

Lismore MFC MiniNewsletter.

July 2018

So what has been happening?

This is a start to fill a little of the void while Garry has respite from The NEWSLETTER he has produced for quite a while.

**How many can identify
the 1930s era
Trainer aircraft below...
just a diversion testing
iPad**

Tiger? Stampe? Something else?

Actually this is one of Jim Romer's excellent photos of the JM model. Bücker Jungmann... (young man)

Down to what has been happening.

Our AGM was run on Sunday and we have a new President, and a Secretary/ treasurer, plus a new committee.

Jamie Zambelli gave a very good closing speech summarising events and activities past.

New office bearers

New President is Mick Scully

And Secretary/ Treasurer is David Crandon

Committee members: William MacKenzie James Spencer

Nigel Virtue & Robert Hammond

These were some of the issues from the meeting:-

Field grant realised

Due to the all the work done by Phil Crandon, our state body has granted a workable sum for field work to be done. A concrete walkway is high on the favoured list to give more safety when ground is slippery..
Some field filling work is also on the agenda.

Generous donation

Robert Hammond made a very generous donation to our club for ongoing field work.

Purchase of new mower with club to pay off instalments.

Ongoing maintenance

Our grass has a cottonpickin habit of growing and wearing out our mower. Tuff scene, but needs to be kept in mind with incoming and fundraiser monies.

Note: The Bunnings BBQ/sausage sizzle fundraiser is scheduled 16th December 2018

Some flying stuff. Sunday fliers on a fab day 15th July

**E'Glider comp, ready set .
Go!**

Midweek flying models

At our mid week flying day today we went thru ways to add interest to our flying days.. good discussion by a good size crew.

Discussion points, were... additional competition, is it such a good way to go? this received a **thumbs down**, the favoured approach was to have '**theme days**'
A starter could be 'old timer models' 'warbirds' 'tiny models' 'beginners day'....
Really the list is pretty long, suggestions for themes to have would be appreciated,

Normal flying would not be interrupted is the plan!?
Curious what other members wish to do with events?!

Events calendar

No fly day for gun club usually 4th Sunday

Early starter for learning flying

John Ms great grandson flying an XFly ..

Tristan is six, will be seven in October..
Cleverer than his g/grandad! But that's our youngsters nowadays!

So looks like there really is no age limit on anyone wanting to learn to fly!

The flying machines variety with the clever little jelly beans inside them can be tailored to most learners!

We can help and advise if you are interested. John M...
