

CONTRACTOR SERIES

C-SERIES

Designed to take the daily wear and tear professional contractors demand.

WORKS WITH: 3/4 ton and up **MOUNTING SYSTEM:** EZ-Mount Plus **OPERATING SYSTEM:** E-58H

C-Series Plows – high performance contractor plows designed and manufactured to handle whatever nature throws their way.

From the heavy-duty moldboards to massive adjustable springs, C-Series plows take the punishment professionals and contractors demand. Designed for years of service, moldboards are constructed from heavy-gauge steel or high molecular weight polyethylene with vertical ribs to deliver outstanding strength. Available in a wide variety of sizes and lengths, Meyer has the plow to fit your needs exactly.

C-Series plows feature **massive adjustable springs** for the longest service life in the industry.

All moldboards feature the **Dura-Slick™ Paint System** for excellent durability and increased snow rolling action.

C-Series Plows are available as **full-trip** to provide maximum protection for the driver and vehicle.

Moldboards can be constructed from **heavy-gauge steel or high molecular weight polyethylene** and provide outstanding strength.
