS OR CONDITIONS - If the Department determines, upon inspection, that the construction, operation or maintenance of a project has violated the terms or criteria of this General Permit or of the Chapter 105 Rules and Regulations, the Department may take such actions, legal or administrative, that it may deem to be appropriate.
6. STRUCTURE REMOVAL - The owner shall remove all or any portion of this project upon written notification to the owner by the Department in the event the project is causing an adverse impact on public health, safety or the environment, or in any other manner violates the conditions of this General Permit or Chapter 105 Rules and Regulations.
7. PROPERTY RIGHTS - This General Permit does not authorize trespassing on private property nor convey any property rights, either in real estate or material, or in any exclusive privileges; nor does it authorize any injury to property or invasion of rights or any infringement of Federal, State or local laws or regulations.
8. WATER QUALITY CERTIFICATION - The issuance of this General Permit also constitutes approval of a Water Quality Certification under section 401 of the Federal Clean Water Act (33 U.S.C.A. §1341).
9. OTHER APPROVALS - The owner shall secure all other approvals that may be necessary under other Federal, State or local laws or regulations.
10. CHANGE OF OWNERSHIP - If there is a change in ownership of a structure installed in accordance with this General Permit, the new owner is required to register the structure with the Department in accordance with Part Two, Section A, of this General Permit. The new owner shall submit one copy of the General Permit Registration form indicating "transfer of ownership" and one copy of a location map. Additional items required under Part Two, Section A, are not applicable if there are no proposed construction activities.
11. SIGNATURE - The General Permit Registration form for use with this General Permit shall be signed by the property owner; the president, vice president or other responsible official of a Corporation; or the chief official for a Government Agency/Political Subdivision. An engineering consultant, contractor or similar agent is not authorized to sign the General Permit Registration form on behalf of the owner.

GENERAL PERMIT:

SAMPLE LOCATION MAP

Dwg. No. 1

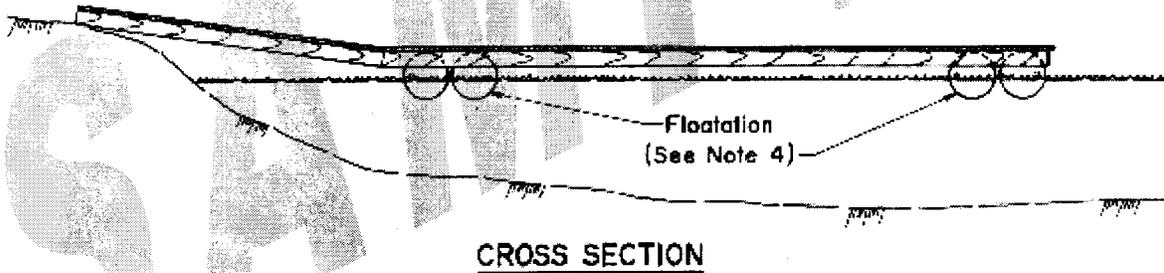

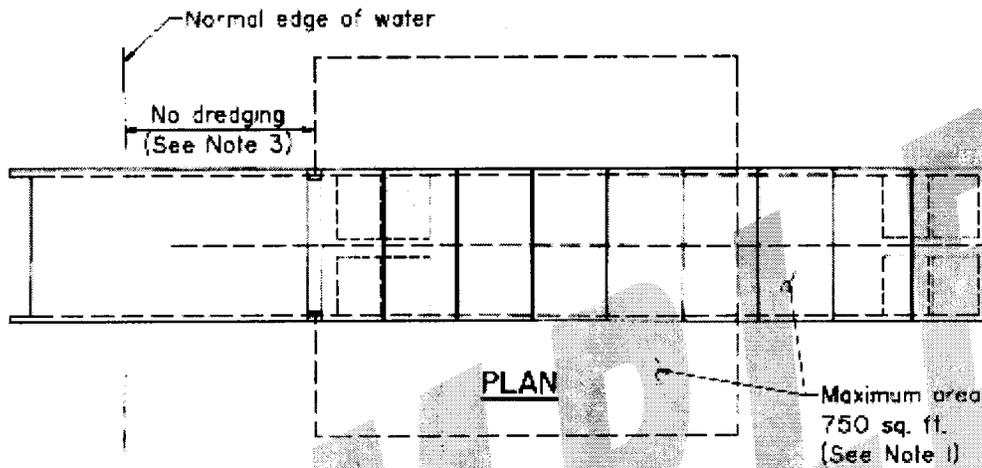

NOTE: Use of a photocopy of the U.S.G.S. quadrangle map(s) is recommended.

GENERAL PERMIT:

B.D.W.W. GP-2
FLOATING DOCK

Dwg. No. 2

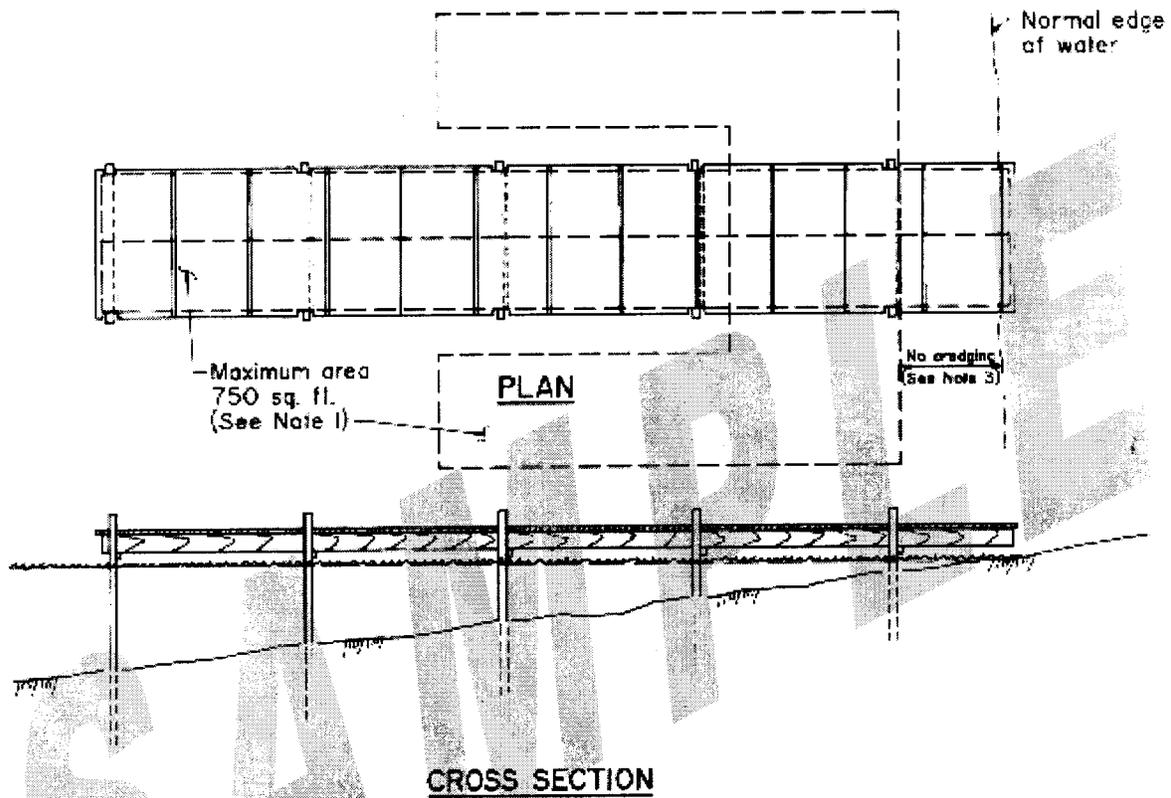

NOTES:

1. Maximum surface area of a small dock is 750 sq. ft., except where other restrictions apply. See Part One, Section D, Items 1 and 2.
2. Docks shall be anchored in accordance with Part One, Section D, Items 17 and 18.
3. Dredging is not permitted within 10 ft. of the normal edge of water. Dredging is permitted only for the mooring area for boats and is limited to 10 ft. beyond the edge of dock.
4. Flotation shall be installed in accordance with Part One, Section D, Items 15 and 16.

GENERAL PERMIT:

B.D.W.W. GP-2
PILE SUPPORTED DOCK

Dwg. No. 3

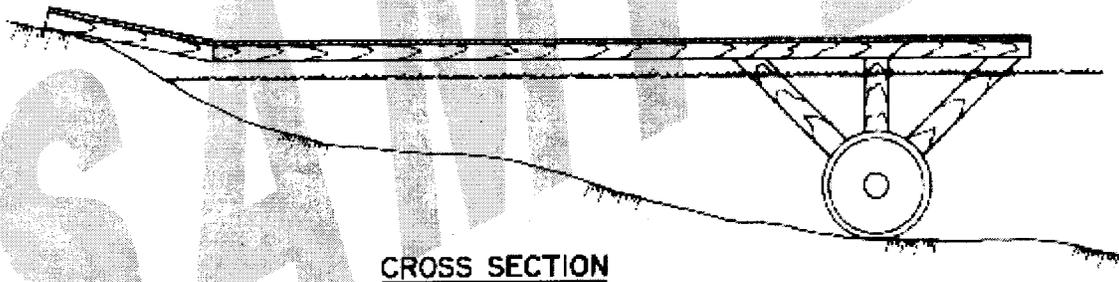

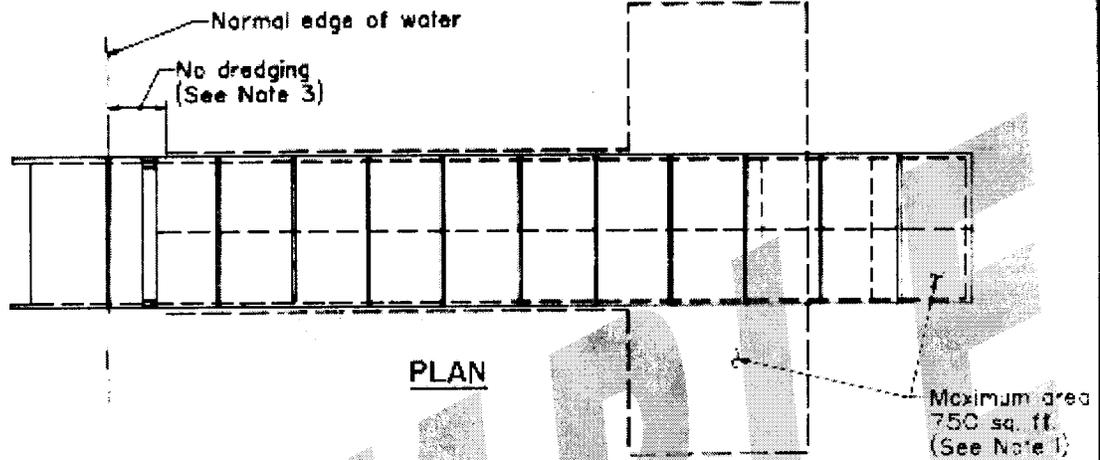

NOTES:

1. Maximum surface area of a small dock is 750 sq. ft., except where other restrictions apply. See Part One, Section D, Items 1 and 2.
2. Docks shall be anchored in accordance with Part One, Section D, Items 17 and 18.
3. Dredging is not permitted within 10 ft. of the normal edge of water. Dredging is permitted only for the mooring area for boats and is limited to 10 ft. beyond the edge of dock.

GENERAL PERMIT:

**B.D.W.W. GP-2
ALTERNATE DOCK DESIGN**

Dwg. No. 4

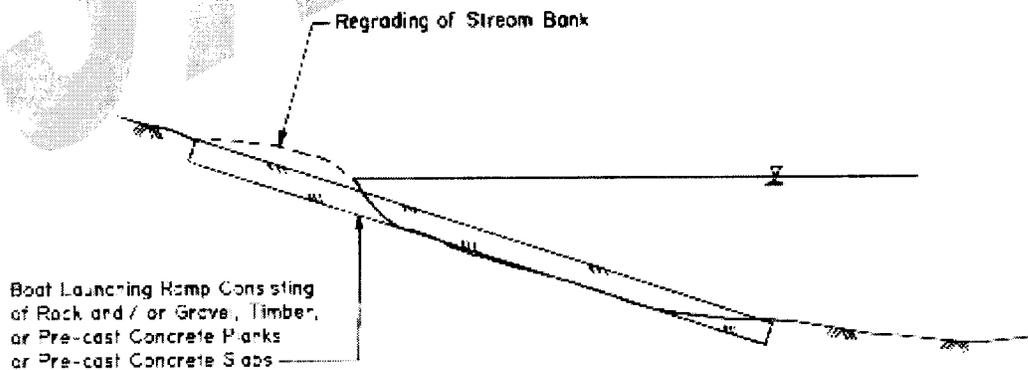

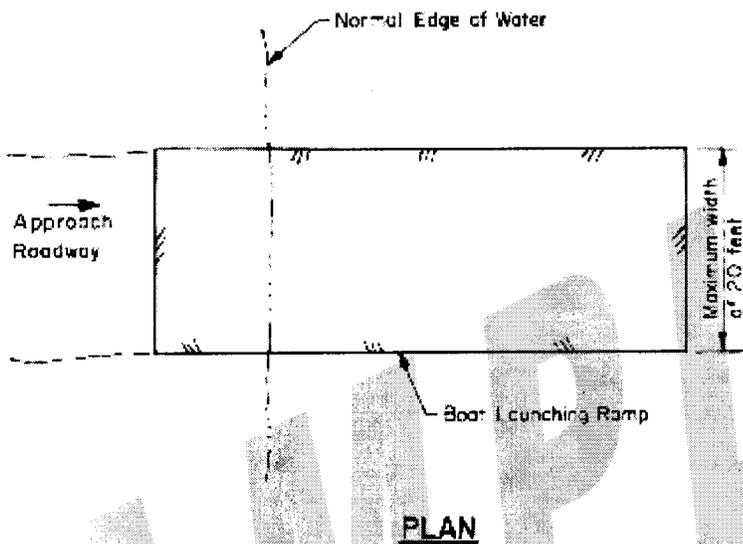

NOTES:

1. Maximum surface area of a small dock is 750 sq. ft., except where other restrictions apply. See Part One, Section D, Items 1 and 2.
2. Docks shall be anchored in accordance with Part One, Section D, Items 17 and 18.
3. Dredging is not permitted within 10 ft. of the normal edge of water. Dredging is permitted only for the mooring area for boats and is limited to 10 ft. beyond the edge of dock.

