

Adding a **SUPER SOAKER PAD** to all prepacked trays, punnets, vacuum bags and shrink bags will ensure that you deliver the best possible product to the Customers.

Why Choose **SUPER SOAKER PADS**?

- The Super Soaker Pad soaker pads offer extraordinary performance.
- The super absorbent polymer crystals together with the absorbent backing material quickly absorb any excess moisture.
- These pads have proved to retain all the moisture they absorb - even when much greater pressure than would be applied in normal use is applied.
- Only absorb excess moisture exuded; they will not dry out the product itself
- Very high absorbent capacity
- These soaker pads offer a very rapid absorption rate
- Available in any colour to suit your product and packaging
- Any size available
- Any absorption available
- Manufactured to your specification
- Packed in quality cartons for easy identification
- 100% Suitable for contact with foodstuff

**Absorb excess
moisture - enhance
your product quality!**

The removal of excess moisture improves the presentation of your fresh product to consumers.
