### Laurel Park Thunder Vs Business Moves

5/6/2019

POM: Flo Wilson (LP Thunder)

POM: Rebecca Haines (Business Moves)

Thunder took to the court knowing that a draw or win would keep them in Div 1 so nerves were riding high. Business Moves came out of the gates fast with some great passages of play & good turnovers, whereas Thunder struggled to settle into their game & get the ball into the circle. Business Moves took the first quarter 8 goals to Thunder's 3.

Thunder changed it up for the 2nd quarter getting some height in the attacking end & closing down the defence but Business Moves stayed steady & worked really hard to get the ball to circle & convert. Business Moves shooting was really accurate & they worked well as a team to get the ball down the court, extending their lead to 20 goals to Thunder's 9.

With some changes again, Thunder started to settle into their game, with good passages play down the court, great feeds into the circle & good shooting in the attacking end. Thunder defence also increased the pressure on Business Moves attack but the shooting duo were strong with great long shots coming from their GA! The quarter was a draw, meaning that Business Moves had a solid lead with 30 goals to 19.

Last quarter saw great netball from both teams, Business Moves kept movement strong with some incredible feeds down the court. Thunder stepped up their game & played strong & took the final quarter win, albeit it was all a little too late & Business Moves took a very well deserved game win with 36 goals to 28.

Unfortunate for Thunder as this means relegation but a great last game of netball for this season.

Thank you to all players, supporters, umpires & scorers for a great game.

**Final Score: Laurel Park Thunder 28 – Business Moves 36**

## MATCH REPORT

### RG7 Rockets Vs Business Moves

22/05/2019

POM: Rachel Green (Business Moves)

POM: Alex Palmer (RG7 Rockets)

Almost at the end of the season rg7 and business moves took the court on a pleasantly warm evening, perfect for netball.

Business moves started strong with excellent shooting by GS Charlotte not missing a thing to pull away to a 6 goal lead at quarter time.

In the second quarter rg7 settled in with their borrowed GS jane and GA Alex Palmer finding their rhythm, and the defence starting to get more interceptions and had a good quarter to pull the difference back to just 3 goals.

Business moves switched the defence positions for the second half and this change had the right impact. With great play between their GA Rachel green and GS allowing easier feeding with a high accuracy converting the goals. Rg7 were still putting pressure on in defence and also benefiting from accuracy in the circle with their GA making strong runs in, but the goal difference extended to 6 goals in business moves favour.

The last quarter though saw business moves really into their game now, pulling away to win.

**Final Score: RG7 Rockets 29 – Business Moves 41**

## MATCH REPORT

### LP Hurricanes Vs Business Moves

12/12/2018

POM: Jodie Penny (LP Hurricanes)

POM: Rachel Green (Business Moves)

Hurricanes came out the traps with a new line-up of mixed club players on their "Joker" game, happy to not forfeit! The play flowed pretty quickly, with GS, Clamping, holding a good space by the post and calmly netting the goals. Business Moves built the pressure and worked the ball down court quickly but some interceptions from nippy, WD and GD, Brown and McDonough, overturned the play and allowed Hurricanes to get ahead by the first break (7-12 to LP).

Bolden, Haines and POM, Green, were trying out their shooting combos for Moves and gained confidence throughout the next quarter, with great feeds and accurate long-range shots. Hurricanes continued to fight and hold onto their lead, with POM, Penny, covering the entire court with superb interceptions and tips interrupting Moves' play and keep her team ahead (15-17 to LP). The third quarter continued in the same vein with Hurricanes making more of an effort to work Brickley into the D, with Moves now doubling on Clamping. The quarter ended with LP ahead but all to play for for Moves - 18-23 to LP

And play for it they did!! With a new shooting pair again, forcing LP errors, Moves got a few key turnovers to give them the motivation they needed. Hurricanes, frustrated and sometimes rushing their play, tried to hold onto their lead but weren't able to convert some of the chances. Maxwell and McDonough were doing all they could to dance around the Moves shooting duo but they now had their eye in and were netting at all opportunities. Willing the whistle not to go before Hurricanes could bring it back, Penny and Walmsley were doing their best to cover the court and bring the ball back down with excellent support from Brown, but it wasn't enough. Fantastic come back from Moves and a frustrating defeat for Hurricanes, but a solid effort on a "Joker" card.

**Final Score: LP Hurricanes 30 - Business Moves 32**

## MATCH REPORT

### Business Moves Vs CGL

17/09/2018

POM: Jane Rees (CGL)

POM: Rachel Green (Business Moves)

The first quarter was quite low scoring, as both teams made passing errors particularly in the goal third and shooting circles. Both teams' defences were capitalising on the errors, and although CGL got off to a better start, Business Moves improved towards the end of the quarter to go into the first break one goal up, 6-5.

Business Moves had 8 players so swapped in a new WD for the second quarter, whereas CGL had a straight seven although missing a couple of regular players. CGL's Shannon at WD put a lot of pressure on Moves passing into the circle and GK and eventual player of the match, Jane, really started to warm up, intercepting a huge variety of passes from the Moves attack. Moves GK and GD Sallie and Lauren worked hard to limit CGL's opportunities, but CGL pulled away.

In the 3rd and start of 4th quarters, CGL appeared to dominate the game, with more balls getting into their shooting circle and Jane continuing to pick off balls left right and centre. However, Moves' Rachel at GA, in her first game back after having a baby, had a fantastic second half. Her moving, passing and shooting was fast and accurate and Moves pulled level to 18-18 in the last quarter, really getting their hopes up. However CGL made a couple of crucial moves in the last few minutes to pull off the victory by two goals.

**Final Score: Business Moves 20 – CGL 22**