GENERAL PERMIT:

B.D.W.W. GP-2
BOAT LAUNCHING RAMP

Dwg. No. 5

CROSS SECTION

CHAPTER 105 WATER OBSTRUCTIONS AND ENCROACHMENT GENERAL PERMIT REGISTRATION

Please review the language of the General Permit(s) prior to completing the General Permit Registration to determine if the project is eligible for use of the General Permit and meets the terms and conditions of the permit(s).

REGISTERING A GENERAL PERMIT (GP):

After determining that the project is eligible for use and meets the terms and conditions of the General Permit (GP) intended to be registered, the following instructions are useful to properly complete the GP Registration (Registration) process. A properly completed Registration, done in blue or black ink, allows for a more efficient and timely review. Marking "N/A" indicates that a requirement is non-applicable to the project.

If the project is located in a county where the Conservation District (District) has been delegated responsibility under the Chapter 105 program, the Registration form and other associated documents (Registration package) must be sent to the District (except GP-10, GP-11, GP-15 or a GP for oil and gas related activities). If the District is not delegated or the applicant intends to register a GP-10, GP-11, GP-15 or a GP for oil and gas related activities, the Registration package must be sent to the appropriate Department of Environmental Protection (DEP) Regional Office. Contact Information for District and DEP Regional Offices can be found on GP Registration [Exhibit B \(3150-PM-BWEW0500B\)](#) and [Exhibit C \(3150-PM-BWEW0500C\)](#); and on DEP's eLibrary at <http://www.elibrary.dep.state.pa.us>.

Please provide **ONE (1) ORIGINAL** and **ONE (1) COPY** of the Registration package. An additional copy is required to be available at the project site during construction along with the GP terms and conditions. Prepare the Registration package for submission beginning with the Registration form, followed by the required attachments in the order they are requested. Not all attachments will be required in all situations for all projects. This standardized format will assist the permit reviewer to process the Registration package more efficiently. **The Registration package should be assembled and provided in the following order (additional details are in Section E):**

- | | |
|--|---|
| 1. General Permit Registration form | 11. Erosion & Sediment Control Plan (E&S Plan) |
| • See 16 for additional requirements for GP-11 | • Where required per Chapter 105 permit |
| 2. General Permit Registration Fee & Chapter 105 Fee Calculation Worksheet | 12. Written Directions to Project Site |
| 3. Notification sent to the Municipality & County | 13. Pennsylvania Natural Diversity Inventory (PNDI) receipt |
| • Proof of receipt is optional | 14. Request for a Bog Turtle Habitat Screening Form |
| 4. PASPGP-5 Reporting Criteria Checklist | 15. Activities which impact wetlands: |
| 5. Location Map | • wetland delineation |
| 6. Color Photographs | • wetland replacement plan |
| 7. Stream Name and Chapter 93 Classification | • check (where required for compensatory mitigation) |
| 8. Project Description & Aquatic Resource Impact Table | 16. Registration of a GP-11: |
| 9. Site Specific and/or Standard Drawings | • E&S Plan |
| 10. Site Plan | • Bridge and/or Culvert Replacement Projects or Projects That Change the Waterway Opening Worksheet |

Upon review by the District or DEP Regional Office, if the project is determined to not meet the terms and conditions of the GP or the Registration package is incomplete, the applicant will be contacted appropriately.

CHAPTER 105 GPs:

- **PLEASE MARK ("X") ALL THAT APPLY:** Place an "X" in the box next to the GP(s) the applicant intends to register. Mark all GPs that apply to the project.
 - If registering [GP-2](#), place an "X" in the box next to the appropriate dock or facility type. Additional details are available in the GP-2 permit.
 - [GP-11](#) registrations will require additional items under Section E, Item 16.

Instructions

- **Activity Related to Oil and Gas Exploration, Production or Transmission:** Place an “X” in the box next to “Activity Related to Oil and Gas Exploration, Production or Transmission” if the activity is oil and gas related.

Contact Information for DEP’s Regional Oil and Gas offices can be found on GP Registration [Exhibit B \(3150-PM-BWEW0500B\)](#); and on DEP’s eLibrary at <http://www.elibrary.dep.state.pa.us>.

- **Activity Subject to Federal Energy Regulatory Commission (FERC) approval:** Place an “X” in the box next to “Activity Subject to FERC approval” if the activity is regulated by FERC and provide the FERC docket number.

Place an “X” in the box next to “FERC Natural Gas Act Facility” if the activity is also regulated under the Federal Natural Gas Act.

SECTION A. APPLICANT INFORMATION:

Please fill in the requested information about the applicant (the owner) as accurately as possible. If the property of the project site is privately owned, please list all owners. If owned by a partnership, please list all members. If owned by a corporation, a political subdivision, or a Commonwealth department, board, commission, receiver, trustee or authority, please list the name of the entity. **See SECTION H. CERTIFICATION (page 9) for clarification of applicant signature.**

Please be sure to include DEP Client Identification Number (if known) and Employer Identification Number (EIN), as well as select or write in the proper Client Type and Code (listed below). This information is important to DEP’s data tracking system. Please leave blank if the information is unknown or there is a question regarding the proper answer or information. Please note however, that leaving out information may result in delays or denial of the authorization to use the GP.

<u>Government</u>		<u>Non-Government</u>		<u>Individual</u>	
AUTH	Authority	ASSOR	Association/Organization	INDIV	Individual
CNTY	County	NPACO	Non-Pennsylvania Corporation		
FED	Federal Agency	PACOR	Pennsylvania Corporation		
MUNI	Municipality	PARTG	Partnership-General		
SCHDI	School District	PARTL	Partnership-Limited		
STATE	State Agency	OTHER	Other (Non-government)		
OTHG	Other (Government)	SOLEP	Sole Proprietorship		
NONPG	Non-Pennsylvania Government	LLP	Limited Liability Partnership		
		LLC	Limited Liability Company		
		ESTST	Estate/Trust		

Business entities desiring to do business within the Commonwealth of Pennsylvania must register with the Pennsylvania Department of State. This requirement includes foreign filing associations such as; corporations for profit, corporations not-for-profit, limited partnerships, limited liability companies, professional associations and business or statutory trusts, which were not created or formed under the laws of Pennsylvania. ***This requirement does not apply to Individuals.***

To register with the Commonwealth, please visit Pennsylvania Department of State, Bureau of Corporations and Charitable Organization registration website at <http://www.dos.pa.gov/BusinessCharities/Pages/default.aspx>

SECTION B. CONSULTANT INFORMATION:

If there is a consultant involved in the project, please fill in the requested information about the consultant as accurately as possible. Please be sure to include Employer Identification Number (EIN). If there is no consultant, please place an “X” in the box next to “N/A”.

SECTION C. PROJECT INFORMATION:

Please fill in the requested information to identify the project.

Please be sure to include DEP Site Identification Number (if known), as well as select or write in the proper Site-to-Client Relationship and Code (listed below). Please leave blank if the information is unknown or there is a question regarding the proper answer or information. Please note however, that leaving out information may result in delays or denial of the authorization to use the GP.

AGENT	Agent for Owner or Operator	LESSE	Lessee	OPR	Operator	OTHER	Other
CONTR	Contractor for Owner or Operator	LESOP	Lessee/Operator	OWN	Owner	GEN	Generator
				OWNOP	Owner/Operator	PROWN	Property Owner

The applicant will provide the latitude and longitude coordinates for each proposed impact as required in Section G. The coordinates should be in decimal degrees. It is important to identify the method used to determine the latitude and longitude. Check the appropriate box matching the collection method used. Also check the appropriate box matching the Horizontal Reference Datum (or projection datum) employed in the latitude and longitude collection process. Identify the date of collection (mm/dd/yyyy) if latitude and longitude coordinates were collected via GPS, WAAS and LORAN.

Description of collection methods:

- EMAP:** Method based on eMAP Pa program. (www.emappa.dep.state.pa.us).
- HGIS:** Method based on the Pennsylvania Natural Heritage Program database (formerly known as PNDI). The database is located at www.naturalheritage.state.pa.us. **Note: This method may be preferable since all GP registrations require a PNDI search be conducted.**
- GISDR:** Method based on the use of GIS and Digital Raster Graphic 1:24,000 scale USGS 7.5 minute quadrangle maps.
- ITPMP:** Method based on map interpolation of USGS 7.5 minute quadrangle maps.
- GPS:** Global Positioning method with unspecified parameters.
- WAAS:** Method base on GPS WAAS differentially correct.
- LORAN:** Method based on Loran C.

Types of Horizontal Reference Datum (or projection datum):

- NAD27:** North American Datum of 1927
- NAD83:** North American Datum of 1983
- WGS84:** World Geodetic System of 1984 (GEO84)

SECTION D. RESOURCE IDENTIFICATION:

Please place an "X" in the appropriate box to indicate if the applicant has identified that any of these resources may be present at the project site; indicate that no resources were identified or indicate and list those resources which were identified.

- National Register of Historic Places
- Exceptional Value (EV) Waters
- Wild or Stocked Trout Streams
- National Registry of Natural Landmarks
- High Quality (HQ) Waters
- Wild and Scenic Rivers
- Local historical site
- Threatened and Endangered Species
- Wetlands

Please review the conditions of the specific GP(s) as they pertain to these items prior to completing the Registration form to determine eligibility. The registration resource identification list in this form is not all-inclusive and other resources may also require certain restrictions or prohibit registering the GP. Identification of these resources on the project site may result in specific areas, sites or conditions where the GP does not apply and is not valid.

The following items are useful in identifying these resources:

- **Historic Places:** The Pennsylvania Historic and Museum Commission, Bureau for Historic Preservation manages the National Register of Historic Places for Pennsylvania. Access to these paper records is free and open to the public by appointment at the office in Harrisburg (see [Exhibit A - 3150-PM-BWEW0500A](#)).

Access to some of these data is available on the Cultural Resources Geographic Information System (CRGIS) at <http://www.phmc.pa.gov/Preservation/Cultural-Resources-GIS/Pages/default.aspx>.

- **National Natural Landmarks:** Additional information on National Natural Landmarks and the National Registry of Natural Landmarks is available at <http://www.nature.nps.gov/nnl/>.
- **Exceptional Value and High Quality Waters (including Exceptional Value Wetlands):** Additional information on Exceptional Value (EV) and High Quality (HQ) waters can be found on DEP's website at <http://www.dep.pa.gov/Business/Water/PointNonPointMgmt/WaterQuality/Pages/ExistingUse.aspx> and 25 Pa. Code Chapter 93 at <http://www.pacode.com/secure/data/025/chapter93/chap93toc.html>.

25 Pa. Code Chapter 93 also provides an important linkage to Exceptional Value Wetlands which are determined in 25 Pa. Code Chapter 105.17 found here <http://www.pacode.com/secure/data/025/chapter105/s105.17.html>.

- **Threatened and Endangered Species:** (see also Section E, Items 13 & 14 for requirements and documentation): Additional information can be found at <http://www.naturalheritage.state.pa.us/>
- **Wild and Stocked Trout Waters:** Additional information on Wild and Stocked Trout Waters can be found at http://fishandboat.com/waters_trout.htm.

- **Wild or Scenic Rivers:** Additional information on National or State Wild or Scenic rivers can be found at <http://www.rivers.gov/pennsylvania.php> and <http://www.dcnr.state.pa.us/brc/conservation/rivers/scenicrivers/index.htm>
- **Wetlands:** (see also Section E, Item 15 for requirements and documentation): Additional information on the 1987 Corps of Engineers Wetlands Delineation Manual and the appropriate Regional Supplements to the Corps of Engineers Wetland Delineation Manual for use in Pennsylvania can be found at http://www.usace.army.mil/missions/civilworks/regulatoryprogramandpermits/reg_supp.aspx
- **Additional Information:** Additional Information on resource identification (including agency contact information) can be found on GP Registration [Exhibit A \(3150-PM-BWEW0500A\)](#) and [Exhibit B \(3150-PM-BWEW0500B\)](#); on DEP's website at <http://www.dep.pa.gov>; and on DEP's eLibrary at <http://www.elibrary.dep.state.pa.us>.

