

Hello,

I was at World Cup in Las Vegas and purchased a pair of boots, which I love!! They are easy to fit and soft to wrap around horse's legs. In addition, they are stylish and fashionable, nothing else you can find in our barn.

By the way, I showed the boots to a friend of mine, who could love a pair, actually 2 pairs, one for front and the other for rear, maybe Zebra. I understand that you prefer us to get products from one of your dealers, but there is none in Japan yet. Could you tell me if you could directly sell goods to me, and if yes, how much they would cost, 2 pairs and shipping?

Thank you very much.
