Rectangular Tank with Intricate Fitting Layout

Horizontal Underground tanks with Manways and Manway extensions.

7' Cone Bottom Chemical Tanks with Legs

12' x 34' Vertical Tank with 2" Insulation and Heat Tracing

EDWARDS
FIBERGLASS, INC.

Edwards Fiberglass, Inc. manufactures fiberglass tanks for industrial and government accounts throughout the United States for the storage of chemicals, contaminants, foods and water. Diversified manufacturing capabilities provide the requirements of storage vessels in all designs with capacities ranging from 50 gallons to over 30,000 gallons and include single and double wall configurations.

Various size open top, flat bottom tanks for beef processing plant

Small tanks ready for shipment.

8' Horizontal Tank with saddles

12' Cone Bottom tanks with legs removed from ring for shipment.

Manufacturing materials are chosen using percentage of concentration, temperature and the corrosive behavior of the product. The resins used in fabrication and laminate properties are laboratory tested and subject to quality control during the manufacturing process. All tanks are inspected in entirety prior to shipment.
