

FRANKENSTENS LABORATORY

NEW FORMAT LAUNCH - SEPTEMBER '16 - 2 SITTINGS PER NIGHT!

WHAT YOU NEED TO KNOW & WHY!

Due to Frankensteins large popularity among families with young children, Frankensteins Laboratory is now splitting each night into 2 sessions - an early session for families with young children, and a 15+ session (with pre-drinks in our new bar) for Adults. Set to Launch in September 2016, Frankensteins hopes to continue to entertain and provide an amazing and creepy experience for young and old, and reduce the booking and wait time by providing 2 sessions per night as opposed to our current 1 session per night!

Frankensteins has a 30 minute hold policy on bookings, should you arrive for your booking over 30 minutes late, you may forfeit your table to another guest - so please arrive on time for your booking! If you are running late - please call the restaurant on 0361 731 622 to inform us of your expected arrival time.

Table Placement. We do our best at Frankensteins to accomodate all of our guests requests, including table placements. Please note however, out of fairness to other guests, we allocate all of our tables based on the date of your booking, so, advance bookings (previous to your own) will always take priority for the best tables. All of our shows are very interactive and you can see the stage from all tables in the venue.

Birthdays at the Lab. We love to celebrate birthdays at the Lab! And we always spoil our birthday guests! We get many requests for cakes at the Lab, this is not however a service we provide. We do have 2 preferred suppliers in Bali that produce amazing cakes and both deliver to the restaurant on a daily basis! Both services can customise and tailor a cake to suit your needs, both have online ordering and payment systems. If you require a cake for your birthday party, please feel free to contact either of these 2 suppliers:
