PMC's Message

This has been a busy summer for the Mess, and the autumn schedule has no sign of letting up. In addition to many successful regular and year-to-year events, we continue to plan to diversify the type of events we conduct. Our goal is to enrich the Mess experience by finding events that appeal to many different segments of our membership. As part of this plan, I have directed the VPMCs to initiate a member survey, with the goal of getting a wide base of feedback from among our membership. I expect this to be available by mid-October. Please take the time to complete the survey when it becomes available. On another note, we have developed an approach to Lunch Weepers that should meet the conditions of not employing NPP staff in our kitchen facilities (as was the impetus for changes from kitchen prepared to fully-catered). At our next Lunch Weepers, our kitchen will produce the meal, and we will adjust the serving plan. This will reduce the overall cost of Lunch Weepers, and we will also be reducing the price for guests. This year has presented many challenges, we are fortunate to have committed administrative staffs, and a dedicated Mess Committee that work to enrich Mess life and culture.
