

## Pupil Premium Strategy Impact for 2016-2017

Funding for the financial year was £39,180 (funding for 3 children was transferred to Brancaster in January 2017 when children moved)

***Please note that due to small numbers of Pupil Premium children in some year groups (sometimes just 1 child) we will not publish data in the tables below when it means an individual child may be identifiable. The impact for all individuals is however fully assessed within school based on their starting points and expected progress targets.***
