Artful Do's & Don'ts

For Your Natural Nails & Nail Enhancements.

Do...

 *Treat your nails like fine works of art.*

-  Always wear rubber gloves when using harsh cleaning products or chemicals.
-  Use only pure natural lotions/bath products.
-  Remember to schedule appointments "Ahead of Time". This will ensure that your nails will always look beautiful.
-  Use quality cuticle oil everyday. This will help prevent nail products from lifting.
-  Always have quality nail glue, a file and cuticle oil handy for maintaining your "Work of Art" nails.
-  Book your appointments every 2 to 4 weeks, as decided with your technician, to maintain your nails.
-  Contact "The Nail Gallery & Spa" if you have any concerns.

Don't...

 *Treat your nails like graffiti.*

-  Use your nails to dial phones, pry open packages or pop cans, scrape pots & pans, etc.
-  Pick, bite or file nails excessively, severe damage may occur to your natural nail. File "nicks" gently with a proper file.
-  Use cuticle oil, lotions or bath products which are mineral oil or petroleum based. Ask us why!
-  Go longer than the recommended appointment time for Nail Enhancements (pg 3), as decided with your Spa Professional, this is when problems develop (lifting can provide a natural environment for molds, etc and also the nails are more prone to breakage because the nail is not balanced properly if maintenance is delayed).
-  Try to remove Nail Enhancements (pg 3) from you natural nails yourself . . . The nail plate can be severely damaged if product removal is not performed by a "professional".

Nail Enhancements

Fingernail Enhancements

We believe in letting our clients know what kind and quality of nail service they are receiving from our Certified Professional Nail Technicians at varying stages of their careers – not students!!

You have your choice of nail technician skill level for "Fingernail Enhancements" priced accordingly, at Recently Certified*, Apprentice*, Junior* & Senior (*when available). Please feel free to visit each of us. Our Senior & Junior nail technicians mentor and check the other nail technician's work on a random basis.

We differ from other Nail Spas in this respect & are proud to say: You have control in choosing the service level you desire and you are aware and get what you pay for!

1. Recently Certified: Do expect to be booked up to 2½ hours at this level. These nail technicians are new to the Spa and/or Nail Industry and are embarking on the journey to refinement of their newly acquired skills. They use gel product only.
2. Apprentice: Do expect to be booked up to 2 hours at this Level. They have more expertise than the recently certified level and are still refining their skills at shaping and starting to implement art techniques. They use gel product only.
3. Junior: Do expect to be booked up to 1½ hours at this Level. They have over 1½ yrs experience, although they are still becoming proficient with varying art techniques, recognizing and dealing with problem nails and refinement of their nail shaping. They use gel product only.
4. Senior: Do expect to be booked up to 1½ hours at Senior Level. They have year & years of expertise. The seniors have the experience necessary to encompass numerous art techniques, to remedy solutions for problem nails and are adept at nail shaping. These nail technicians may use gel or acrylic product.

Remember, we guarantee Apprentice, Junior & Senior "Fingernail Enhancements" Services for one week on our Workmanship. If you accidentally break a nail, not due to workmanship, there will be a charge. Recently Certified "Fingernail Enhancements" Services have no guarantees because they are developing their skills and their service pricing reflects accordingly.

Our philosophy is one that supports our skills in sculpting extensions, encouraging growth & health of the natural nail, achieving length for client with their own natural nail, not an artificial plastic tip.

Sculpted Full Sets see pricing pg 4

Nails are sculptured & extended to the length desired with nail enhancement product. Cuticles are also gently pushed back & treated. Hands are enveloped with lotion, followed by a relaxing hand massage. Finally, you can sit back and admire your own personal work of art!

Natural Nail Overlays see pricing pg 4

Enhancing your own artwork, where no length is added, by artistically strengthening your own natural nails with nail enhancement products. Cuticles are treated, lotion is applied, followed by a hand massage.

