MassHealth Coverage for ABA Therapy Update July, 2015

MassHealth is working with its managed care plans to add ABA coverage and anticipates that this will be in place by October 2015. In the meantime, they are making ABA services available now to children under age 21 through a special process of MassHealth prior authorization.

Eligible MassHealth members who do not have access to ABA through an Employer Sponsored plan or a Qualified Health Plan and that are seeking coverage for ABA should have their **ABA provider** contact MassHealth at 617-847-3786 to request prior authorization for ABA. Note – this number is for providers only – members should contact MassHealth customer service at 1-800-841-2900 for assistance.

The Autism Insurance Resource Center maintains a [list of ABA providers](#) which can be used to locate a provider. However, please note that most of these providers are not currently contracted with MassHealth and will need to enroll before getting authorization to provide ABA. MassHealth has informed us that they are currently reviewing applications from several providers, and expect to be issuing the first set of approvals shortly.

Co-Pays - For members that have access to ABA through an Employer Sponsored plan or a Qualified Health Plan, MassHealth will begin covering copays for ABA services through the Mass Behavioral Health Partnership (MBHP). Providers should call MBHP for authorization – they do not have to go through MassHealth credentialing to be paid for cost sharing. Members can call customer service at 1-800-495-8806 for additional assistance.

As more information becomes available we will be posting updates, distributing information, and providing support.

If you have any specific questions or need further assistance, please email us at info@disabilityinfo.org or contact us at 1-800-642-0249, or 774-455-4056

The Autism Insurance Resource Center is a division of INDEX/UMass Medical School Shriver Center. Partial funding for the Center is provided through grants from the Massachusetts Developmental Disabilities Council (MDDC), Massachusetts Department of Developmental Services (DDS), Massachusetts Department of Public Health (DPH), and the Massachusetts Department of Elementary and Secondary Education (DESE). The Nancy Lurie Marks Family Foundation, and the Doug Flutie Jr. Foundation for Autism. INDEX is a state-wide information and referral service for people with disabilities. Online access to comprehensive resources is available at www.disabilityinfo.org.
