- **SELF CONTAINED**

TRANSFER PVC RESIN (POWDER) • PLASTIC PELLETS • FOODS • CHEMICALS

Continuing customer requests for a **portable, electric powered, self-contained transfer unit for plant use** have resulted in the **VENTURI-25 (E) PNEUMATIC BULK TRANSFER UNIT.**

Shipped to your plant completely assembled, wired and ready for service. It can be used anywhere your power cable can reach.

E-Z cleanable - no airlocks or butterfly valves to trap product.

Economical 15 PSI system. Achieves your transfer rates without the need for expensive code vessels, compressors and conveying lines.

304 S/S - PD POT

All inside welds ground & polished

Also available in aluminum and food grade, epoxy coated carbon steel.

Top loading model available for use under silos and storage hoppers.

Adapable to any conveying line size.

40-100 HP TEFC MOTORS

NEMA 4 or 12 motor starters. Panel may be customized for your plant requirements, with high level shutdowns, scaling readout, and pilot lights, etc.

TRANSPORT WITH FORKLIFT

Anchor permanently or position for temporary service. Quiet operation - blower inlet and exhaust silencers, blower sound absorbing covers available.

E-Z CLEAN DESIGN

Pot side inlet manhole and quick disconnect couplings at other points allow 100% visual inspection of all components.