SECTION E. REGISTRATION CHECKLIST AND REQUIREMENTS:

Please place an "X" next to each item (1-16) to ensure it is completed and/or provided. Unless otherwise specified, all items are required to ensure **a complete Registration package**. Please carefully read the terms and conditions of the GP(s) the applicant intends to register, as additional actions may be required outside of the registration and acknowledgement process prior to construction. Please retain the GP(s) terms and conditions to be available at the project site during construction.

Please provide **ONE (1) ORIGINAL** and **ONE (1) COPY** of the Registration package; retain an additional copy to be available at the project site during construction. Prepare the Registration package for submission beginning with the Registration form and follow by the required attachments in the order they are requested.

1. General Permit Registration form properly completed and signed
The original GP Registration form shall be accurately completed, signed and provided.
2. General Permit Registration Fee and Chapter 105 Fee Calculation Worksheet
The fee required for a project authorized under these GPs shall be consistent with 25 PA Code §105.13 (relating to regulated activities – information and fees). To determine the registration fee, please complete the [Chapter 105 Fee\(s\) Calculation Worksheet \(3150-PM-BWEW0553\)](#). Please provide the completed worksheet and a check for the applicable fee(s) made payable to the "Commonwealth of Pennsylvania Clean Water Fund" OR "_____ County Conservation District, Clean Water Fund", whichever is the reviewing entity.
3. Notification sent to the Municipality & County:
Please provide a copy of the Registration form to the Municipality & County in which the work will be performed. Please mark the checklist appropriately to indicate that the applicant has done so. Proof of receipt is not required to be provided to DEP, however if it is volunteered, it should be provided in this position within the Registration package.
4. [PASPGP-5 Reporting Criteria Checklist \(3150-PM-BWEW0051\)](#) properly completed:
PASPGP-5 Reporting Criteria Checklist must be completed and provided as part of all PADEP Chapter 105 applications / registrations to determine the appropriate federal Pennsylvania State Programmatic General Permit-5 (PASPGP 5) review procedure. Specific instructions are found on the form and should be carefully followed.
See PASPGP-5 Part II for definition of "Single and Ccomplete Pproject" prior to answering questions. PASPGP-5 can found here: <http://www.nab.usace.army.mil/Missions/Regulatory/PermitTypesandProcess.aspx>
5. Location Map with project site marked:
The location map shall be 1:24000 scale 8 ½" x 11" photocopy of the appropriate portion of the U.S.G.S. Quadrangle Map with the project site marked. The Location Map may be a GIS generated map containing the required items with the project site marked.
6. Color Photographs with dates and descriptions:
Please provide color photographs of the project site area including dates and descriptions. The photos, dates and descriptions should be provided on an 8 ½" x 11" piece of paper.
Color photographs are only required for GP-3 and GP-11. Please see those permit conditions for additional details.
7. Stream Name and Chapter 93 Classification (example: UNT to HOUSE RUN, HQ-WWF/EV):

Please indicate the stream name and Chapter 93 classification in a format similar to the example. Please reference both the Designated Use Classification found in 25 Pa. Code Chapter 93 and the Existing Use Classification found on DEP's website (provided in Section D). If the stream segment is on the Existing Use list, then that classification should be provided.

The stream name will assist DEP or District reviewers in determining if the project or activity also requires a Submerged Lands License Agreement (SLLA). GPs shall not be effective to authorize any project on, under or over submerged lands of this Commonwealth until the owner has obtained a license from DEP authorizing the occupation of such submerged lands issued under Section 15 of the Dam Safety and Encroachments Act, (32 P.S. § 693.15), Section 514 of The Administrative Code of 1929 (71 P.S. § 194), or other applicable laws. Upon receipt of the Registration package, the Department will review the project to determine if its location is on, under or over submerged lands of the Commonwealth.

If applicable, DEP will prepare an SLLA and forward it to the applicant for execution prior to acknowledgement of registration to use the GP. An annual charge is required for facilities constructed, owned or operated except for categories of activities and structures at 25 Pa. Code § 105.35 (c)(1)-(7).

8. Project Description including proposed impacts to waters and/or wetlands and PNDI Avoidance Measures (if applicable):

Briefly describe the project, including proposed impacts to waters and/or wetlands. The Project Description may be provided on a separate sheet and included in the appropriate location as part of the Registration package.

If the PNDI Project Environmental Review Receipt for the project contains Avoidance Measures, please include the Avoidance Measures in the description.

Please prepare and provide a detailed chart of each proposed impact to waters and/or wetlands as it pertains to the project's activities per the instructions provided in Section G. Include a unique identifier (i.e. **Stream 1, Wetland 3, etc**) which will be used in all related items. The [Aquatic Resource Impact Table \(3150-PM-BWEW0557\)](#) worksheet or equivalent which provides all of the details requested must be attached as part of the Registration package.

9. Site Specific Drawing(s) depicting the project's site specific activities (or Standard Drawing):

Please provide a unique site specific drawing for the project and the GP being registered. Standard Drawings (included in the GPs) may be properly completed and provided when appropriate to the project and the GP being registered, but are not required.

If registering multiple GPs at one time, or the project has several locations, please including all applicable Site Specific and/or Standard Drawings for each GP and location. Please label each drawing with the unique identifier created for the Impact Table (Section E.8. above and Section G below).

10. Site Plan depicting the site of the project's General Permit activities:

Please prepare and provide a detailed Site Plan as it pertains to the project's activities per the instructions provided in Section F. If registering multiple GPs at one time, or the project has several locations, please mark all Standard Drawing locations on the Site Plan. Site Plan may consist of required items placed on or provided by a USGS Quadrangle map, aerial map, etc. If required information cannot be included on the Site Plan, it may be attached as part of the Registration package. For example, a FEMA map may be provided instead of including the 100 year flood elevation.

11. Erosion & Sediment Control Plan (E&S Plan) specific to the activity conducted under this permit

Work must be done in compliance with Chapter 102 of the Department's Rules and Regulations (relating to Erosion Control). Prior to construction, the applicant must provide an E&S Plan to be reviewed and deemed appropriate by the appropriate DEP Regional Office or delegated District in which the activities are proposed. The E&S Plan shall be implemented prior to, during and after construction. The E&S Plan is not a requirement for Registration of a GP (except GP-11 or GPs for oil and gas related activities), and does not need to be included in the Registration package.

If the applicant intends to register a GP-11 or a GP for oil and gas related activities an E&S Plan must be provided to be reviewed and deemed appropriate by the appropriate DEP Regional Office and shall be implemented prior to, during and after construction. The project site shall at all times be available for inspection by authorized employees of DEP or the delegated District. The E&S Plan shall be available at the project site during construction.

Guidance for preparing an E & S Plan, as well as BMP specifications that meet DEP requirements, can be found in the Department's [Erosion and Sediment Pollution Control Program Manual \(363-2134-008\)](#).

Instructions

12. Detailed Written Directions to Project Site:

Please provide detailed written driving directions or GPS coordinates to the project site. The directions should go to the location(s) of the GP activity(s), not just the project site entrance or access point. The directions and/or coordinates may be provided on a separate sheet and included in the appropriate location as part of the Registration package.

13. Pennsylvania Natural Diversity Inventory (PNDI):

Pennsylvania Natural Diversity Inventory (PNDI) reviews are required for all GP s. Please check the appropriate box indicating the information provided:

- Complete the [Pennsylvania Natural Diversity Inventory \(PNDI\) Project Planning and Environmental Review Form \(8100-FM-FR0161\)](#) and provide it to the person conducting the online PNDI Project Planning and Environmental Review Tool search. The person performing the search could be someone from DEP, the appropriate District, or a consultant. If the completed PNDI Project Planning & Environmental Review Form is the only information provided as part of the Registration package, additional review time will be required and the Permit Decision Guarantee (see Policy for Implementing the Department of Environmental Protection Permit Review Process and Permit Decision Guarantee (021-2100-001)) will not apply.
- Alternatively, if the applicant plans to conduct the PNDI online search, a Review form is not needed prior to the PNDI online search. If the applicant conducts the PNDI online search, different registration items are required based on the search results:

- If the PNDI Project Environmental Review Receipt shows “No Known Impacts”, please provide a copy of the initialed Review Receipt as part of the Registration package.
- If the PNDI Project Environmental Review Receipt contains “Avoidance Measures”, the PNDI review is not complete or satisfied unless the applicant has initialed indicating he/she can and will fulfill the Avoidance Measure(s) for that project. DEP recommends including Avoidance Measures in the Project Description. Please provide a copy of the initialed Review Receipt as part of the Registration package.

If the applicant cannot or chooses not to meet the Avoidance Measure(s), he/she must follow the process below.

- If the PNDI Project Environmental Review Receipt has "Potential Impacts", DEP and the jurisdictional agencies require that the applicant provide additional information to the agencies noted on the Receipt for further review. Please provide a copy of the initialed PNDI Project Environmental Review Search Receipt showing “Potential Impacts” AND documentation of appropriate agency coordination required on the PNDI Receipt.

14. Bog Turtle Habitat Screening:

Bog Turtle Habitat screening is required for GPs 5, 6, 7, 8, 9, 11, and 15 which may impact wetlands in the following Counties: Adams, Berks, Bucks, Carbon (Aquashicola Creek Watershed only), Chester, Cumberland, Dauphin (Swatara Creek Watershed only), Delaware, Franklin (Antietam Creek Watershed), Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, Schuylkill (Swatara Creek Watershed only) and York. Please check the appropriate box indicating the information is provided:

- Complete the [Request for a Bog Turtle Habitat Screening Form \(3150-PM-BWEW0550\)](#) and provide it as part of the Registration package. If the completed Request for a Bog Turtle Habitat Screening Form is the only information provided in the Registration package, additional review time will be required.
- Alternatively, if the applicant plans to contact an agency representative to schedule an on-site assessment of the wetlands for bog turtle habitat prior to providing the Registration package, different registration items are required based on the search results:
 - Copy of “No Effect” determination from the Army Corp of Engineers
 - Documented clearance from the US Fish and Wildlife Service

15. Activities which impact wetlands (temporary and/or permanent):

For activities which will impact wetlands (temporary and/or permanent), the following are required to be provided as part of the Registration package:

Instructions

- A wetland delineation with complete data sheets in accordance with the 1987 Corps of Engineers Wetland Delineation Manual AND the appropriate Regional Supplements to the Corps of Engineers Wetland Delineation Manual for use in Pennsylvania.
- If permanent direct or indirect wetland impacts are greater than 0.05 acres and require compensatory mitigation or an applicant offers compensatory mitigation to address potential antidegradation concerns, include a wetland replacement, restoration or enhancement plan in accordance with the Department's Replacement criteria which provides wetland replacement acreage or function at a minimum one to one acre ratio.
- If compensatory mitigation (for permanent direct or indirect wetland impacts) onsite is not feasible: A check payable to the National Fish and Wildlife Foundation, N.A. 1237, may be provided in accordance with the fee schedule below as compensatory mitigation for impacts in wetlands, in accordance with the Pennsylvania Wetland Replacement Project.

Fee Schedule:

Deminimus impact ≤ .05 acre	\$ 0.00	> .20 acre to .30 acre -	\$2,500.00
> .05 acre to .10 acre -	\$ 500.00	> .30 acre to .40 acre -	\$5,000.00
> .10 acre to .20 acre -	\$1,000.00	> .40 acre to .50 acre -	\$7,500.00

16. Registration of a [GP-11](#):

Registration of a GP-11 can only be performed by DEP and requires additional information based on the details of the project, please check the appropriate box indicating the information is provided as part of the Registration package:

- N/A because not registering GP-11
- An E&S Plan shall be provided as part of the Registration package to be reviewed and deemed appropriate by the appropriate DEP Regional Office and shall be implemented prior to, during and after construction. The project site shall at all times be available for inspection by authorized employees of DEP or the delegated District. The E&S Plan shall be available at the site at all times.
- If the project includes a bridge or culvert replacement or the proposed work will change the waterway opening, please complete and provide the [Bridge and/or Culvert Replacement Projects or Projects That Change the Waterway Opening \(3150-PM-BWEW0552B\)](#) worksheet. If the project consists of similar work (replacement or change in waterway opening) on more than one structure, provide the data requested for each structure included in this Registration package.

SECTION F. SITE PLAN

Please prepare and provide a detailed Site Plan as it pertains to the project's activities as requested in Section E, Item 10. Please place an "X" in the appropriate box to indicate what is shown on the Site Plan; indicate that all items are included or indicate and list those items which were not included. Unless otherwise specified, all items are required to be included in the site plan.

