**“THE LOVE FOR THE ART  
OF GRAFFITI IS MY  
BIGGEST INFLUENCE “**

“The Chicago graffiti culture has been a huge part of my life as an artist/designer.”

-NICKY NAGS

“Influenced at a young age by the art of graffiti, I have learned that composition is key to design. The amount of work I put into each letter shows, and every letter is a new problem to solve. When I design, I say less is more because I love white space and I strive for simplicity and function. I look at design as a tool that can be changed, formed and discovered as many times as it needs to come up with the right solution. “
