

Due to the construction on the street on the north side of the theatre (marked Phase 1), the north side parking lot will not be accessible.

Please review the attached map for available parking, please plan to come early to avoid any stress.

There is plenty of parking but the later you arrive, the further the parking so please plan accordingly.

Please reserve the parking directly in front of the theatre for Handicap or those that are not able to walk long distances.

You can drop off your party at the front and then the driver can park.