- Stream Name (provide name of impacted stream)
- Stream Limits and Flow Direction
- Stream Impacts on site (including dimensions)
- Wetlands on site (including acreage)
- Wetland Impacts on site (including acreage)
- Other Waters (i.e. streams, pond, lakes)
- Site Specific and/or Standard Drawings location(s)
- Photograph location(s)
- 100 year Flood Elevation OR FEMA map with location marked
- Limits of Earth Disturbance Associated with this Activity
- Location of Property Lines Relative to the Project
- Existing Utilities, Right Of Ways (ROWs), Easements
- Existing Buildings, Roadways, Other Structures
- Proposed Buildings, Roadway ROWs, Other Structures

SECTION G. AQUATIC RESOURCE IMPACTS ASSOCIATED WITH PROJECT WORK SITE

Please prepare and provide a detailed worksheet of the waters and/or wetlands impacts associated with the project work site as requested in Section E, Item 8; include the unique identifier, project/site name, date and applicant name/client, project information (including latitude and longitude) and waters and/or wetlands impact data in table format. Provide one row of data for each regulated (DEP Chapter 105 and Corps Section 404) structure or activity and type of impact for the proposed project based on the instructions for each requirement below; all dimensions should be reported to the nearest one (1) foot, rounding up.

Please place an "X" in the appropriate box to indicate what is included in the Aquatic Resources Impact Table indicate that all items are included or indicate and list those items which were not included. Depending on the details of project, not all impact types will be included in the table.

Project Information:

- Structure / Activity Unique Identifier for each regulated structure and/or activity being proposed
- Aquatic Resource being impacting; stream or wetland
- Aquatic Resource Type; based on wetland or stream
 - Stream type: perennial, intermittent, ephemeral stream or floodway
 - Wetland type: PEM, PSS, PFO or POW wetland
- Latitude (dd nad 83)
- Longitude (dd nad 83)
- Work proposed / impact type: aerial, boring, excavation or fill
- Waters Name: name of the stream or wetland (if available)
- PA Code Chapter 93 Designation:

Army Corps of Engineers / Section 404 jurisdictional area:

- Corps Impact Type: temporary, permanent or n/a;
 - Permanent Impacts – For the purpose of the PASPGP-5, permanent impacts are defined as waters of the United States, including jurisdictional wetlands indefinitely filled, flooded, excavated, or drained as a result of the regulated activity. Permanent impacts may or may not be considered a loss of waters of the United States, as defined above, since some permanent impacts, such as those associated with bank stabilization and stream/wetland enhancement projects, may not have a permanent adverse effect.
 - Temporary Impacts – For the purpose of the PASPGP-5, temporary impacts are defined as waters of the United States, including jurisdictional wetlands not filled, flooded, excavated, or drained for an indefinite period of time, and restored to pre-construction contours and elevation.
 - "n/a" if no proposed work in, over, or under waters and/or wetlands
- Stream Impact: width, length and area of stream impact;
 - Width: top of bank to top of bank, of transverse and/or full channel fill stream impacts;
 - Length: down the center line of stream, of transverse and/or full channel fill stream impacts;
 - Area: direct and indirect/secondary stream impact; dewatering or fill placed in stream channel;
 - "n/a" if impact is to a wetland OR if "n/a" to Corps Impact Type
- Wetland Impact: area of impacts to wetlands; indicate "n/a" if impact is to a stream OR if "n/a" to Corps Impact Type

DEP / Chapter 105 jurisdictional area:

- PADEP Impact Type: temporary or permanent.
 - Permanent Impacts are those areas affected by a water obstruction or encroachment that consist of both direct and indirect impacts that result from the placement or construction of a water obstruction or encroachment and include areas necessary for the operation and maintenance of the water obstruction or encroachment located in, along or across, or projecting into a watercourse, floodway or body of water.
 - Temporary Impacts are those areas affected during the construction of a water obstruction or encroachment that consists of both direct and indirect impacts located in, along or across, or projecting into a watercourse, floodway or body of water that are restored upon completion of construction. This does not include areas that will be maintained as a result of the operation and maintenance of the water obstruction or encroachment located in, along or across, or projecting into a watercourse, floodway or body of water (these are considered permanent impacts).
- Floodway Impact: direct and indirect/secondary 100-year floodway impact, including watercourse;
- Wetland Impact: Provide the square feet area of impacts to wetlands; indicate "n/a" if impact is to a stream

Provide completed aquatic resource impact table with Chapter 105 Water Obstruction and Encroachment application/registration. The [Aquatic Resources Impact Table \(3150-PM-BWEW0557\)](#) worksheet or equivalent may be used to complete this requirement.

SECTION H. CERTIFICATION

Please sign, indicate title and date in the appropriate locations. The Registration package will not be accepted unless the original form and copy are signed and dated by the applicant/owner. **See SECTION A. APPLICANT INFORMATION.**

Clarification on applicant/owner signature:

Individual– The Registration form must be signed by all owners listed within the deed of the property or lease/rental agreement with their original signatures. *For Individual(s), no indication of title is necessary.*

Corporations – The Registration form must be signed by the President or Vice President, Attested by the Secretary (Assistant Secretary) or Treasurer (Assistant Treasurer).

If others are signing on behalf of the corporation, a document evidencing delegation of contracting authority must be provided. Acceptance of the delegated documentation is at the sole discretion of DEP. Absent satisfactory documentation of signatory authority, only the above officers will be accepted as appropriate signatories.

Government agencies – The Registration form must be signed by the Chief Officer or the President/Vice President of the government agency, if incorporated. Chief Clerk, Secretary or Treasurer Signature is required to witness or attest.

Partnerships – The Registration form must be signed by either one general partner to bind the partnership or all partners must sign. For Limited Partnerships (LP), where each individual is a general partner, any general partner may sign. If a corporation is a general partner, the signage must 1) indicate the name of the corporation, 2) that it is a general partner, and 3) the signature of the President or Vice President *and* the signature of the Secretary or Treasurer.

If others are signing on behalf of the Limited Partnership, a document evidencing delegation of contracting authority must be provided. Acceptance of the delegated documentation is at the sole discretion of DEP. Absent satisfactory documentation of signatory authority, only the above officers will be accepted as appropriate signatories.

Limited Liability Companies – The Registration form must be signed by a member for a Limited Liability Company (LLC), where it is member managed; where it is manager managed, a manager must sign. Please indicate whether the person is signing as a "Member" or as a "Manager" of the LLC, according to the Company's Limited Liability Company Operating Agreement.

If anyone other than a "Member" or "Manager" are signing on behalf of the LLC, documentation of authority to sign on behalf of the LLC must be provided.

This GP shall not be authorized until the E&S Plan has been reviewed by the appropriate DEP Regional Office or District, Federal Authorization has been obtained and, where required, an SLLA has been obtained from DEP.

SECTION I. ACKNOWLEDGEMENT

Upon review of this Registration package, the applicant will receive an acknowledgment letter and **one (1) copy** of the signed GP Registration form acknowledging use of the GP(s) and federal authorization under Pennsylvania State Programmatic General Permit (PASPGP). Included with PASPGP authorization will be the PASPGP Permit Compliance, Self-Certification Form which must be completed, signed and returned to the appropriate Army Corp of Engineers District office, once the project is completed. If PASPGP is not attached, work on the project may NOT begin work until federal authorization is obtained.

The acknowledgement letter, Registration package (including acknowledged Registration form), the GP(s) terms and conditions, required Federal authorization(s), and the E&S Plan must be maintained and available at the project site during construction. Please remember the authorization is subject to all terms and conditions listed in the GP(s).

CHAPTER 105 FEE(S) CALCULATION WORKSHEET

Additional information can be found at [25 PA Code §105.13](#) (relating to regulated activities – information and fees), the General Permit Registration ([3150-PM-BWEW0500](#)), the Joint Permit Application ([3150-PM-BWEW0036](#)) and the Dam Permit Application ([3140-PM-BWEW0001](#))

Federal, State, county or municipal agencies or municipal authorities:

EXEMPT from fees

These entities are exempt from these fees. If the applicant falls into one of these categories, please check the box above and provide only the first page of this worksheet with the project application or registration.

ALL OTHERS:

1. Please place an “X” in the box next to all authorizations that apply to the project and complete the fee information below those authorization(s). Projects may require multiple authorizations and fees, further clarification and examples are included below and at the end of this document.
2. Total each authorization, Section, and Part. Part One is for Water Obstructions and Encroachment authorizations, Part Two is for Dam Safety authorizations.
3. Please provide this completed worksheet (page 1 and page 2 and/or page 3, as is appropriate to the project) and a check for the applicable fee(s) with the project application or registration. The check should be made payable to the “**Commonwealth of Pennsylvania Clean Water Fund**” OR “**_____ Conservation District Clean Water Fund**”, whichever is the reviewing entity.

NOTES:

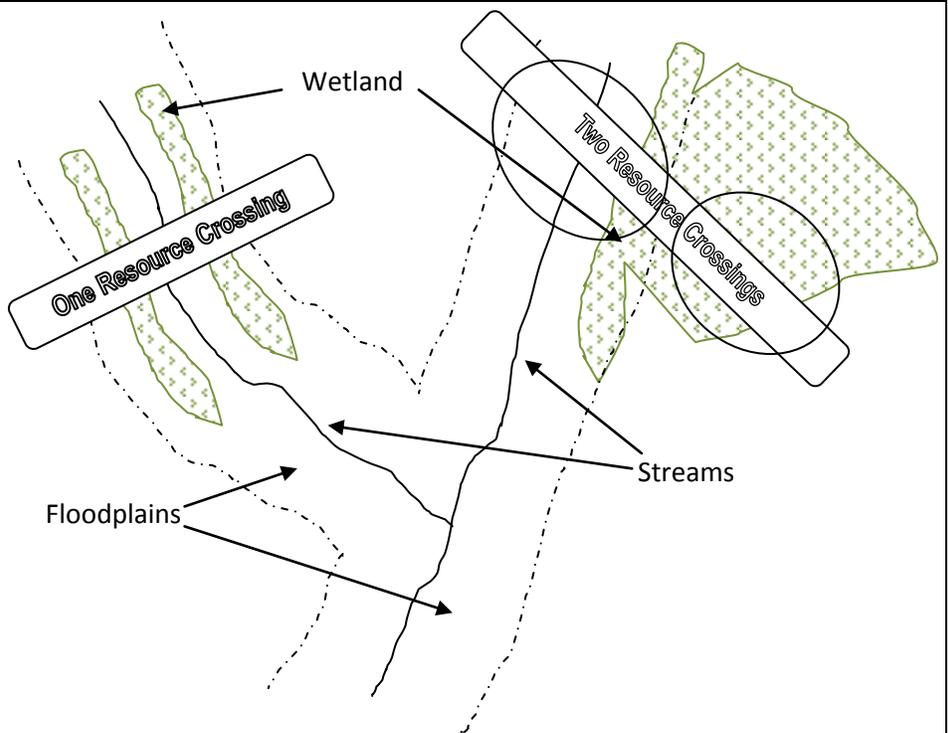

Per 25 PA Code §105.13(c)(2)(iii) Disturbance review fees are calculated by individually adding all of the permanent and temporary impacts to waterways, floodways, floodplains and bodies of water including wetlands to the next highest tenth acre and multiplying the permanent and temporary impacts by the respective fees and then these amounts are added to the other applicable fees.

Entities proposing structures or activities to occupy a Submerged Lands of the Commonwealth must obtain a Submerged Lands License Agreement (SLLA) and pay the appropriate annual charge. The applicant will be contacted if this charge applies to the project.

Floodway – The channel of the watercourse and portions of the adjoining floodplains which are reasonably required to carry and discharge the 100-year frequency flood. Unless otherwise specified, the boundary of the floodway is as indicated on maps and flood insurance studies provided by FEMA. In an area where no FEMA maps or studies have defined the boundary of the 100-year frequency floodway, it is assumed, absent evidence to the contrary, that the floodway extends from the stream to 50 feet from the top of the bank of the stream.

Wetland and Stream Clarification:

- ¹ In many instances, wetlands are located within the floodplain of a stream. These resources for the purposes of calculating disturbance fees are considered co-located or overlapping and the area of disturbance would only be used once.
- ² In the case of GP-5, GP-7 and GP-8 fees are charged per structure per resource crossing and the following also applies to the disturbance fees:
 - A crossing of the stream and the floodplain with wetlands present within the floodplain is considered one resource crossing.
 - When the crossing traverses a stream and the floodplain and a wetland that is located outside of the floodplain or a wetland that extends out beyond the floodplain, it is considered two resource crossings.

PART ONE: WATER OBSTRUCTIONS AND ENCROACHMENTS

SECTION A. APPLICATION FEES

WATER OBSTRUCTION AND ENCROACHMENT PERMIT (Joint Permit Application)

Some activities or structures within a project may also qualify for an accumulation of General Permit fees, please mark the box above indicating an Individual Water Obstruction and Encroachment Permit AND the corresponding fee(s) in the General Permit section below those. Activities or structures not qualifying for a General Permit fee must include a disturbance fee.