Fills see pricing pg 4

To restore, rebalance and retain your natural nail artwork if planning on keeping Fingernail Enhancements over 2 weeks. Otherwise, please have the product professionally removed in 2 to 4 weeks to prevent damage to your natural nail. Note: If fills aren't performed every 2 to 4 weeks, or nails have excessive lifting or damage, extra work is required, resulting in a higher fee. Nailbiters or problem nails may have to book within 1 to 2 weeks for their first few visits depending on the severity of the dilemma. Fill appointment scheduling is dependent upon nail growth, please discuss your regimen with your Spa Professional. One nail repair or replacement is included at no charge. Hand massage included!

Party Nails

Plastic Tip Solutions

Be very careful when wearing these enhancements! We do not guarantee these nails due to the wearability being short term. Book them as close as possible to your event! We do not perform fills on Party Nails/Temp Tips - please see excerpt below. Please have them removed professionally. We always recommend a Sculpted Full Set as the ultimate long term solution.

Temporary Tips see pricing pg 4

May Last For One To Three Days . . . Give or Take . . .

Nails are shaped, cuticles treated, tips are applied to your nail and then nails are polished - you're set to go!

Temporary Tip Overlays see pricing pg 4

May Last For Three To Seven Days . . . Give or Take . . .

Nails are shaped, cuticles treated and French or natural tips are applied with a layer of gel enhancement product.

Tips seem to produce a beautiful set of nails; problems begin when natural nail growth needs maintenance. When the natural nail establishes length the glue bond breaks down, nails curl and become unsightly. Next, the tip is picked at, broken off or removed by a nail tech working to clean up residue that finds its way under curling natural nails. To create/apply a new plastic tip extension you need to cut any natural nail growth flush to the fingertip. This starts the merry go round of gluing tips on, having them break down & replacing them, cutting back the natural nail & overexposing the nail plate to blend in the tip. This process leads to clients always having artificial nails rather than their own natural nails grown completely out. For the client, tip applications and removals are hard on the nails. If a soak is used it may penetrate the nail and be held in the natural keratin, possibly affecting the bond. The natural nail receives little care and risks of nail plate over-etching increases with the frequency of tip applications.

Spahhhh-On \$75

(approx 1 hr.)

No 'Zit' - Really? Let's 'clear' something up: While every step of this treatment is serious about stamping out spots, it's also super-soothing to help calm & nourish irritated, acne-attacked skin. Bye-bye, breakouts!

Body & Facial Elegance

Sink your skin... into something beautiful!

*Choose from an array of skin revivers & release the strains of daily pressures,
as you become the focus of intense pampering!*

We are often asked if we have 'couples facials or massages', or facials & massages side by side in the same room.

We have to ask: Why? If its one of our facials or massages (re: a good facial or massage) you will enter a trance-like state within the first five minutes and forget that there is even someone else in the room!

As with all of our treatments, we asked ourselves how we could improve upon the industry 'norm'.

If we could start from scratch and build the perfect treatment, free from the constraints of what everyone else does, what would we do?

Well, we would certainly want a couples treatment that is more, well, secluded. More interactive. More intimate.

It doesn't hurt that we happen to have Saskatoon's Foremost Private Couples Custom Pedicure rooms, as well as the opportunity for groups of four to have exclusive pedi-parties.

Bacials *Looking to don that low-slung something?*

The following skin specifics are complimented by exfoliation, steam, manual pore cleansing, and pure relaxation!

Makeup Artistry

About Face \$75

(approx 1-1/2 hrs.)

This is a perfect service for anyone looking to learn new techniques, break a makeup "rut", try on seasonal colors or colors for a new hair color, or learn a new technique in general. This will cover the entire application from foundation to the last setting powder. You will be shown how to do your makeup hands on, and you will try it with the Spa Professional's assistance afterwards. Also perfect for teenagers just getting into experimenting with makeup.

Most women have never been taught how to properly do their makeup for their coloring, eye shape and own personal style. In many years of doing makeovers, we have heard this statement over and over again.

There is a need for women to learn makeup application from a professional that has your best interest in mind. Our Spa Professionals have experience doing makeup on a variety of clients and will gladly share their knowledge with you in a one-on-one lesson. The format of the lesson is as follows:

1. Bring all of your makeup & brushes - if you have any! We will sort thru your cosmetic wardrobe and advise you of what to keep and what to get rid of.
2. Discussion of what colors will bring out your own natural coloring & why they work best for you.
3. Brow shaping discussion and Brow Wax included.
4. Step-by-step "everyday" makeup application. We will do one side of the face & you will apply the makeup to the other side. You will learn by doing & by taking detailed notes.
5. After your everyday look is complete, we will show you how to take the makeover into an evening or special occasion look.

