

Ben Gamlian Rhapsody

Is this the real writes?

Is this another drill?

Stuck in the classroom

No escaping this time to fill

Open the seal

find out what the words reveal

I'm just a student, I need no sympathy

Because a detail here, detail there

Elaborate within each square

Anything the prompt asks, doesn't really matter to me, to me

Ben Gamla, just made a plan

Put my thoughts onto the sheet

Now my 4-square is complete

Ben Gamla, drafting's just begun

But I've strategized it all to go my way

Ben Gamla, ooh ooh

Do I need to clarify?

If I'm not focusing this time tomorrow

Carry on, carry on,

'Cause this score really matters

Buddy, you're afraid, you're in 4th grade

Playin' with your words, gonna be a real pro someday

You got energy to spare; we know you care

Still a lot more you have to prepare, singin'

We will, we will write it

We will, we will write it

Buddy, you're in grade five, stay alive

Put it on the page, gonna publish your words someday

You got lessons to face, mistakes to erase

Leaking your thoughts all over the place, singin'

We will, we will write it, write it

We will, we will write it, write it

6th Grade's got the best edge: knowledge

Working with the clock, gonna earn us great scores today

We've got steps memorized, we're organized:

Our essays better planned out, drafted, revised

Singin'

We will, we will write it, write it

We will, we will write it, write it