<input type="checkbox"/> Administrative Filing Fee ¹		\$ 1,750	+

Check amount:	_____	Payable to:	_____

GP Fee Explanation (#):

GP #	Description	Fee	Fee Explanation (#)
GP-1	Fish Habitat Enhancement Structures	\$ 50	Fee is assessed per project not per individual structure.
GP-2	Small Docks and Boat Launching Ramps	\$175	Fee is assessed per individual dock or boat ramp. The fee is the number of docks and ramps totaled times the fee.
GP-3	Bank Rehabilitation, Bank Protection and Gravel Bar Removal	\$250	Fee is assessed per project and not individual bank or gravel bar removal locations. Only one single and complete project along a continuous stream reach not exceeding 500 feet measured down centerline of stream. Additional projects or areas must be separately registered and the fee would apply to each registration.
GP-4	Intake and Outfall Structures	\$200	Fee is assessed per individual intake or outfall structure. The fee is the total number of structures times the fee.
GP-5 ²	Utility Line Stream Crossings ²	\$250	Fee is assessed per individual utility line or conduit crossing (a wetland and stream crossing may be separate crossings even if adjacent). The fee is the total number of utility lines times the number of resource crossings times the fee.
GP-6	Agricultural Crossings and Ramps	\$ 50	Fee is assessed per individual crossing or ramp structure. The fee is the total number of crossings and ramps times the fee.
GP-7 ²	Minor Road Crossings ²	\$350	Fee is assessed per individual minor road crossing (a wetland and stream crossing may be separate crossings even if adjacent). The fee is the total number of road crossings times the fee.
GP-8 ²	Temporary Road Crossings ²	\$175	Fee is assessed per individual temporary road crossing (a wetland and stream crossing may be separate crossings even if adjacent). The fee is the total number of temporary road crossings times the fee.
GP-9	Agricultural Activities	\$ 50	Fee is assessed per project not per individual structure or activity. Multiple projects can be registered under a single registration and as such the fee is applied to each project and then totaled.
GP-10	Abandoned Mine Reclamation	\$500	Fee is assessed per project not per individual activity. Multiple projects can be registered under a single registration and as such the fee is applied to each project and then totaled.
GP-11 ¹	Maintenance, Testing, Repair, Rehabilitation, or Replacement of Water Obstructions and Encroachments ¹	\$750	Fee is assessed for each registration package (can include multiple activities or structures) and is added to the permanent and temporary disturbance review fees calculated for each registration package respectively.
GP-15 ¹	Private Residential Construction in Wetlands ¹	\$750	Fee is assessed for each registration package (can include multiple activities or structures) and is added to the permanent and temporary disturbance review fees calculated for each registration package respectively.

Water Obstruction and Encroachment Examples:

1. **GP-7 Minor Road Crossing:** Minor road crossing of a stream that qualifies for BDWM GP-07.

GENERAL PERMIT(S) (select activity/structure(s) below)

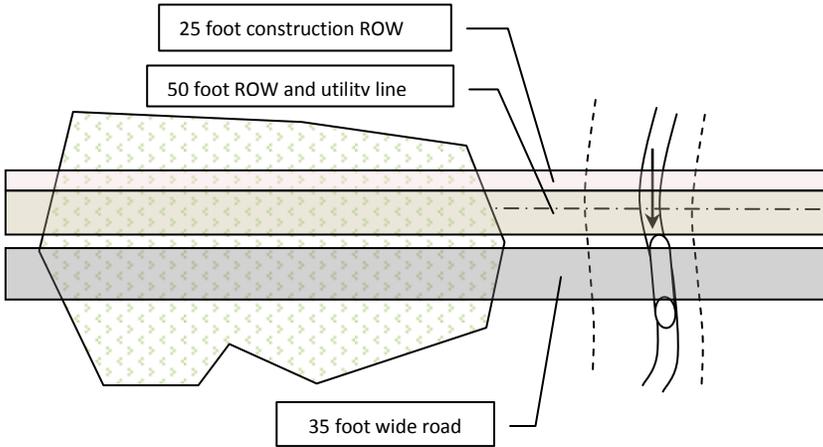

Some activities or structures within a project requiring an Individual Water Obstruction and Encroachment Permit may qualify for an accumulation of General Permit fees, please mark the corresponding fee(s) below but not the box above indicating a General Permit.

GP-7 Minor Road Crossings..... 1 (#) x \$ 350 = \$ 350
GP(s) FEE subtotal (b) \$ 350

2. **Joint Permit Application for Individual Water Obstruction Encroachment Permit:** The project proposes to construct an access road requiring the placement of fill in 0.27 acres of wetlands as part of a residential subdivision.

Administrative Filing Fee \$ 1,750 +
 Temporary Disturbance (\$400/0.1ac)..... 0.0 acres x \$4,000 = \$ 0 +
 Permanent Disturbance (\$800/0.1ac)..... 0.3 acres x \$8,000 = \$ 2,400 = \$ 4,150
WO&E FEE subtotal (a) \$ 4,150

3. Joint Permit Application for Individual Water Obstruction Encroachment Permit: The project proposes to construct an access road and utility line through a wetland and stream. The road will require placement of fill in 0.28 acres of wetlands, placement of a 45 foot long x 36 inch CMP in the stream and placement of fill in the floodway for road approaches to the culvert (east approach 35 feet wide x 4 feet deep x 50 feet long and west approach 35 feet wide x 2 feet deep x 15 feet). The utility line is 30 inch diameter steel pipe carrying petroleum products. The utility line will be open trenched through the wetland with a permanent right of way of 50 feet x 350 feet and an additional construction right of way 25 feet x 350 feet. The utility line will be open trenched traversing through the entire floodway and stream with a permanent right of way totaling 50 feet x 68 feet (east floodway 50 feet x 50 feet, stream 50 feet x 3 feet and west floodway 50 feet x 15 feet) and an additional construction right of way 25 feet x 68 feet.

Impact Calculations and Summary

Resource/Impact Type	Permanent	Temporary
Wetland		
Road	0.28	0
Utility Const. ROW	0	0.2
Utility Perm. ROW	0.4	0
Floodway/Stream		
Road	0.05	0
Utility Const. ROW	0	0.04
Utility Perm. ROW	0.08	0
Totals:	0.81	0.24
Rounded Totals:	0.9	0.3

<input checked="" type="checkbox"/> Administrative Filing Fee		\$ 1,750	+	
<input checked="" type="checkbox"/> Temporary Disturbance (\$400/0.1ac).....	<u>0.3</u> acres x \$4,000 =	\$ <u>1,200</u>	+	
<input checked="" type="checkbox"/> Permanent Disturbance (\$800/0.1ac).....	<u>0.9</u> acres x \$8,000 =	\$ <u>7,200</u>		= \$ <u>10,150</u>
WO&E FEE subtotal (a)				\$ <u>10,150</u>

4. Joint Permit Application for Individual Water Obstruction Encroachment Permit: The project proposes to construct a building, two minor road crossings that qualify for BDWM GP-07 and place three separate utility lines through a wetland and a separate stream that qualify for BDWM GP-05. The building will require placement of fill in 0.17 acres of wetlands.

<input checked="" type="checkbox"/> Administrative Filing Fee		\$ 1,750	+	
<input type="checkbox"/> Temporary Disturbance (\$400/0.1ac).....	<u>0.0</u> acres x \$4,000 =	\$ <u>0</u>	+	
<input checked="" type="checkbox"/> Permanent Disturbance (\$800/0.1ac).....	<u>0.2</u> acres x \$8,000 =	\$ <u>1,600</u>		= \$ <u>3,350</u>
WO&E FEE subtotal (a)				\$ <u>3,350</u>

GENERAL PERMIT(S) (select activity/structure(s) below)

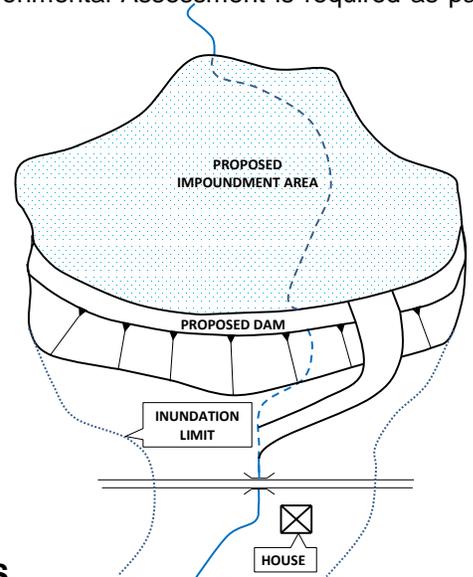

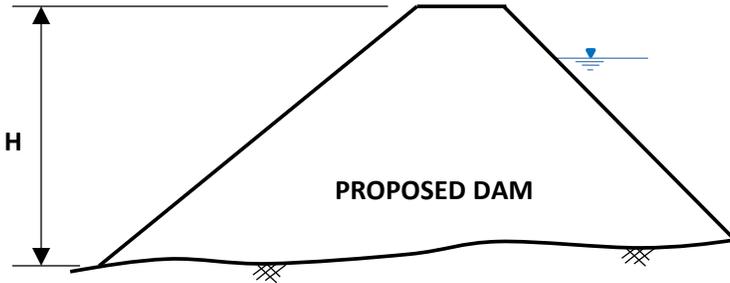

Some activities or structures within a project requiring an Individual Water Obstruction and Encroachment Permit may qualify for an accumulation of General Permit fees, please mark the corresponding fee(s) below but not the box above indicating a General Permit.

<input checked="" type="checkbox"/> GP-5 Utility Line Stream Crossings.....	<u>6</u> (#) x	\$ 250		= \$ <u>1,500</u>
<input checked="" type="checkbox"/> GP-7 Minor Road Crossings.....	<u>2</u> (#) x	\$ 350		= \$ <u>700</u>
GP(s) FEE subtotal (b)				\$ <u>2,200</u>

PART ONE: SECTION A. APPLICATION FEE(S) subtotal (a+b=c) \$ 5,550

Dam Safety Examples:

5. New Dam Permit Application: This project proposes to construct a 25-foot high dam that has a maximum storage of 500 acre-feet of water. This dam would be classified as a size category “C” dam per §105.91. There is one home and one roadway within the inundation area downstream of the dam. This dam would have a hazard classification of “2”. All stream and wetland impacts are covered under the Dam Permit Application. An Environmental Assessment is required as part of the Dam Permit Application, but a separate fee is not required.

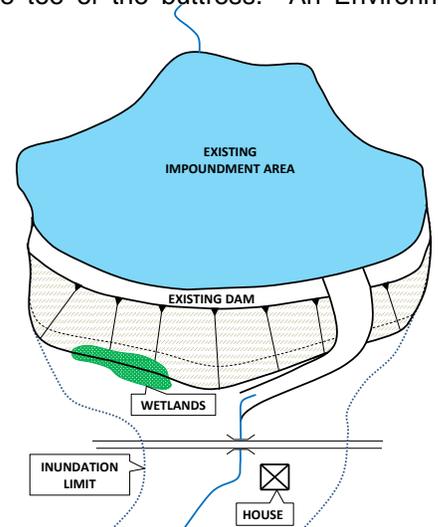

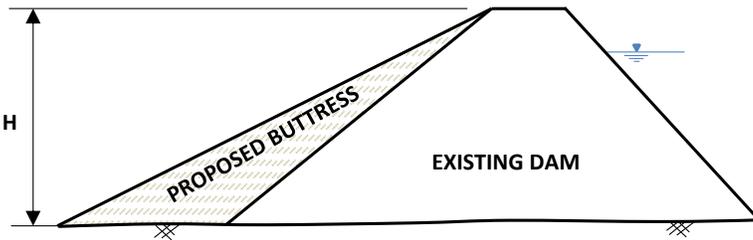

**DAM SAFETY APPLICATION FEES
(TO BE FILED WITH DAM SAFETY WITH THE DAM PERMIT APPLICATION)**

DAM PERMIT APPLICATION – NEW DAM

<input checked="" type="checkbox"/> Size C	<input type="checkbox"/> Hazard 1 \$10,500	<input checked="" type="checkbox"/> Hazard 2 \$10,500	<input type="checkbox"/> Hazard 3 \$10,000	<input type="checkbox"/> Hazard 4 \$8,000	<u>\$ 10,500</u>
DAM SAFETY FEE total					\$ 10,050

6. Letter of Authorization with Environmental Assessment: This project proposes to modify a 25-foot high dam that has a maximum storage of 500 acre-feet of water. This dam would be classified as a size category “C” dam per §105.91. The proposed modification involves buttressing the downstream slope of the dam with soil to improve the stability. The total project cost will be \$100,000. A small wetland area will be impacted near the toe of the buttress. An Environmental Assessment will be required to assess the impacts to the wetland.