We will complete the lesson with questions & answers. Also, suggestions will be made on products, if you need to add to your makeup wardrobe. You will walk away from this lesson with the skill & confidence in doing your own makeup.

Face Forward \$40

(approx 1/2 hr.)

A "lashes to lips" general makeover in our Spa Professional's hands. Perfect for any occasion; dances, reunions, dinner parties, grad, etc. In wedding parties, bridesmaids are charged this application price.

Blushing Lady (perfect for Special Occasions, Brides... great for Grads too) \$55

(approx 1 hr.)

A professional makeup application (no rehearsal). Designed with extra time for the lady with a budget in mind, who wants to look her absolute best for her special day! We make sure everything is absolutely perfect for your event grand entrance!

Nervous Blushing Lady (perfect for Special Occasions, Brides... great for Grads too) \$80

(consultation appt., booked 1 week prior, approx 1 hr. & event day appt. approx 30 min.)

This takes care of the time to meet with your Spa Professional to discuss your makeup habits, comfort level, color combinations, event color details & a rehearsal makeup application. Brow shaping discussion & Brow wax included in the first session. All colors agreed upon and used in the rehearsal, will be stored & held for your stress-free event day makeup session.

Innocence & Eyelashes \$5

(approx 5 min.)

We cannot forget the little ladies (10 yrs & under) - just a little lip shine & face sparkle!

Lash & Brow Enhancements

complete peeper perfection!

*The beauty of a woman must be seen in her eyes,
because that is the doorway to her heart, the place where love resides.*

Lash Extensions

it's time to end lash envy!

Fluttery and fabulous,
effortlessly gorgeous, lush and natural lashes are now a total cinch,
shortening the "morning routine" and the need for mascara, eyeliner or your eyelash curler!

Once you have your eyelash extensions applied,
the results will have you wanting to look in the mirror time and time again
and people will comment on how wonderful you look, but won't quite know what is different.
Did she, or didn't she? Oh . . . she most definitely did!

Our eyelash extensions lengthen, thicken, curl, and darken your natural lashes instantly,
opening up your eyes to make you look fresh, alive and feminine.

We can do natural. We can do dramatic.
Typical false eyelashes that are applied as a single strip or individual clusters of lashes,
last only a couple of days.

We hate to be the ones to tell you, but not all lashes are created equal.
Long term wear of those "other kinds" available in strips, bundles, clusters or flares
is just plain unhealthy for your natural lashes.

Their weight alone can cause serious breakage and inhibit future re-growth,
even causing lash baldness.

So trust us, and "ixnay" those other kinds.
In contrast, our technologically advanced, single eyelash extensions
are individually bonded to a client's existing eyelashes.

That's one by one.
So with proper care and Relash visits scheduled every 2 to 3 weeks or sometimes longer,
depending upon your natural lash cycle,
as well as how you take care of your lashes,
will result in eye opening lashes that are safe in the shower, while swimming, sleeping and exercising.

Our Spa Professionals are certified experts in lash application.
If you are a lash virgin or a returning client;
the Spa Professional will always consult with you on your choice of style, length and thickness
before they start.

During this consult you can always request to get your eyebrows waxed too.
After you have reached a decision,
the transformation will make you turn heads and provoke many good questions and compliments.

It's a meticulous process using the highest quality materials
that won't damage your real lashes or compromise the health of your eyes.
Clients have commented they have never felt so at ease and some have even fallen asleep.

With any Lash & Brow Enhancements Service, as is the case of Lash Extensions, it is advisable to
avoid oil-based moisturizers, cleansers, or wipes, as they will dissolve the glue that adheres your lashes faster.

