Relay, WBH, Habitat for Humanity and more!

Jas, our community service chair outdid herself by planning various service events this semester. She and her committee helped organize volunteer events such as Relay, Room to Grow, Daily Table, and more! Community Service is another one of Theta Tau's three pillars; it helps us give back to the greater Boston area and help those in need.

All Smiles

Our professional development chair, Nicole, planned a LinkedIn workshop during National Engineers Week (E-Week) to help promote our online presence. Through out the semester, Mohammed and Nick Arnold helped everyone get a professional headshot for their LinkedIns. Alumni also came back during chapters as guest speakers to help brothers navigate through their careers and goals. Towards the end of the semester, Nicole also planned a senior breakfast to applaud all of their achievements and accomplishments.
