

*NAASF Ski Week  
January 15-20, 2017*

**Steamboat**

# Welcome Back NAASF

## Steamboat, Ski Town, U.S.A.®

### January 15-20, 2017

It seems like just yesterday the first skis were strapped on, the principal trails were laid out and the ski area first took shape. Today, we celebrate the amazing spirit and vision that created Steamboat Ski Area more than 50 years ago and all that has evolved over that time. From the first chairlift to the first lesson to the first nonstop flight, Steamboat has worked to continuously improve the guest experience.

Steamboat continues to make improvements on the mountain to make your experience even better. This winter, we've replaced the old Elkhead lift with a detachable, high-speed quad. The new lift will reduce ride time by more than half and substantially improve the guest experience in the popular Sunshine and Priest Creek areas of the mountain, especially at lunchtime and end-of-day egress.

Plus, getting here is easier than ever with nonstop service from 12 cities across the country, including a new nonstop flight from San Diego, expanded air service from Chicago, Dallas, Newark, Seattle and Washington-Dulles, and convenient connections from more than 300 cities worldwide.

The home of Champagne Powder® snow offers incredible skiing and riding spread over nearly 3,000 acres of terrain on 165 trails with 18 chairlifts. It's a winter wonderland, and we invite you to come play!

**Ground Transportation\***

**Go Alpine - 800.343.7433 or goalpine.com**