Due to variances in the quality of lashes done elsewhere, we unfortunately see LOTS of eyelash extensions not being applied correctly (glue clumps/lashes soldered together) and are virtually impossible to Relash. If you had extensions done elsewhere and they are clumpy, have used flare lashes, or they are twisting and causing irritation, then we may have to remove and apply a new set (De'Lash is \$25 to \$40 extra when booked with a new set). Please feel free to discuss this with us when booking. **We are very happy to infill the work of other technicians as long as it is high quality and the lashes are properly separated!**

Simple Removal...? It should be. If you've had bad lashes done elsewhere and your eyelids have become very irritated, infected and puffy, please don't come to us. Go to the doctor first! ... and then come to us!

Tinting *these dramatic effects will leave you wide-eyed!*

Wake up every morning with beautiful lashes and/or brows that are rich in color.

Fantastic for vacations...

In and out of the water your eyes will look complete
without a black runny, smudgy mess from mascara or brow pencils.

Particularly great for the sporty (and sweaty) because they don't need eye makeup!

Perfect for sensitive eyes or those who wear contact lenses
and want to avoid the mascara flakes and associated irritations.

We also can't forget those of us who don't have the time to apply makeup daily
or who would rather just be au naturel.

Amazing for really blond light lashes/brows or lashes/brows that are graying,
creating a dramatic look around the clock!

The best benefit of fuller looking lashes & defined brow tinting
... it is 24/7 and lasts for 4 to 6 weeks,
unlike mascara & brow pencils, which have to be applied every morning and washed off every night.

The rose plays a recurring and symbolic role in Roman legends. The Romans were enamored with the smell of roses. During the feasts of Roman Emperor Nero, guests lounged on pillows stuffed with rose petals, gazed upon fountains which flung up rose water, bathed in marble-lined pools filled with rose-perfumed waters, ate at rose petal covered tables, quaffed aromatic rose wine and indulged in rose pudding for dessert. In Greek mythology, Venus' Greek equivalent is Aphrodite. Greek myths accentuate the symbolic nature of the rose. The most famous surround Aphrodite (Venus) as Goddess of love. She sprang forth into life from the foam of the sea, and where the foam fell to the ground white roses grew. Although the goddesses names differ, there is a basic similarity in many of the stories. One myth parallels that of Aphrodite rescuing Adonis and symbolises the connection between blood, sexual fulfillment and red roses. Venus loved Adonis but was also pursued by Mars, the God of war, who would have killed Adonis had not Venus warned her lover of the dangers he faced. In her haste to save him, she slipped in a rose bed and scratched her legs. Red rose bushes grew from the blood that flowed from her wounds onto the ground. The rose was a symbol of life because of its beauty, a symbol of death because of the inevitable withering of its blooms and a symbol of eternal life because of its association with the Gods. The rose, by virtue of its beauty, shape and scent, has become the most commonly used floral symbol in the West. Once the insignia of ancient Goddesses, it was revealed to be a semblance of divine power in its feminine splendour. It is in effect the symbol of the Divine Mother, and thus symbolises the chalice of life and love that is the soul. A symbol cherished by our ancestors that has been handed down over millennia...yet has power to move our spirits.

To All Clients

*We understand that you may have a favorite Spa Professional
and we will do everything possible to hook you with her.*

At the same time, we have to let you know this may not always be possible.

We would like to point out a few things you may not be aware of and solutions to concerns we've faced.

1. Please help yourself to refreshments and be seated until your Spa Professional comes to greet you.

Some clients may not have noticed, but The Nail Gallery & Spa has taken further precautions in the protection of their clients and "Spa Professionals". We use clean, disinfected instruments on each and every client and disinfect our workstations in between each client. At the end of each service, we spray our desk surfaces down with a hospital grade disinfectant and leave it wet while we go up to the front to receive service payments and book appointments. We go back to our desks, finish our disinfections procedure and then we may take this opportunity to take a break ourselves (washroom, etc.). Please wait in the seating area until we come to get you/call you and seat you at our clean desks. This added procedure sometimes delays a service by a few minutes - but we all agree that is just has to be done for everyone!

