## Art Works Gallery

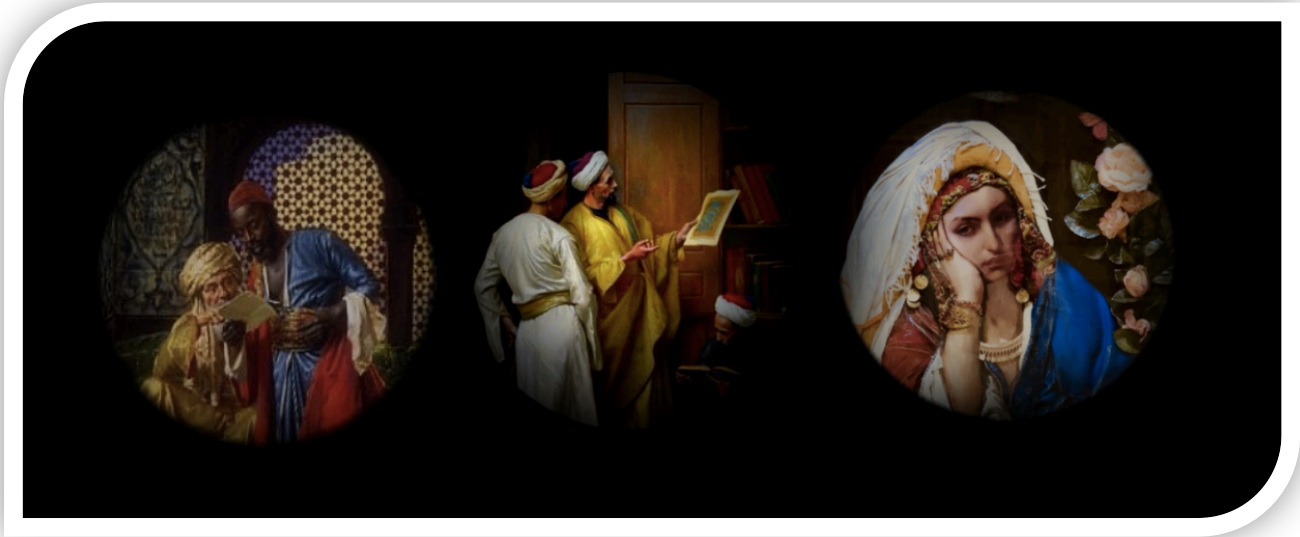

Welcome to 3D Artworks Gallery. My name is Mohamed Saleh Awad. As an artist with passion to express myself through many art mediums, like Watercolor, Mosaic & various Crafts, 3D Artwork I find is the most expressive. While studying in England I was always surrounded by history and rich culture. This has had a great impact on me and in the way I like to pass this experience through my art.

### 3D Artworks

This is the Art of making 3D Art Murals from authentic Orientalists themes. The method involves creating multiple layers of the same image. This form of art transforms a normal pictures from a 2D to 3D dimensional artwork, in a way its breaths life into my artwork.
