

Full Registration

I will NOT sell a puppy on full registration if:

- “I only want to breed it once so I can give puppies to my friends and family.”
- It is under the age of 6 weeks old when you want to choose. (There isn't a way to tell if a puppy is a good breeding prospect any earlier than that. Conformation is KEY!)
- “I really want my children to learn about birthing and raising puppies”
- If “color” is your main reason for breeding.
- “I want to breed my dog to this dog to get a prospective service animal”

Requirements IF Approved for Full Registration:

- Health testing done prior to breeding. Minimum hips and heart.
- Two breeding references and a vet reference MUST be provided.
- Pictures of your breeding facility, other dogs, and yard MUST be sent via email or text.
- If the puppy isn't going to be shown whether Internationally, AKC, or UKC full registration will not be approved.
- If you purchase the puppy on Full Registration with the intention to show and do not, 2 puppies will be owed back per litter (if female) unless puppy is actively showing. If male, partial stud fee will be owed back for each litter he sires.
- GCD will ALWAYS be listed as an owner on the registration certificate.
- GCD must always approve of any studs used on the bitch purchased. If male, GCD must always approve of any bitches he is being studded to.