2. Monika is the owner of The Nail Gallery.

We're not stating this to cause any offense to anyone. We're just letting you know that if there are questions, or concerns with your service or "Spa Professional" in anyway, Monika is the person that these questions should be directed to. If there is a problem regarding an appointment or a "Spa Professional", Monika is the only one given the task of responsibility for the client's issues, the "Spa Professionals" do not have this authority because it is Monika's business - she wishes to protect the clients, as well as her staff, from awkward situations by handling these issues herself. Also, because the "Spa Professionals" are employees, all services rendered have a set "Salon" price. The "Spa Professionals" do not have authority to make deals or provide services at different salon rates. If pricing is an issue, please talk to Monika.

3. All of The Nail Gallery & Spa's "Spa Professionals" are educated to perform the same service on every client.

All employees of The Nail Gallery & Spa are educated prior to working at The Nail Gallery, through esthetics schools and other various certification programs. The Nail Gallery & Spa prides itself on their "in house" training programs that further expands the skills of all employed "Spa Professionals". All Nail Gallery & Spa "Spa Professionals" are required to attend an "in house" Nail Course and all Esthetics Courses, under the direction of Monika. This is Monika's assurance of quality and The Nail Gallery's way of maintaining the standard of their services to be enjoyed in the same way - no matter which "Spa Professional" is scheduled to perform them.

4. All of the Nail Gallery & Spa "Spa Professionals" do not accept phone calls during working hours (unless family emergency).

The reason we state this is that we have had a number of clientele, requesting to speak to their "Spa Professional". If you have any questions regarding your nails, booking appointment times, etc. - you may talk to the person who answers the phone - it could be any one of us and we're more than glad to help you. This approach eliminates the need, for the "Spa Professional" requested, from interrupting her current client - remember it could be you and from experience, it's definitely not professional to leave a client in mid service. We feel that the client should have our complete attention during her service. Some clients have been getting upset with us over this issue - please understand that the person who answers the phone does all of the bookings and can answer any of your questions. Beyond this or for further information please ask for Monika, she may be with a client - but she'll get back to you as soon as she can.

5. *All clients are encouraged to book with the "Spa Professional" that is available for times that the client requests.*
6. *All Nail Gallery & Spa "Spa Professionals" do not rent space or receive commission - they are employees of Monika's through The Nail Gallery.*

Every client has their favorite "Spa Professional", but at the same time The Nail Gallery & Spa has run into a few issues that aren't quite fair, to the client or the "Spa Professional", when it comes to booking appointments. What we mean by this is that:

- Some clients refuse to book with another "Spa Professional" when their appointment times need to be scheduled. Whether this is out of loyalty or being scared to go to "someone else", we all do not understand. All of us would rather you go to one of the other "Spa Professionals" instead of waiting too long for your appointment, which results in unfairness to you . . . in that the longer you "wait" - the more work is required - resulting in a higher fee for service.

Let's clear up a few points that you may be unaware of:

- Many clients believe that the "Spa Professionals" work on a commission basis and that if they (the client) doesn't book with this "Spa Professional" that the "Spa Professional" doesn't get the money from her service. This simply is not a situation to be worried about - All employees/"Spa Professionals" receive a good wage, not commission - Monika has ensured this - so her employees are all happy.
- All of us are very busy and we try to accommodate your appointments, by booking ahead - when booking ahead is not possible - please don't be upset with us if you're unable to book with your favorite "Spa Professional", when your schedule doesn't match or you have to change your appointment times or that your "Spa Professional" is just plainly booked. We all would rather that you "get in" for your service with one of the other "Spa Professionals" for one time - until you're back on track. The reason we are stating this point is that some clients may feel that they are being "pushed" to go to another "Spa Professional" - our first and main concern is you and your service time - some clients have even gotten mad at us when their regular "Spa Professional" is booked and we suggest an alternative "Spa Professional", for one appointment. All of us agree that you, the clients feel that we are trying to, let's say "steal" you away from one and give to the other. Please be assured there is no need for competition among us (we have no incentive to "steal" clientele - we get paid the same either way) - we just want to do the best for you.
- Some clients feel that they will hurt our feelings if they book with another "Spa Professional" - this is not true - we want the best possible service for you. Example: A client couldn't get in with "Spa Professional A" - so we suggested "Spa Professional B" - the client didn't want to hurt "Spa Professional A's" feelings - so she went and got her nails done somewhere else to avoid the "guilt" - don't feel guilty - rather than going somewhere else "Spa Professional A" would have preferred if you saw "Spa Professional B" (her team member), rather than a totally different tech who has different methods from The Nail Gallery & Spa - "Spa Professional A" knows that you will be taken care of properly by "Spa Professional B" - and knows that you will receive the treatment you deserve until your next appointment - All of the "Spa Professionals" agree that we don't understand this situation - the client is seeing someone else anyway.....so please book with one of our other team members - this way we know that you're taken care of.
- Some clients wonder why we charge more for a service if they've extended their appointment times and are overdue because they wouldn't book with another "Spa Professional", because of scheduling conflicts. These clients are offered alternative appointment times, but if they refuse and book an appointment and are overdue - it's not fair to the "Spa Professional" that they are seeing - there is a lot more work involved if a client is overdue - so we have to charge more - this could be avoided by booking with one of the other "Spa Professionals" for one time around. Some clients have stated that they had to "wait" to get an appointment and they shouldn't have to pay extra - this simply is not true - we will accommodate you somehow by booking you with another "Spa Professional" for your service.