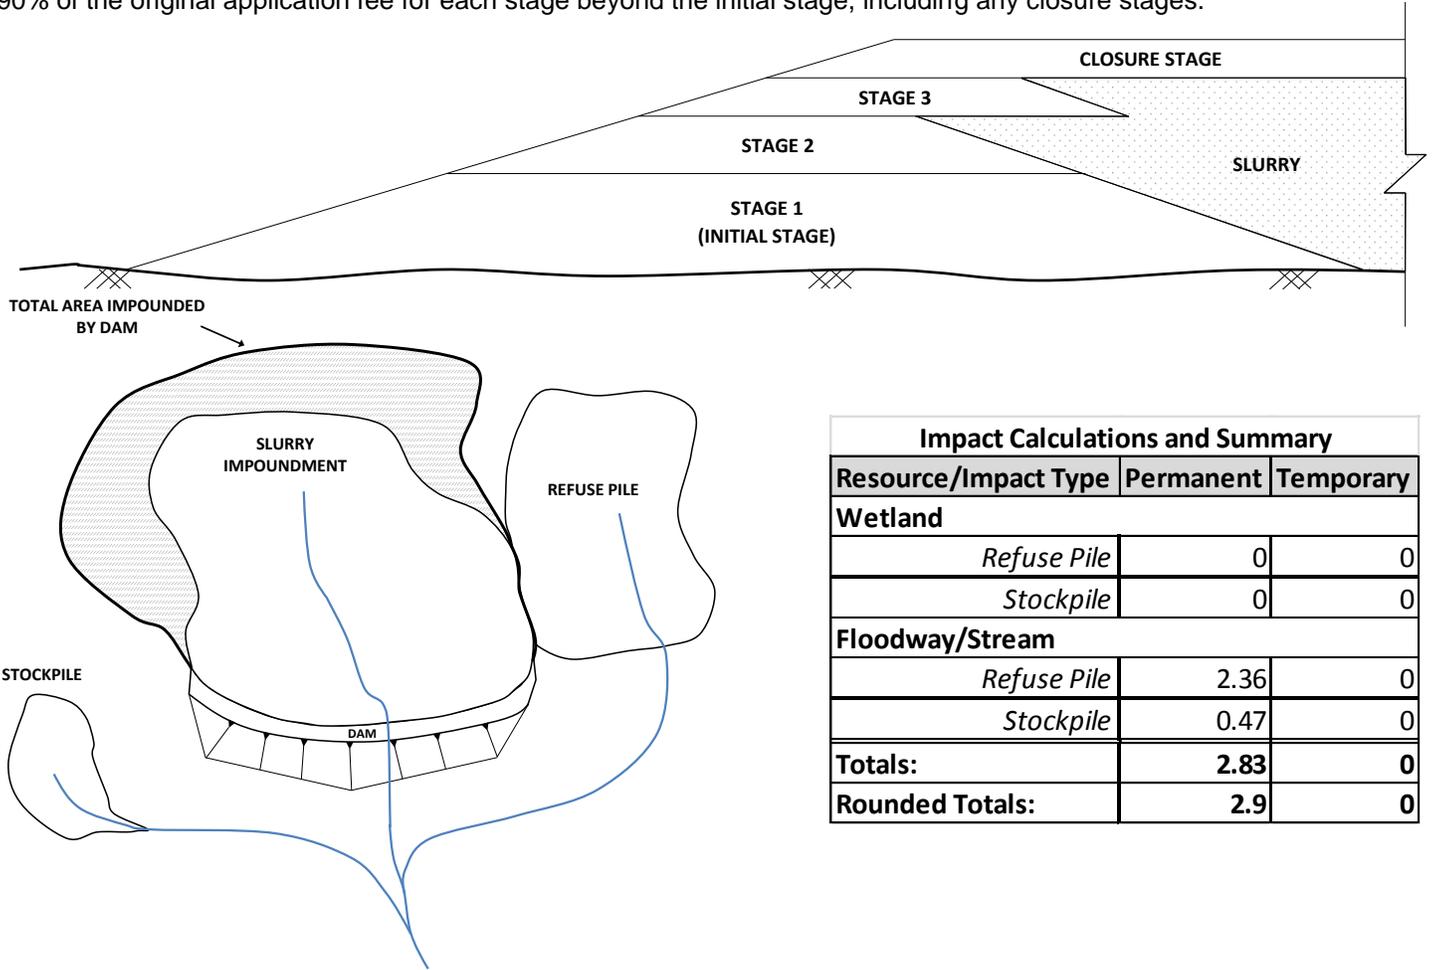

DAM SAFETY FEES

<input checked="" type="checkbox"/> Letter of Amendment or Authorization	
<input checked="" type="checkbox"/> Minor (<\$250,000)	
<input type="checkbox"/> Size A \$ 1,300	<input type="checkbox"/> Size B \$ 1,000
<input checked="" type="checkbox"/> Environmental Assessment	
<input checked="" type="checkbox"/> Letter of Amendment or Authorization	
<input type="checkbox"/> Size A \$ 1,400	<input type="checkbox"/> Size B \$ 1,000

<input checked="" type="checkbox"/> Size C	\$ 650	<u>\$ 650</u>
<input checked="" type="checkbox"/> Size C	\$ 900	<u>\$ 900</u>
DAM SAFETY FEE total		\$ 1,550

7. New Dam Permit Application with Staged Construction and Disturbance Review Fees: The project proposes to construct a staged construction, high hazard dam, to be utilized for containing a slurry impoundment. There will also be a refuse pile constructed adjacent to the slurry impoundment impacting 1000 linear feet of stream, causing a permanent disturbance to the 3-foot wide stream and 50 feet of floodway on either side of the stream [1000 x (50+3+50)]. A refuse stockpile will also impact 200 linear feet of stream, causing a permanent disturbance to the 3-foot wide stream and 50 feet of floodway on either side of the stream [200 x (50+3+50)]. The Dam Safety Application Fee will include the application fee for the applicable size and hazard classification of the dam. The Dam Safety Application Fee will also include a fee equal to 90% of the original application fee for each stage beyond the initial stage, including any closure stages.

Impact Calculations and Summary		
Resource/Impact Type	Permanent	Temporary
Wetland		
<i>Refuse Pile</i>	0	0
<i>Stockpile</i>	0	0

INSTRUCTIONS FOR COMPLETING THE PASPGP-5 REPORTING CRITERIA CHECKLIST

Follow the instructions below (pages 1-6) to complete the PASPGP-5 Reporting Criteria Checklist (pages 1-4) questionnaire. The questionnaire must be completed and provided as part of all DEP Chapter 105 applications / registrations to determine the appropriate federal Pennsylvania State Programmatic General Permit-5 (PASPGP-5) review procedure.

Incomplete submissions, including lack of certification signature, will be returned. Only the completed form (pages 1-4 need to be provided as part of the DEP Chapter 105 application / registration; do not submit the instructions.

NOTE: Many of the questions relate to work associated with a “Single and Complete Project”. See PASPGP-5 Part II for definition of “Single and Complete Project” prior to answering questions.

SECTION A: ELIGIBILITY DETERMINATION

Question 1:

Answer YES if the proposed work associated with the Single and Complete Project individually or cumulatively impacts more than 1.0 acre of waters and/or wetlands, or results in the loss of greater than 1,000 linear feet of stream channel(s). The 1.0 acre area measurement includes all attendant features, both temporary and permanent, that are part of the Single and Complete Project, and the calculation is the sum total of all impacts to waters (streams, rivers, and other watercourses) and/or wetlands.

Question 2:

Answer YES if any of the proposed work is located waterward of the ordinary high water mark (OHWM) and/or the mean high water line (MHWL) of the following ineligible waterbodies within Pennsylvania:

- a. The Delaware River, downstream of the U.S. Route 202 Bridge at New Hope, Pennsylvania;
- b. The Schuylkill River downstream of the Fairmount Dam in Philadelphia, Pennsylvania;
- c. All of the Ohio River;
- d. All of the Beaver River;
- e. All of the Little Beaver Creek;
- f. All of the Mahoning River;
- g. All of the Monongahela River;
- h. The Youghiogheny River from its mouth at McKeesport, Pennsylvania to river mile 31.2 at West Newton, Pennsylvania;
- i. The Allegheny River, from its mouth in Pittsburgh, Pennsylvania to river mile 197.4 at Kinzua Dam, north of Warren, Pennsylvania;
- j. The Kiskiminetas River from its mouth near Freeport, Pennsylvania to river mile 26.8 at Saltsburg, Pennsylvania;
- k. Tenmile Creek from its mouth at Millsboro, Pennsylvania to river mile 2.7; and
- l. Lake Erie activities which require submittal of a DEP Chapter 105 Joint Permit Application or Environmental Assessment to the DEP. For Lake Erie, the OHWM is located at elevation 573.4.

Question 3:

Answer YES if any portion of the proposed work has been denied a DEP Chapter 105 Permit, a State Water Quality Certification as required under Section 401 of the Clean Water Act, or a Coastal Zone Consistency Determination.

Question 4:

Answer YES if the proposed work will result in the diversion of more than 10,000 gallons per day of surface water or groundwater into or out of the Great Lakes Basin (Lake Erie Watershed).

SECTION B: REPORTING ACTIVITY DETERMINATION

Question 1:

Answer YES if the proposed work associated with the Single and Complete Project, including any attendant features, permanently or temporarily impacts greater than 0.5 acre of waters of the United States, including jurisdictional wetlands.

Questions 2a – 2d:

Answer YES for **2a** if your proposed Single and Complete Project permanently impacts greater than 250 linear feet of streams, rivers, or other watercourses (excluding wetlands).

If YES for 2a, answer YES for **2b** if the work associated with the Single and Complete Project for stream bank stabilization, rehabilitation, protection and/or enhancement propose impacts of greater than 500 linear feet for stream channel(s).

If YES for 2a, answer YES for **2c** if the Single and Complete Project qualifies for a DEP GP-1 for Fish and Enhancement Structures.

If YES for 2a, answer YES for **2d** if your project is covered by a programmatic state water quality certification issued by DEP that is conditioned upon receiving approval by the Environmental Review Committee.

See PASPGP-5 Non-reporting Activity 20b for further information.

Question 3:

Answer YES if more than 0.10 acre of shrub-scrub or forested wetland will be permanently converted to emergent wetland.

Question 4:

Answer YES if the utility line impacts for the Single and Complete Project exceed 500 linear feet.

Question 5:

Answer YES if the utility line runs parallel to a stream bed that is within a wetland/stream/waterbody complex.

If the application/registration does not include a utility line, answer NO.

Question 6:

Answer YES if your application/registration is associated with a Single and Complete Project whereby a previous Department of the Army authorization has been issued through an Individual Permit, a Nationwide Permit, or a PASPGP processed by the Army Corps of Engineers (Corps) as a Category III/Reporting Activity. Also enter data associated with the prior authorizations into table, including the type of authorization or permit, permit or authorization number(s), date(s) of issuance, and permitted impacts (including square feet or linear feet). Types of authorizations or permits may be abbreviated as Corps Nationwide Permit (NWP), Corps Individual Permit (IP), or Corps PASPGP (SPGP).

Questions 7a and 7b:

Answer YES to **7a** if your project is proposed in one of the following waterways occupied by Federally listed, proposed, or candidate mussels or fish, or in waters of the United States within 300 feet of these listed waterways.

WATERWAYS	COUNTY
Allegheny River (from Kinzua Dam to the Ohio River)	Armstrong, Clarion, Forest, Venango, Warren,
Conewango Creek	Warren
French Creek	Crawford, Erie, Mercer, Venango
Conneaut Outlet	Crawford
Conneauttee Creek	Crawford
LeBoeuf Creek	Erie
Muddy Creek	Crawford
Shenango River (Pymatuning Reservoir to Big Bend)	Crawford and Mercer
Delaware River	Monroe, Pike, Wayne
Cussewago Creek	Crawford
Little Mahoning Creek	Indiana
Little Shenango River	Mercer
Oil Creek	Venango
West Branch of French Creek	Erie
Woodcock Creek	Crawford

Questions 7a and 7b (cont):

If YES for 7a, answer YES to 7b if you have received documented clearance from the USFWS, or a “No Effects” determination from the Corps pursuant to Section 7 of the Endangered Species Act dated May 4, 2015 or later. Documented clearance from the USFWS could include PNDI language stating “NO KNOWN IMPACT”; or, if in a USFWS letter the language must indicate “no effect” or “the project or activity will not affect Federally listed species.”

Questions 8a and 8b:

Answer YES to 8a if the proposed work will impact Federally regulated wetlands in one of the below listed counties. Counties: Adams, Berks, Bucks, Carbon (only Aquashicola Creek Watershed), Chester, Cumberland, Delaware, Dauphin (only Swatara Creek Watershed), Franklin (only Antietam Creek Watershed) Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, Schuylkill (only Swatara Creek Watershed), and York.

If YES for 8a, answer YES for 8b if you have received documented clearance from the USFWS, or a “No Effects” determination from the Corps pursuant to Section 7 of the Endangered Species Act dated May 4, 2015 or later. Documented clearance from the USFWS could include PNDI language stating “NO KNOWN IMPACT”; or, if in a USFWS letter the language must indicate “no effect” or “the project or activity will not affect Federally listed species.”

Questions 9a and 9b:

Answer YES for 9a if your completed PNDI search identifies a potential conflict(s) for a Federally listed species.

If YES for 9a, answer YES for 9b if you have received additional documented clearance from the USFWS, a “No Effect” determination from the Corps, or agree through signing the PNDI receipt to comply with the avoidance measures associated with Federally listed species in completing the proposed work.

Question 10:

Answer YES if the proposed work is associated with maintenance dredging of a reservoir to maintain the designed storage capacity, including the removal of accumulated sediments, and the work is authorized pursuant to Section 7 of the Dam Safety and Encroachments Act, 32 P.S. § 693.1, et seq., and the rules and regulations promulgated there under in the PA Bulletin (codified at 25 PA. Code, Chapter 105, § 105.131 (c)).

For work associated with maintenance of a pond that qualifies for DEP Chapter 105 Waiver 14, enter NO.

