A picture on a computer or digital device that opens an application, file or website.

Glossary

Apple- a red fruit that grows on a tree

Bear- a furry mammal that hibernates in the winter

Dog- a mammal that barks and has four legs

Egg- a round piece of shell or liquid where a baby reptile, bird or fish can grow inside

Frog- an amphibian that lives in a wet habitat

Glue- a sticky solid that holds paper together

Heading

All About Fish

You can find fish in many different types of water. Fish can live in freshwater or saltwater. Fish can also live in brackish water which is a mix between fresh water and salt water. Fish do not breathe air and they do not have lungs.

Instead of lungs, fish have gills. Fish can be lots of different colors. They can be all colors of the rainbow.

Fish are cold-blooded animals. Their body temperature changes as the temperature of the water changes.

Guide Words

age-apple

Age- how old a living thing is, usually measured in days, weeks, months or years

Alligator: a reptile that has scales and lays eggs.

Ancestor- a person with whom you are related

Ant- a small insect

Apple- a red fruit that grows on a tree

Label

Text Box

Solid, Liquid, Gases

There are three types of matter.

Solids have a definite shape.

Liquids flow and take the shape of their container. Gases also take the place of their container. You can change solids, liquids and gases by raising or lowering their temperature.
