

## BASKETBALL

We are very excited about our upcoming season! We have an incredible coaching staff that is anxious to start working with players of various ages. We have programs for players trying to improve their game to make a better school team and those trying to earn a college scholarship. We have a proven record of developing players of all skill levels for over 14 years!

The goal of each team is for the athletes to experience basketball at a highly competitive level, to help inspire a love for the game, and to instill in each athlete the appreciation for good sportsmanship. Each team will be encouraged to have fun in a demanding environment. Magic athletes work hard and play hard!

Practices are held at Grisham Middle School or Cedar Valley Middle School in RRISD. The times range from starting at 5:30pm to starting at 7:30pm depending on what works best for coaches, players, and parents. Practices never end later than 9pm. Practice schedules are not set until after the parent meeting, because we try to make the times work for everyone when possible. Local teams get 2 one and a half hour practices per week, while regional teams get 2 two hours practices per week. Local teams play in 6 tournaments, while regional teams play in 9 tournaments during the spring season. Tentative tournament schedules are given out at the parent meeting on Feb. 21<sup>st</sup> at Grisham.
