

# Dr. Yousuf Ahmad

CEO of AssureCare

Dr. Ahmad is a hands-on executive with experience leading and managing reputable, multi-billion dollar healthcare organizations. He most recently served as the Senior Vice President of System Development for Mercy Health – the largest health system in the State of Ohio and one of the largest in the United States. He also served as the President of the system’s Behavioral Health Institute. Prior to this role, he was the Market President and CEO of Mercy Health for its Cincinnati market.

Dr. Ahmad’s background of innovation includes implementing the region’s first Epic Electronic Medical Record System and leading the formation of the region’s first and only Accountable Care Organization, which now serves as one of the largest ACOs in the country. With healthcare experience including both CIO and CEO roles, Dr. Ahmad brings an impressive background of leadership and technology to AssureCare.

Dr. Ahmad is a Fellow in the American College of Healthcare Executives (FACHE), a Certified Medical Practice Executive (CMPE) in the American College of Medical Practice Executives (ACMPE) and an active member of the American Public Health Association (APHA).

Dr. Ahmad holds a Doctorate in Public Health from the University of Kentucky, a Master’s of Health Administration and a Master’s of Business Administration from Xavier University. He earned his undergraduate degree in Computer Information Systems from Eastern Kentucky University.
