

# Meyer®

## Liquid Applicators

*Hitch-mounted boom with stainless steel cover features 5 nozzles with 3 spray patterns*

# Minimal effort. Maximum results.

**Meyer® Anti-Icers**, with unique space saving design, are perfect for pre-treating areas that need to remain open during winter snow storms. When applied prior to the storm, the brine mixture will not allow snow or ice to bond to the pavement. Meyer anti-icers help contractors or municipalities become more efficient when the storm arrives by using less material and manpower to clear the area. And Meyer's space saving design allows users to carry other equipment.

Available in 100, 200, 300 and 400 gallon capacities

### SPACE SAVING TANK DESIGN

The unique tank design fits between the wheel wells of the vehicle and cab allowing you to carry other material or equipment. The hopper is secured with an easy-to-remove tension bar.

### WIRELESS CONTROLS

Control all functions, including engine starting and stopping, from inside or outside of the cab.

### CAN EASILY FIT IN UTILITY VEHICLES

100 gallon unit easily fits in most utility vehicles.

### QUICK REMOVAL SPRAY BAR WITH ADJUSTABLE SPRAY NOZZLES

Hitch mounted spray bar can easily be removed and features 5 hand adjustable spray nozzles for precise material placement.

### ADJUSTABLE SPRAY GUN/ MANUAL HOSE REEL

Features multiple spray nozzles, with extra-long 150 ft. hose, for anti-icing foot traffic areas such as sidewalks and steps.

## Product Features

Performance	
<b>Five adjustable spray nozzles – 3 different patterns</b>	Provides exact material placement
<b>Variable speed pump</b>	Adjusts material flow for minimal waste
<b>Jet tank agitation</b>	Keeps concentrate mixed properly; improves performance
<b>Four season use</b>	Sprays anti-ice, dust control, herbicides and pesticides
Ease of Use	
<b>Electric hose reel with stainless steel guides (optional)</b>	Self winding by pressing one button
<b>Hitch mounted spray bar</b>	Quickly disconnects spray bar from vehicle
<b>Wireless controls</b>	Control all functions inside or outside of the cab
Reliability	
<b>Poly hopper</b>	Space saving design saves space and will not corrode
<b>Lockable lid</b>	Helps prevent theft and material contamination

## Product Specifications

<b>Vehicles</b>	Class 2–5 (200 – 400 gallon units) Utility vehicles (100 gallon unit)
<b>Liquid Capacity</b>	100 – 400 gallons
<b>Lane Coverage</b>	One lane
<b>Hopper</b>	Corrosion resistant polyethylene
<b>Pump Rate</b>	8-20 GPM @ 60 PSI
<b>Engine</b>	6.5 HP Power Pro with electric wireless start
<b>Hose Length</b>	150 ft. standard; 300 ft. optional

Prior to installation, check vehicle owner's guide for vehicle GVW requirements. Never exceed vehicle manufacturer's recommendation.
