

IS THE MEDICINE YOU TAKE AND THE DOSES RIGHT FOR YOU? FIND OUT WITH A **GENETICS TEST**

ACCORDING TO THE CDC

cdc.gov 12/2016

82% of American adults take at least 1 medication

29% of American adults take 5 or more medications

Adverse drug reactions lead to over 700,000 ER visits each year

Approximately \$3.5 billion extra is spent on adverse drug reactions

Each individual is Unique, so their treatment plans should be too. Drugs do not work the same for everybody.

Rxight™

The most comprehensive pharmacogenetic program

This lab test helps:

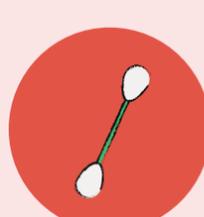

Choose medication & doses that will work best

Avoid ineffective or potentially dangerous drug reactions

VISIT SOLUTIONS PHARMACY TO SCHEDULE THE QUICK AND EASY TEST

Solutions PHarmacy will perform a simple cheek swab test

It will take 5-7 days for lab results

A pharmacist trained in pharmacogenetics will review the results with you

Solutions Pharmacy will work with you & your doctors to coordinate care