7. *Cell phones must remain off during your service time.*

We realize it's a modern world and that it's great to be accessible at all times. Unfortunately, cell phones cause a major distraction of services performed in three ways:

- Your service is interrupted - meaning that your "get-a-way from it all" is not a reality.
- Other clients are disrupted/distracted during their service.
- Your service usually requires that the technician be applying some sort of product to you. We've actually have had people answer their cell phones and "muck" up their nails - then they turn to the technician and expect them to "fix them". Once nails are "mucked", during a service, there usually is no way of fixing them up properly within the appointment time. Therefore . . . this puts the next client's service unnecessarily behind - remember that this client expects service from us too.....so we have to do what we can within the service time remaining.

So, we've all decided that cell phones must remain off to avoid this situation completely. Please understand.

8. Please do not approach/visit the "Spa Professionals" when they are servicing another client.

We have had, in the past, clientele who like to "drop by" and "visit" or "just drop something off" with a technician. They have just walked up to the technician and starting talking to her when another client is sitting in front of the technician receiving her service. This is a total lack of respect to the client who is currently receiving service. Please....if you must.....ask at the front desk and/or leave a message at the front desk.

9. Arriving late or missing an appointment have consequences.

Your appointment is reserved especially for you and your Spa Professional. Unfortunately, if you arrive late, we will do what we can in the time allowed (even if that means cutting back on the service) or reschedule you (if there is absolutely not enough time). We've had clients come 20 to 45 minutes late for their appointments and expect us to do a quality service - the only way to accomplish this is to go "overtime" into the next client's appointment - we cannot do this....please understand. Also, we've had an increasing number of "No Shows" from clients not informing us that they cannot make their appointment - we would rather you phone and let us know than not know at all. In Fairness, our policy is quite clear, missed appointments, without 24 hours notice OR 48 hours notice being required when canceling appointments of 3 hours or 2 or more appointments scheduled at the same time, will be charged for upon the client's next visit.....so, pick up the phone! If there is no notice of cancellation as indicated, a charge of all spa services booked will result or the redemption of your gift certificate. No exceptions! The missed appointment policy also applies to rescheduling appointments at the last minute (with the exception of family emergencies). Please take the time to schedule your appointments accordingly. And for all clients, please note that we do have a message machine that is accessible after hours if you have to cancel an appointment.

*Thank you for taking the time to read these concerns
... Our goal has always been to provide the best service possible.*

 *Welcome!*

From Monika and all of her "Spa Professionals".

Our Story about our affiliation with *Gallery Esthetics Source & Education Training Centre*

Monika Seniuk established the renowned **Nail Gallery & Spa** in 1999 in the beautiful city of Saskatoon, Saskatchewan and still services clientele and mentors employees in the same location! With over 15 years of experience as an Educator for different gel nail enhancement brands, manufacturers and distributors, as well as a practicing Spa Professional for over 20 years performing esthetics and nail technician services in various salon environments...hers as well as others, Monika's drive & commitment to quality & service excellence ensured she was destined to succeed! What followed was a lot of hard work, a steep learning curve and many personal triumphs and challenges.