Questions 11a – 11c:

Answer YES for 11a if the DEP Chapter 105 application/registration required you to submit a Cultural Resources Notification Form to the Pennsylvania Historic and Museum Commission (PHMC), and you have included the response letter from the State Historic Preservation Office (SHPO), i.e. PHMC.

Cultural Resources Notification Form is not required for DEP Chapter 105 General Permits (GP). If registering use of a GP, answer YES.

If YES for 11a, answer YES for 11b if the SHPO, i.e., PHMC has determined that archaeological or other cultural resources are believed to exist within the permit area, or has recommended that a Phase 1 archeological survey be performed.

If PHMC has determined that archaeological or other cultural resources are believed NOT to exist within the permit area, answer NO.

If YES for 11b, answer YES for 11c if you have received documented clearance from PHMC or a No Potential to Effect determination from the Corps. Documented clearance from the PHMC could include: a letter stating “No Effect on Historic Properties”; a letter stating that “Historic Properties (historic and archeological) are not present or are unlikely to occur within the project area”; or a letter stating that no sites that are listed or eligible for listing in the National Register will be effected. **If YES, provide copy of such document(s) in application / registration.**

Questions 12a and 12b:

Answer Yes for 12a if the proposed work occurs in a component of the National Wild and Scenic River System or in a river officially designated by Congress as a “Study River” for possible inclusion in the System (See below for listing of waters).

1. Allegheny River, from the Kinzua Dam Mile 197.2, downstream approximately 7 miles to the US Route 6 Bridge, at mile 190.7, in Warren, then from the Buckaloons Recreation Area in Allegheny National Forest at mile 181.7 downstream 47 miles to Alcorn Island just north of Oil City at river mile 133.7, and then continuing from the Franklin Wastewater Treatment Plant at mile 122.7, downstream 31 miles to the refinery at Emlenton mile 90.7;

Questions 12a and 12b (cont):

2. Clarion River from mile 91.1 in the Borough of Ridgeway, Elk County, Pennsylvania, at the National Forest and Gamelands Boundary to mile 39.4 at the normal pool elevation of Piney Dam;
3. Upper Delaware Scenic and Recreational River, including the ¼ mile buffer from each bank, beginning at Hancock, New York, and continuing 73.4 river miles to Mill Rift, Pennsylvania;
4. Middle Delaware Scenic and Recreational River (from bank to bank) as it flows through the Delaware Water Gap National Recreation Area;
5. Lower Delaware River beginning 7 river miles north of Belvidere, New Jersey, continuing to Washington Crossing, Pennsylvania, including Paunacussing Creek within Solebury Township, all of the Tincum Creek including Rapp Creek and Beaver Creek Tributaries, and Tohickon Creek from the mouth to the Lake Nockamixon Dam, including a ¼ mile buffer from each bank; and
6. White Clay Creek watershed including all of its tributaries.

If YES for 12a, answer YES for **12b** if you received a written determination from the Federal agency with direct management responsibility for such river that the proposed activity will not adversely affect any Wild and Scenic River including study rivers. **If YES, provide copy of such document(s) in application / registration.**

Question 13:

Answer YES if the proposed project requires the preparation of an Environmental Impact Statement (EIS).

Question 14:

Answer YES if the proposed regulated activity or area of indirect impact (secondary impact) extends across state boundaries (i.e., the work is not wholly located within the Commonwealth of Pennsylvania).

Question 15:

Answer YES if you are proposing activities authorized pursuant to DEP Chapter 105 permits in conjunction with coal and non-coal mining permits issued by the DEP District Mining Offices (Bureau of Mining and Reclamation), including activities authorized pursuant to Chapter 105 Waiver 4 [25 Pa. Code §105.12(a)(4)] and GP-101 and GP-102.

Question 16:

Answer YES if the proposed work is associated with the construction of a Mitigation Bank or In Lieu Fee site, developed to meet the requirements of the Corps and EPA April 10, 2008 Compensatory Mitigation for Losses of Aquatic Resources: Final Rule.

Question 17:

Answer YES if the proposed work will alter, use, build upon, attempt to possess, or potentially harm or impair any existing or proposed Corps of Engineers Civil Works project, or any Corps of Engineers owned or managed property. Additional information on the location of Corps Civil Works projects and property may be obtained by checking with the appropriate Corps District.

Questions 18a – 18c:

Answer YES for **18a** if the proposed project is part of or involves the construction or expansion of a residential, commercial or institutional subdivision or development.

If YES for 18a, answer YES for **18b** if greater than 0.25 acre of wetlands exist within the property boundary that are not being directly impacted as part of this application/registration. **If YES, provide total remaining wetland acreage.**

If YES for 18a, and 18b, answer YES for **18c** if you proposing to protect the wetland area(s) through a deed restriction or conservation easement that follows the Corps' Model Protective Covenants. **If YES, attach a copy of the proposed deed restriction or conservation easement to this form and submit with your application / registration form.**

Question 19:

Answer YES if temporary impacts associated with a Single and Complete Project will be in place greater than 1 year. *Also, answer YES if you are requesting an extension of an existing DEP Chapter 105 GP-8 or GP-11 acknowledgement that will result in the temporary impacts now exceeding one year.*

Question 20:

Answer YES if you have any pending applications/registrations with DEP or the Corps that are necessary for your total proposed project to function and meet its intended purpose. **If YES, provide the following information:**

- Application/registration Number / Type: The application/registration number given by DEP, if known. If unknown, the application/registration type, enter DEP General Permit, Joint Permit Application, Dam Permit, Environmental Assessment, etc.

Question 20 (cont):

- Project Name: The name the project is commonly referred to
- Date of Submittal: The date the application/registration was submitted to DEP
- DEP Reviewing Office: Name of DEP Regional Office, or County Conservation District reviewing application/registration.
- Corps Reviewing Office: If application/registration is being reviewed by the Corps, enter Baltimore, Pittsburgh or Philadelphia District.

Question 21:

Answer YES if you are proposing to do work in the Delaware River (upstream from the U.S. Route 202 Bridge in New Hope, Pennsylvania.) and/or the Lehigh River (from the mouth to FE Walter Dam, located in Carbon and Luzerne County, Pennsylvania between March 15 and June 30.

Questions 22a and 22b:

Answer YES for **22a** if you are proposing work in the below listed waters.

Waterway	Action Area (From Point Specified to the Confluence with the Delaware River)	Latitude	Longitude
Marcus Hook Creek	US Route 13 Bridge	39.822054	-75.409873
Stoney Creek	US Route 13 Bridge	39.828408	-75.400953
Chester Creek	Kerlin Street Bridge	39.855846	-75.37641
Ridley Creek	McDade Boulevard	39.869522	-75.356692
Crum Creek	US Route 13 Bridge	39.866799	-75.340677
Darby Creek	Pine Street Bridge	39.914006	-75.259994
Frankford Creek	Frankford Avenue/US 13 Bridge	40.005314	-75.070173
Frankford Creek (Original Mouth)	End of Channel	40.004912	-75.070173
Pennypack Creek	Route 13 Bridge	40.043421	-75.020638
Poquessing Creek	Mill Road bridge	40.043421	-75.982076
Neshaminy Creek	Rapids just below Hulmeville Road Bridge (SR 513), Bucks County	40.141393	-74.911899
Unnamed Tributary 1, located in Croydon, PA	River Road crossing	40.085774	-74.8856
Otter/Mill Creek	US 13 (Bristol Pike) Bridge	40.100424	-74.866976
Unnamed Tributary 2, located in Bristol, PA	Wood Street Bridge	40.102044	-74.845682
Martins Creek	Main Street (Tulleytown)	40.141975	-74.812026
Scott's Creek	End of creek	40.12921	-74.793879
Scott's Creek Relocated Channel, located at Money Island, Bucks County, PA	First culvert crossing	40.125578	-74.776886
Non-Tidal Tributaries			
Buck Creek	Delaware Canal	40.243699	-74.838279
Dyers Creek	Delaware Canal	40.267098	-74.858495
Houghs Creek	Delaware Canal	40.28148	-74.865783
Jericho Creek	Delaware Canal	40.313984	-74.902899
Pidcock Creek	Delaware Canal	40.331508	-74.935788

If YES for 22a, answer YES for **22b** if you can conduct the work in compliance with the following conservation measures:

1. No work shall occur from March 15 to November 15, of any given year.
2. All Dredging shall be performed by a mechanical dredge and/or techniques (clamshell bucket etc.).
3. All work, including the installation of turbidity curtains and dewatering cofferdams, shall be performed during low tide or when the tide is waterward of the proposed work in all tidal waterbodies listed, or during periods of low or no flow in the non-tidal waterbodies listed.

Questions 22a and 22b (cont):

4. Blasting is not authorized by the PASPGP-5 within the listed waterbodies.
5. Pile Driving:
 - a. Piles shall not be greater than 12 inches in diameter;
 - b. Piles shall be installed using a vibratory hammer or an impact hammer provided noise attenuation devices (cushion blocks, etc.) are used, and a “soft start” is performed each day of pile driving. A “soft start” is the building up of power slowly during pile driving activities to allow for fish and other wildlife to leave the area; and
 - c. Pile driving activities shall be limited to no more than 12 hours per day.

SECTION C: CERTIFICATION

Please sign and date in the appropriate locations. The submission will not be accepted unless the original form and copy are signed and dated by the applicant (the owner). (See [Chapter 105 Water Obstructions and Encroachment General Permit Registration \(3150-PM-BWEW0500\)](#) Section A – Applicant Information for clarification on applicant signatures)

IMPERVIOUS SURFACE DATA FOR CORPS

Questions 1a – 1c:

Answer YES for **1a** if your project is located in the area covered by the Corps of Engineers Philadelphia District (Delaware River Watershed), or Chester, Lancaster, or York County. If YES, answer 1b and 1c.

If YES for 1a, answer YES for **1b** if your project proposes a permanent impervious surface(s) within the footprint of a waterbody, including wetlands, and enter the amount of impervious fill within the waterbody on the blank line following the question. Impervious surfaces are defined as a hard surface area which either prevents or retards the entry of water into the soil. Common impervious surfaces include roof tops, walkways, patios, driveways, parking lots or storage areas, concrete or asphalt paving, gravel roads, packed earthen material, and oiled surfaces. Examples of project fill components constructed as a result of permanent discharges of dredged or fill material into waters of the United States that are considered to be an impervious surface may include, but are not limited to: house pads, walkways, patios, driveways, parking lots, storage areas, concrete, asphalt paving, pre-cast concrete planks or slabs, road crossings, and concrete abutments. For bank stabilization activities, an impervious surface is only applicable to the concrete lining of waterways and grouted riprap/rock within jurisdictional waters of the United States that exist above the mean high water (MHW) line in tidal waters or above the ordinary high water mark (OHWM) in non-tidal waters.

The following list contains examples of project components that are **not** considered impervious surface cover: temporary fills/structures; fill for lawns/parks; mechanized land clearing (tilling, etc.); pavers (specifically designed to allow water infiltration, i.e. with vegetation holes); boat ramps with loose rock, stone, gravels, and metal grate panels; and bank stabilization with ungrouted riprap, rock, utilizing bio-engineering techniques (e.g. willow planting, root wads, large woody debris, etc.); rock filled gabions; and any project feature that is specifically designed to infiltrate water.

If YES for 1a, answer YES for **1c** if you will be removing any impervious surfaces as part of your project. **If YES, then enter the amount of impervious surface being permanently removed as part of project.**

PASPGP-5 REPORTING CRITERIA CHECKLIST

The following questionnaire must be completed (instructions on pages 1-6) and submitted as part of all DEP Chapter 105 applications / registrations to determine the appropriate Federal Pennsylvania State Programmatic General Permit-5 (PASPGP-5) review procedure. **Incomplete submissions, including lack of certification signature, will be returned.**

Applicant / Project Name:

County(s):

SECTION A: ELIGIBILITY DETERMINATION

- YES NO 1. Does the proposed work associated with the Single and Complete Project temporarily and/or permanently impact greater than 1.0 acre of waters and/or wetlands, and/or result in the loss of greater than 1,000 linear feet of stream channel(s)?
- YES NO 2. Is any of the proposed work located waterward of the ordinary high water mark (OHWM) of any of the ineligible waterbodies identified in the instructions?
- YES NO 3. Has any portion of the proposed work been denied a DEP Chapter 105 Permit, a State Water Quality Certification as required under Section 401 of the Clean Water Act, or a Coastal Zone Consistency Determination?
- YES NO 4. Does the proposed work result in the diversion of more than 10,000 gallons per day of surface water or groundwater into or out of the Great Lakes Basin (Lake Erie Watershed)?

