### Posha Vs LP Cyclones

13/4/2019

POM: Louise Remenyi (Posha)

POM: Lisa Castle (LP Cyclones)

With the sun shining both teams were looking forward to a great game. The only downfall was having to work with 2 small posts which took some time getting used to.

Posha were on fire right from the start and quickly gained a healthy lead over LP Cyclones with some quick pace and both shooters finishing off some great passes into the circle. The 1st quarter ended 16-7 to Posh.

Quarter 2 was much of the same as the 1st with a change to Posh's shooting circle. As lovely as it was to have the sun it did cause a few blind-spots which both teams took advantage of. Posh definitely had height on their side and forced some errors from LP Cyclones which put us under pressure. The 2nd quarter ended 14-8 (30-15 overall).

Another change to the shooting circle for Posh going into quarter 3 which showed LP Cyclones resilience as we turned the tables and started to put pressure on them with some great interceptions and some well deserved turn of centre passes. The 3rd quarter ended 10-10 (40-25 overall).

Another switch back to the starting shooters for Posh saw them seal the deal in the last quarter. With some great passages of play they extended their lead although LP Cyclones kept working hard to ensure we got over half to steal a point ending the 4th quarter 15-10

**Final Score: Posha 55 – LP Cyclones 35**

## MATCH REPORT

### Laurel Park Cyclones Vs Nettlebed Stingers

16/02/2019

POM: Lydia Johnston (Nettlebed Stingers)

POM: Sian Brewer (Laurel Park Cyclones)

The first quarter started off even going goal for goal and a lot of stop start with great defence and interceptions from both sides resulting in a low scoring 8 all after the first quarter.

The second quarter saw Stingers switch it up a gear with some great movement from both Stingers shooters and with 2 tall circle defenders making it near impossible for Cyclones to get the ball into their shooting circle finished the second quarter 20-16 to Stingers.

Cyclones would prefer to forget the 3rd quarter even happened. Stingers were on a roll and Cyclones struggled to make any impact against the very tall Stingers ending the 3rd quarter 36-19 to Stingers.

Quarter 4 saw some goals from Cyclones which helped pick our spirits up a little but knew the 17 goal deficit was too much to pull back so fought hard to ensure we gained half for our point. Both sides had some great play but the gap was too far and the end result was Nettlebed Stingers 48 to Cyclones 29

**Final Score: Laurel Park Cyclones 29 - Nettlebed Stingers 48**

## MATCH REPORT

### Laurel Park Cyclones Vs Nettlebed Stingers

20/10/2018

POM: Lydia Johnston (Nettlebed Stingers)

POM: Leanne Clamping (Laurel Park Cyclones)

Both teams started off well and matched each other goal for goal. The sun was glorious but proved tricky down one end of the court and LP CYCLONES managed to turnover a couple of centres and finished the 1st quarter 2 ahead - 12-10

The 2nd quarter saw NETTLEBED STINGERS switch around positions and settle into the quarter with some great intercepts from their GD Lydia Johnston (POM). The switch in circle defence left Leanne Clamping with a slight height advantage allowing her to manipulate and drag out her GK to allow Hannah Scott and Lisa Castle some high balls into Leanne's well created space. NETTLEBED STINGERS brought themselves back into the game ending the 2nd quarter 20-24

LP CYCLONES circle defence started out strong in the 3rd quarter with Kiran Mulvaney and Amelia Tanner making the most of any missed shots but NETTLEBED STINGERS always put up a strong defence and made it hard for LP CYCLONES to move the ball back down to the attack. When it did flow nicely to the LP shooters, both Rachel York and Leanne were sinking the shots. NETTLEBED STINGERS new strategy was double marking the GS, Leanne, although this then left space for the GA, Rachel to pop into the circle and sink her super, long shots. NETTLEBED STINGERS continued to pull away ending the 3rd quarter 30-37

The 4th quarter saw the heat and fatigue set in as both teams dropped in goals scored. Balls were being tipped and intercepted but rarely securing the goal. It felt like we were up and down the court with no goals and basic mistakes being called by the umpires. I think both teams were happy to hear the final whistle!

**Final Score: Laurel Park Cyclones 34 - Nettlebed Stingers 44**

## MATCH REPORT

### Mortimer Gems vs Laurel Park Cyclones

22/09/2018

POM: Rachel Jubb (Mortimer Gems)

POM: Hannah Scott (Laurel Park Cyclones)

The start of the game was a tense affair with both teams fighting hard and keeping the score pretty much even. Rachel Jubb's speedy dodges and accurate shooting helped Mortimer Gems to pull ahead by one goal at the end of the first quarter. The second quarter saw many interceptions from both teams. Mortimer Gems defence fought hard to prevent the impressive long balls into the D. Laurel Park Cyclones applied pressure to force errors in Mortimer Gems centre passes which lead to a 2 goal lead at the end of the second quarter.

The third quarter saw LP Cyclones begin to pull away with as they continued to apply pressure to the mid court and win many interceptions which they speedily converted into a 7 goal lead. Mortimer Gems fought hard and towards the end of the quarter regained structure to add 4 more goals to their tally and lead them into a more successful fourth quarter. However, LP Cyclones quick passes and wide use of the court helped them to keep clocking up the goals and ended the game with a 9 goal difference and win. LP Cyclones WA, Hannah Scott, earned the team's POM for her excellent interceptions and awareness of space and Mortimer Gems GA, Rachel Jubb, was a well-deserved POM for her energetic movements and shooting accuracy.

**Final Score: Mortimer Gems 23 - Laurel Park Cyclones 32**