At the time, it was difficult for Spa Professionals to find products and education designed for what they needed to perform services. Monika, an avid Spa Professional herself, saw an opportunity to fill this gap. She knew that in Europe, Spa Professionals could choose from a wide range of quality education, spa tools, furniture and supplies.

The idea, for a Beauty/Spa Industry Professional's Only Wholesale Distributorship & Education Centre, began evolving in 2001. Monika, her husband and daughter, founded a company, named Gallery Esthetics Source. Monika's dreams of importing quality professional Spa Products and offering them for sale, while providing positive Education was an instant success!

From the start, this Saskatoon-based, family-run business was lead by avid Spa Professionals, eager to find quality spa tools, furniture and supplies that they could use in their own salons, spas, schools and home business', and share with friends and customers. This Spa Professional-to-Spa Professional partnership is at the heart of our business.

In addition to offering exceptional education, importing tools, furniture and other spa sundries, Gallery Esthetics Source also established its own research and development capabilities. Products were adapted for use, where staff, educators and clients collaborated to develop and source new products that addressed specific spa challenges. This culminative effort lead to our manufacturing capabilities and the presentation of an innovative brand designed to answer the Spa Professional's needs....Splash Nailspa Solutions and introduced the first product Wave Sculptures integrated gel system. This focus on product development plays a key part in our continuing success.

Gallery Esthetics Source began with a constant reminder that's exactly the same today as it was years ago:

*To spread the joys and rewards of the Spa Industry, because Spa Professionals
nourish the body, elevate the spirit, inspire beauty, build community and makes the world a better place!*

Gallery Esthetics Source is based on the belief that knowledge and the pursuit of education is one of the highest and most ennobling characteristics of Spa Industry Professionals. As the industry matures, the need for highly trained professional nail technicians and estheticians continues to grow. As professionals, we stand on the shoulders of those who have gone before and continue to pass the torch of knowledge on to those who will come after.

As a training facility, under the direction of our Founder and National Educational Director Monika Seniuk, we strive to provide an atmosphere designed to develop a passion for a lifetime spa career for our students, former students, onsite and offsite GES Educational Experts, with a superior and elite educational enrichment; including the finest products, the most comprehensive curriculum, the highest standard of professionalism, as well as experience and support! Monika's passion to improve Spa Industry standards have helped produce some of the finest Spa Technicians and Educators out there!

We believe that a superior nail technician and esthetics curriculum must include hands-on experience and theory training. We have confidence in that this knowledge is essential to providing the Spa Industry and employers with the highest level of fully trained, competent, Spa Professionals!

Graduates of Gallery Esthetics Source leave our classes with a solid educational background, allowing them the opportunity of employment with the finest Salons & Spas.

In addition to providing excellence in the Core Programs offered by Gallery Esthetics Source, it is our goal to provide our former students and other career Spa Professionals with the opportunity of the finest and most comprehensive Continuing Career Classes available! We've also developed a continuing support column, Nailspa Solutions, addressing challenges that our professional nail industry faces on a continuing basis.

In coming together, we trust that we can draw on the experience, education, resources and talents of both students and educators to create a rewarding and successful educational experience. By maintaining a reputation of excellence in the Spa Industry, we will continue to cultivate relationships with employers, organizations, businesses, career spa professionals and former students that will be mutually beneficial and allow us continued excellence in the exciting field of Salon & Spa.

Through Gallery Esthetics Source you will find the right Core Program or Continuing Career Class for your career goals. We invite you to pursue a career in the Spa Industry now!

Call GES's Head Office at 306.664.5004 in Saskatoon or 1.877.664.5004 outside Saskatoon **to request a Student Info Package or to answer to any questions you may have** for our upcoming Course dates. We currently offer Saskatoon's Premier Certified Spa Gel Nail Technician Program. Other Core Programs and Continuing Career Classes (nail tech & skin care tech or advanced spa) as they become available, will be announced via email circulars to our existing GES clientele.

