## FOR IMMEDIATE RELEASE

ELECTRONICS VALLEY supports the “STEM Education and Entrepreneurship” Group on Facebook

CHICAGO, IL, USA - Jan 16, 2017 - ELECTRONICS VALLEY Inc. announces today the start of

supporting the “STEM Education and Entrepreneurship” Facebook Group, created (by EV officials) with an intent to promote the importance of the STEM (Science, Technology, Engineering, Math) topics, STEM Education and its ultimate correlation with the Entrepreneurship. The group’s webpage is at <https://www.facebook.com/groups/StemEducationEntrepreneurship/>

The group is composed of 900+ members most of whom hold degrees in Science, Engineering, Science Education, Mathematics and in other relevant fields. There is also a great deal of enthusiasts whom engage in talks and discussions within the group.

As a dedicated supporter of STEM, ELECTRONICS VALLEY Inc. (EV) noticed the continuous growth and interest in this Facebook Group and decided to provide the group with any available resources to run their miscellaneous tasks. “When we first created this group, it was just for fun. However, later on, the scope and content have grown richer and the members’ engagement in the topics have increased considerably. As opposed to the conviction of many people that Facebook platform is not conducive to serious discussions, this group actually is an exception” says Arif ERKOCA, PhD, the Business Development Director of EV and the creator of the group and adds “In our last board meeting, all our board members have reached a consensus to support the STEM Education and Entrepreneurship Facebook Group. This is a great platform to learn and share topics about STEM topics and business world.”

### **ABOUT ELECTRONICS VALLEY Inc.**
