Why Live Free is Different

- Our products are a responsive as well as a preventative solution to bedbug infestations.
- We offer a safe pesticide alternative and all of our products are toxin free.
- All products are EPA exempt and GRAS certified.
- Products are designed to work together to provide an integrated pest management system.
- Products can be easily installed within 2-3 hours.
- Once you install our products, they are in place 24/7/365.
- Our encasement comes with activator powder that introduces the needed killing agent.
