Brotherhood

Brotherly love is in the air! We had our second off-campus retreat this semester in the Financial District. The space was fantastic and we all had great time bonding with each other (especially during the roasts sessions). Z also spearheaded a DJ Showcase event on campus, giving local DJ's an opportunity to perform for BU students (go DJZ!!!). Date party this semester was at Patron's in Allston, which was also a blast. We had a great turnout of brother's/dates and busted out some great dance moves. Other brotherhood events this semester include a tour of the Taza Chocolate Factory, Founder's Day fall hike, trip to Jillian's, and Boda Borg (to this day no one knows what made James laugh so much...if you have any idea please contact us).

Rush

This semester Erin and Alex decided to put an emphasis on our three pillars for rush, with events catered towards brotherhood, community service, and professional development. We also had a blast at the engineering Block Party this semester, which was outside this time around and before SPLASH, giving us the opportunity to start recruiting early. Some of the new events this semester that we tried out included letter writing for patients at Boston's Children's Hospital, Bubble Soccer, and a PD Showcase. We had a great turnout and met a lot of fantastic potential new members. And as usual, Sunset Night was lit!

Community Service

CS did a great job this semester reaching out to the Boston community, and getting our chapter involved with a great group of organizations. Some highlights this semester include events with ACS Making Strides Against Breast Cancer Walk, Green Team at Fenway, the WGBH Food and Wine Festival, Walk to End ALS, Daily Table, and the Greater Boston Food Bank. These events are important in giving back however we can and we are privileged that we can do such things through Theta Tau. Thank you Bonnie and the CS committee for working with these organizations.

Professional Development

This semester PD carried out a lot of new and great ideas. Nicole did a great time planning a networking event with Alpha Chi Sigma, the chemistry fraternity on campus. PD, in conjunction with our beautiful pledge parents, also started Career Fair Buddies for our Etas where we matched our new members with brothers to help them out at the career fair. In addition, we were able to visit PTC, the company that makes CREO, and learn a lot about the IoT industry with the help of Sam. PD this semester also brought back PD Allstars, giving us the chance to learn about all the great things brothers are doing in their professional lives. And shoutout to PD for always sending out information for internships, research positions, and other opportunities.

Welcome Etas!!!

The Etas have been a wonderful addition, adding charisma and new ideas to the chapter. This year's class is a record size of 20, increasing the size of our chapter by almost 50%. Shoutout to Fay and Dylan for being great pledge parents and mentoring them throughout the new member education process. The Big/Little reveal was exciting, with the Etas embarking on a scavenger hunt across campus to find their Bigs. Make sure to check out the website to catch the newest additions to the families. The Etas also planned their own fundraising event, selling bags of candy in the GSU. We can't wait to see the other great things the Etas are going to do during their time here.

Fundraising

Fundraising this semester was a success under Kim. Some of the fundraising events that were held include Blaze, Ottos, Chipotle, GSU Bake Sale, and the Etas' candy sale at the GSU. We had a great time working together at these events and were also able to use these events as effective PR events (and raise hella \$\$\$\$). Congratulations guys!!

Academic

Joyce implemented a lot new things this semester to help improve academics, such as increasing access to academic sources, tips on finding great sites for coursework, and making finals goody bags. Thank you for being there and helping out during the hell of classes.

New E-Board

Good luck to the newly installed E-Board. We wish you the best during this upcoming year and can't wait to see all the great things that you'll guys do to better the chapter and Theta Tau as a whole!

Regent: Kim Kroupa
