# ACTIVITIES

## Gym

**Science Spots** – COSI's traveling science exhibition gives families the opportunity to play, explore, and learn about science together (10:30am to 1:30pm)

**Live Action Minecraft** – Be the Game with Lakewood Public Library's Live Minecraft Adventure

**Duck Tape Create** – Boxes, Duck Tape and Your Imagination

## First Floor

**Minecraft Fan Zone** – Play Minecraft and/or Talk Minecraft with other players. Experience the Game through PC play. Attend a Kids Talk to learn tips and techniques for mastering the game. Watch YouTube experts explore different worlds in the game

**Wii Gaming** – Compete for prizes in Mario Kart Tournaments or Test Your Agility in Wii Games

## Second Floor

**Parent/Child Learn to Code** – Hands on coding labs using popular characters from Minecraft, Star Wars and Frozen introduce coding principles in a fun intuitive way.

**Gaming Rooms** – Games Done Legit provides 2 rooms for hands on gaming. Explore a variety of video game play with a combination of current games like Minecraft and older generation throwback games

**Board Game Room** – Play award winning STEM themed games from Simply Fun. These exclusive games take learning and make it fun. Win Prizes for Playing.

## Third Floor

**LEGO Room** – Snapology shows you how to create your favorite Minecraft block or character using LEGOs

**LEGO Build Room** – Construct one of 12 LEGO Designs or use your creativity to build a one of a kind design.

**Mars Rover Demo** – Lake Ridge Academy will be demonstrating a Mars Rover made with Legos controlled via Bluetooth developed by the students

**Craft Rooms** – Create a souvenir from one of several video game themed craft sessions