Points to Ponder with Our Nail Technician Program:

1. **The cost includes everything:** kit with all of the products (and believe me...you won't run out like some other courses), including a full hand Professional UV Lamp with built in timer, your choice electric nail file, the manual, education and all of the taxes. Registration to reserve your seat is 150.00 +GST = 157.50 and is deducted from the final course total. The remainder of the course fees must be paid on or before the start date or along with the registration fee.
2. You do receive recognizable **certification** as our course is **approved and accredited** for technical training credit, enabling you to pursue your spa career and buy wholesale professional spa products, showing that you have completed a professional course.
3. Unlike some other education providers, we offer choices for our "System Supplies"....and Students automatically receive a sizeable discount on the kit choice, resulting in the final total on the registration form. **The kit is comprised of quality and contains the essentials!**
4. **A Few Kit Highlights:**
 - Full Hand UV Professional Lamp with a built in timer - not a student lamp
 - Electric Nail File with bits – a good beginners machine is automatically included, but we do offer additional advanced machine choices priced accordingly (we don't want you saying later "why didn't you tell me!")
 - Professional Daylight Overhead Desk Lamp – an essential "tool" and a normal desk lamp will not function as required
 - The complete gel system (10 gels) – not just the basics or a select few.
 - Complete Sanitization and Disinfection System with Tray & Bottles – proper setup
 - Lotion, oil – most courses give smaller sizes
 - Ample Tips, Glue and a professional tip cutter – no nail clipper!
5. **The GES Spa Gel Nail Course documentation (manual, etc.) has been through rigorous review and curriculum approval for technical training credit.** Our manual is a sense of pride, developed by GES to be engaging and is consistently peer reviewed by our Team of GES Educational Experts, **based on the latest evidence, industry standards and government guidelines.** We do not use a "generic" representation of a nail technician manual that most courses loosely relate to their curriculum, by picking and choosing sections randomly throughout the text. Rather, we gauged our manual to our course and have found that it's material relates to a solid understanding, mixing theory and our revered hands-on approach for each topic. This process is what sets our exemplary teaching methodology apart from those other "generic" courses.
6. **Our Course is taught with use of an Electric Nail File** and is included in the course fees. Most courses do not teach with the electric nail file, they only teach how to hand file! Therefore, you would be expected to purchase an electric nail file after completion of those courses and then be offered a 1 to 3 hours instruction (3 if you are lucky) on how to use it! We firmly believe that every nail technician should be taught with the electric nail file and be instructed on its proper usage throughout the course, ensuring the skills to use it upon completion of the course! We haven't heard of any Nail Salons who doesn't use an electric nail file in this day and age! Electric Nail File Education is a must...don't worry – you will learn how to hand file properly too!
7. **Our Course is in depth, taught by actual working Journey person Esthetician - Nail Technician** GES Educational Experts who have accomplished mandatory Saskatchewan government testing as well as comprehensive educator training thru GES, in order to share the nail industry with you! You will learn tips, sculpting, use of the electric nail file, how to deal with nailbiters and much much more – we have had students from other education providers retake the course with us because they found they were lacking or have heard from salons and other nail techs that our course is the best education and once they've completed it – they affirm this fact!
8. **All of our on-site Classes are taught on Sundays** for the gel nail technician program. Our students love the fact that they can manoeuvre around their employment schedule during the typical work week with classes on Sundays and then homework completed around their normal working hours! Also, stay at home moms, who are responsible for the kids all week, find it easier to line up a babysitter or the hubby for classes on Sundays! We try to accommodate!
9. We keep our on-site course to no more than a **1:6 Educator to Student ratio** to ensure that you are receiving the education you deserve – not large classes of more than 6 or upto 24 students with only 1 educator!
10. **Do note that we do offer Private Classes**, with the same amount of hours devoted to education, at an increased rate reflective of personal, one-on-one private education. If you'd rather attend a Private Class Course let us know and we will forward the appropriate info. There are Gallery Esthetics Source educators that teach the Private GES Nail Technician Course, **arranged to your schedule**, in Saskatoon & throughout Saskatchewan & Alberta (in your area or close to you!). With private instruction, you have the undivided attention of the instructor ensuring quality one-on-one education!
11. As an **approved Education Provider** for many government institutions and if you are seeking funding from particular sponsoring agencies, please contact GES Head Office directly to compile an official proposal package to provide to your specific agency.
