Track sales and profitability trends by product to make better decisions.

### Cutting-Edge, Integrated Marketing

Push offers when customers are near through geo-fenced beacons.

Sell Smart.

# Groovv POS All-In-One

Your Comprehensive Point of Sale Solution

<b>Accept All Payment Types</b>	Accept EMV chip cards, magstripe cards, and NFC payments like Apple Pay, Samsung Pay and other digital wallets.
<b>Inventory Management</b>	Organize your inventory with three hierarchy levels and modifiers, track sales to know what's selling, and get alerts when items run low.
<b>Powerful Back Office</b>	Manage single and multiple locations, track employee time, view sales history, discover sales trends and identify the most profitable products.
<b>Integrated Marketing</b>	Set up customer loyalty programs, send out special offers and utilize geolocation and beacon-based push notifications when customers are near.
<b>Tipping, Split Billing &amp; Tax Settings</b>	Manage tax settings, as well as requests for split tickets and tipping – crucial for restaurants and service-related businesses.
<b>Select Add-Ons to Complete Your Solution</b>	Restaurants can fire orders to a sturdy kitchen printer, and retailers can add a hand-held barcode scanner to assist with check-out.
<b>Get Started with Tailored Setup &amp; Support</b>	Groov's support team is here to ensure your success. We'll set up your inventory and provide ongoing support to make sure you get the most from your solution.
