Martex[®] Pool Towels

brighten your guests' stay

Martex[®] Pool Towels are a perfect accessory for poolside lounging, beach trips, and spa sessions. Plied loop yarns on the front and back of each towel provide superior plushness and enhanced surface absorbency. Locked-stitched, bar-tacked hems help to improve the longevity of each pool towel product. Martex[®] Pool Towels are constructed in our own plants to insure the highest and most consistent quality standards. Made with 100% cotton and available in a wide array of colors and stripes, these towels are sure to brighten your guests' stay.

Martex® Pool Towels

Staybright® is an exclusive technology that maintains the brilliant colors in our select sheets, towels, and pool towels. The process bonds the color to the fiber to stand up against repeated washings, pool chlorine, and sun exposure. Staybright® products can even be washed using chlorine bleach. This unique technology keeps the product looking new, extends the product life, reduces replacement costs, and ultimately saves money.
