

### **Khammanh Sengthoumy - Lone Buffalo Director**

My full-time job is a teacher of English at Khang Khay Teacher Training College, helping to develop the English teachers of the future for our province.

I am also a director and teacher at Lone Buffalo English Development Centre. I got involved in Lone Buffalo because I want to assist Lao young people to learn English in a successful way. It also provides opportunities to practice and improve my own English with native speakers. I work with all the teachers and staff, assisting with the running of our centre and helping us develop Lone Buffalo into one of the best English centres in Laos.