SECTION B: REPORTING ACTIVITY DETERMINATION

- YES NO 1. Does proposed work associated with a Single and Complete Project, including any attendant features, permanently and/or temporarily impact greater than 0.5 acre of waters of the United States, including jurisdictional wetlands?
- YES NO 2a. Does the application/registration include any proposed Single and Complete Projects permanently impacting greater than 250 linear feet of streams, rivers, or other watercourses (excluding wetlands)?
- YES NO 2b. Is the Single and Complete Project for stream bank stabilization, rehabilitation, protection and/or enhancement and propose impacts of greater than 500 linear feet of stream channel(s)?
- YES NO 2c. Does the Single and Complete Project qualify for DEP GP1 for Fish and Enhancement Structures?
- YES NO 2d. Is the project covered by a programmatic state water quality certification issued by - that is conditioned upon receiving approval by- the Environmental Review Committee?
- YES NO 3. Does the application/registration include any Single and Complete Projects that propose the permanent conversion of greater than 0.10 acre of forested and/or shrub-scrub wetlands in association with a regulated activity?
- YES NO 4. If the application/registration is for a utility line, do any of the single and complete projects in waters of the United States, including jurisdictional wetlands, exceed 500 linear feet (excluding overhead lines)?
- YES NO 5. Is this application/registration to place a buried utility line in waters and/or wetlands in a manner that the utility line will run parallel to or along a stream bed?

SECTION B: REPORTING ACTIVITY DETERMINATION (CONT)

YES NO 6. Is your application/registration associated with a Single and Complete Project whereby a previous Department of the Army authorization has been issued through an Individual Permit, a Nationwide Permit, or a PASPGP processed by the Corps as a Category III/Reporting Activity? **If YES, please complete the following table.**

Authorization Type	Authorization Number	Date (mm/dd/yyyy)	Federal Permitted Impacts	
			Wetlands	Waters

YES NO 7a. Is your proposed project located in waterways occupied by Federally listed, proposed, or candidate mussels or fish, or in waters of the United States within 300 feet of these listed waterways? See *instructions for list of waterways.*

YES NO 7b. If 7a is yes, have you received documented clearance from the USFWS, or a Section 7 of the Endangered Species Act (ESA) "no effect" determination from the Corps? Documented clearance from the USFWS could include PNDI language stating "NO KNOWN IMPACT"; or, if in a USFWS letter the language must indicate "no effect" or "the project or activity will not affect Federally listed species."

YES NO 8a. Does your project propose impacts to Federally regulated wetlands in a county that requires bog turtle screening procedures? See *instructions for list of counties.*

YES NO 8b. If 8a is YES, have you received documented clearance from the USFWS, or a Section 7 ESA "no effects" determination from the Corps? Documented clearance from the USFWS could include PNDI language stating "NO KNOWN IMPACT"; or, if in a USFWS letter the language must indicate "no effect" or "the project or activity will not affect Federally listed species."

YES NO 9a. Does your completed Pennsylvania Natural Diversity Inventory (PNDI) search receipt identify a potential conflict(s) for a Federally listed species?

YES NO 9b. If YES for 9a, have you received additional documented Section 7 ESA clearance, or do you agree, through signing of the PNDI receipt, to comply with all avoidance measures identified on the PNDI receipt associated with Federally listed species for the proposed work?

YES NO 10. Is the proposed work associated with maintenance dredging of a reservoir's design storage capacity, including the removal of accumulated sediments? This corresponds to activities authorized pursuant to Section 7 of the Dam Safety and Encroachments Act (DSEA), 32 P.S. § 693.1, et seq., and the rules and regulations promulgated there under in the PA Bulletin (codified at 25 PA. Code, Chapter 105, § 105.131(c)).

YES NO 11a. If the DEP Chapter 105 application/registration requires submittal of a Cultural Resources Notification Form as part of the application/registration, have you included the response letter from the State Historic Preservation Officer (SHPO), i.e., Pennsylvania Historic and Museum Commission (PHMC) with your application/registration?

YES NO 11b. Has the PHMC determined that archaeological or other cultural resources are believed to exist within the permit area?

YES NO 11c. If yes for 11b, have you received follow-up documented clearance from PHMC, or a Section 106 "no effect" determination from the Corps?

YES NO 12a. Does the proposed work occur in a component of the National Wild and Scenic River System or in a river officially designated by Congress as a "Study River" for possible inclusion in the System? See *instructions for listing.*

YES NO 12b. If yes for 12a, have you received a written determination from the Federal agency with direct management responsibility for such river that the proposed activity will not adversely affect any Wild and Scenic River including study rivers?

YES NO 13. Does the proposed project require the preparation of an Environmental Impact Statement?

YES NO 14. Does the proposed regulated activity or area of indirect impact (secondary impact) extend across state boundaries (i.e., the work is not wholly located within the Commonwealth of Pennsylvania)?

SECTION B: REPORTING ACTIVITY DETERMINATION (CONT)

- YES NO 15. Is the proposed work authorized pursuant to DEP Chapter 105 permits in conjunction with coal and non-coal mining permits issued by the DEP District Mining Offices (Bureau of Mining and Reclamation), including activities authorized pursuant to Chapter 105 Waiver 4 [25 Pa. Code §105.12(a)(4)] and GP-101 and GP-102]?
- YES NO 16. Is the proposed work associated with the construction of a Mitigation Bank or In Lieu Fee site developed to meet the requirements of the Corps and EPA April 10, 2008 Compensatory Mitigation for Losses of Aquatic Resources: Final Rule?
- YES NO 17. Will the proposed work alter, use, build upon, attempt to possess, or that may harm or impair any existing or proposed Corps Civil Works project, and any Corps-owned or managed property?
- YES NO 18a. Does the Single and Complete Project involve the construction or expansion of a residential, commercial or institutional subdivision or development?
- YES NO 18b. Does greater than 0.25 acre of wetland(s) exist within the property boundary that are not proposed to be directly impacted as part of this application/registration? **If YES, provide wetland acreage: _____ acres.**
- YES NO 18c. Are you proposing to protect the wetland area(s) through a deed restriction or conservation easement that follows the Corps' Model Protective Covenant?
- YES NO 19. Does the proposed work temporarily impact waters and/or wetlands that will exist for more than 1 year?
- YES NO 20. Do you have any other pending applications/registrations with the DEP or Corps that are necessary for this total proposed project to function and meet its intended purpose? **If YES, provide following information.**

Application / Registration Number / Type	Project Name	Date of Submittal to DEP (mm/dd/yyyy)	DEP / CCD Reviewing Office	Corps Reviewing Office

- YES NO 21. Are you proposing to do work in the Delaware River (upstream from the U.S. Route 202 Bridge in New Hope, Pennsylvania.) and/or the Lehigh River (from the mouth to Francis E. Walter Dam, located in Carbon and Luzerne County, Pennsylvania between March 15 and June 30)?
- YES NO 22a. Does the proposed work occur in any of the waters listed in the instructions?
- YES NO 22b. Will you comply with all of the identified conservation measures?

SECTION C: CERTIFICATION

I certify that the information provided on this form is true and correct to the best of my knowledge and information. If any of the information and/or plans is found to be in error, falsified, and/or incomplete, your Chapter 105/PASPGP-5 authorization/verification may be subject to modification, suspension, or revocation in accordance with applicable regulations.

IMPERVIOUS SURFACE DATA FOR CORPS

- YES NO 1a. Is your project located in the Corps of Engineers Philadelphia District (Delaware River Watershed), or in Chester, Lancaster, or York County?
- YES NO 1b. Does your project propose impervious surfaces within waters and wetlands? **If YES, provide area of impervious surface within the footprint of waters and wetlands:** _____ square feet
- YES NO 1c. Does any part of your project propose the removal of any impervious surfaces? **If YES, provide area of impervious surface being removed:** _____ square feet

Permit Number

How to Use the PNDI Large Project Form

If your Project is a “Large Project”— too large/long to search on the online system
Projects are considered “Large Projects” when the ENTIRE project is:

- Linear/Large Projects that exceed the PNDI online project size limits of 10 miles in length or 1200 acres
- Township-wide, Countywide or Statewide Projects. Examples: Act 537 Sewage Plans, Wind Farms, Roadway Improvements exceeding map limits above.

Due to system limitations and agency requirements, projects should not be submitted piecemeal. The entire project area including roads and infrastructure should be submitted as a single unit.

What to Send to Jurisdictional Agencies

Send the following information to all of the agencies listed on the Large Project Form.

Check-list of Minimum Materials to be submitted:

- Completed Large Project Form
- Supplemental project narrative with a description of the overall project, the work to be performed, current physical characteristics of the site and acreage to be impacted.
- USGS 7.5-minute Quadrangle with project boundary clearly indicated, and quad name on the map

The inclusion of the following information may expedite the review process.

- GIS shapefiles depicting the project extent
- A basic site plan (particularly showing the relationship of the project to the physical features such as wetlands, streams, ponds, rock outcrops, etc.)
- Color photos keyed to the basic site plan (i.e. showing on the site plan where and in what direction each photo was taken and the date of the photos)
- Information about the presence and location of wetlands in the project area, and how this was determined (e.g., by a qualified wetlands biologist), if wetlands are present in the project area, provide project plans showing the location of all project features, as well as wetlands and streams

PNDI Large Project Form Definitions

Applicant: Person that owns the property or is proposing the project or activity

Contact Person: Person to receive response if different than applicant (e.g. Consultant)

Project Name: Descriptive title of project (e.g. Twin Pines Subdivision, Miller Bridge Replacement)

Proposed Activity: Include ALL earth disturbance activities for project (e.g. for a timber sale—include stream crossings, cutting areas and new roadway accesses). Also include Current Conditions (e.g. housing, farmland, current land cover), and how Construction/Maintenance Activity is to be accomplished

Total Acres of Property: Entire site acreage (e.g. timber sale property—including road access (200 acres)

Acreage to be Impacted: Disturbance acreage (e.g. timber sale—if the property is 200 acres, but only 100 acres will be disturbed, for example: cutting on 90 acres, a road impacting 10 acres); include all temporary and permanent activities

Aquatic Resource Impact Table

Applicant's Name / Client:

for Pennsylvania Chapter 105 Water Obstruction and Encroachment application/registration and US Army Corps of Engineers Section 404 application

INSTRUCTIONS:

Please begin to complete the Aquatic Resource Impact Table by including the Applicant's Name / Client (upper right of the page) for each page. Also, complete the Project / Site Name (upper left of the page) and the date of application/registration package submission (upper right, under Applicant's Name / Client). Then complete one row of data for each regulated (DEP Chapter 105 and Corps Section 404) structure or activity and type of impact for the proposed project based on the instructions for each column below; add additional worksheets if needed. Provide completed Aquatic Resource Impact Table with Chapter 105 Water Obstruction and Encroachment application/registration; **DO NOT submit instructions (page 1) for this table.**

Project / Permit Number	DEP / Corps USE ONLY
DEP Permit Number:	leave blank, it will be completed by DEP upon permit acknowledgement/issuance/verification.
Single and Complete Project Number:	leave blank, it will be completed by DEP/Corps upon permit acknowledgement/issuance/verification.
Crossing Number:	leave blank, it will be completed by DEP upon permit acknowledgement/issuance/verification.

Project Information	provide the appropriate information based on the details on each impact for the project
Structure / Activity Identifier:	provide a unique identifier for each regulated structure and/or activity being proposed, typically a name and number; this same unique identifier should be used in all aspects of the permit registration/application package.
Aquatic Resource:	indicate if the structure or activity is impacting a stream or wetland
Aquatic Resource Type:	select/provide the type of aquatic resource (based on wetland or stream) being impacted; Stream: select/provide the type of stream being impacted; perennial, intermittent, ephemeral stream or stream floodway Wetland: select/provide the type of wetland being impacted; PEM, PSS, PFO or POW wetland
Latitude (nad 83):	provide the latitude of the aquatic resource impact in decimal degrees
Longitude (nad 83):	provide the longitude of the aquatic resource impact in decimal degrees
Work proposed / impact type:	select/provide the type of work proposed to impact the resource; aerial, boring, excavation or fill
Waters Name:	provide the name of the stream or wetland (if available)
PA Code Chapter 93 Designation:	provide the Chapter 93 designation for the aquatic resource

Corps / 404 area	provide the appropriate information based on the aquatic resource impact within the Section 404 jurisdictional area, list all impacts separately.
Corps Impact Type:	select/provide the type of aquatic resource impact; temporary, permanent or n/a; indicate "n/a" if you are not proposing any work in, over, or under waters and/or wetlands
WIDTH	provide the linear feet, measuring from top of bank to top of bank, of transverse and/or full channel fill stream impacts; indicate "n/a" if impact is to a wetland OR if "n/a" to Corps Impact Type
LENGTH	provide the linear feet, measuring down the center line of stream, of transverse and/or full channel fill stream impacts; indicate "n/a" if impact is to a wetland OR if "n/a" to Corps Impact Type
AREA	provide the square feet area of direct and indirect/secondary stream impact; dewatering or fill placed in stream channel such as rip rap or fish habitat; indicate "n/a" if impact is to a wetland OR if "n/a" indicated above to Corps Impact Type
AREA	provide the square feet area of impacts to wetlands; indicate "n/a" if impact is to a stream OR if "n/a" to Corps Impact Type

PADEP / 105 area	provide the appropriate information based on the aquatic resource impact within Chapter 105 jurisdictional area, list all impacts separately.
PADEP Impact Type:	select/provide the type of aquatic resource impact; temporary or permanent.
Floodway Impact:	AREA provide the square feet area of direct and indirect/secondary 100-year floodway impact, including watercourse; indicate "n/a" if impact is to a wetland.
Wetland Impact:	AREA provide the square feet area of impacts to wetlands; indicate "n/a" if impact is to a stream

Project / Site Name: _____ Date: July 1, 2016
