

DIRECT  
ERGONOMICS

*Furniture for a better working environment*

## | DIRECT ERGONOMICS |

---

[www.directergo.com.au](http://www.directergo.com.au)

Direct Ergonomics manufacture and supply quality commercial furniture for a better working environment. We have been in business since 1986 and work closely with State and Federal Departments (on Standing offer contracts), Builders, Designers and Corporations to supply quality commercial furniture as a one-off or entire fitout. We work closely with our clients to ensure our furniture is fit for purpose, functional and durable.

Our team includes highly skilled support staff including:

Space Planning / Architect  
Project Managers  
Sales Executives  
Account Personnel  
Cadet

## | COMMITMENT TO AUSTRALIAN MADE |

---

The majority of our furniture is made in Australia in our factory at Smithfield.

We produce workstations, tables, laminate storage, desking, workstations screens and partitions, chairs and soft seating.

We work with other local and overseas factories to ensure we can offer a one-stop shop for your office furniture requirements.

## | SUSTAINABILITY |

Our commitment to the environment is important to us. We use the latest in green technology to deliver your furniture with the least impact to the environment. We have achieved GECA certification on approximately 80% of our entire product range which shows how serious we are about our Green commitment. We were one of the first in our industry to move over to water based (non toxic glues) and our recycling ability ensures our customers maximum points on the Green Building Council Matrix.

*DE worked with UOW to create Green solutions for every aspect of their fit-out. Plywood tops, steel frames as modular concepts to allow their furniture to change as their requirements change.*

## | CLIENT FEEDBACK |

"Direct Ergonomics have the expertise to deliver a one stop shop and with their team enable us to have one contact for the entire project"

"They deliver time and time again, on time, within budget and to our expectation"

"I can always reach the Director on her mobile phone"

"They are a predictable supplier which is important on projects"

*600 workstation fit-out for Chris O'Brien Lifehouse.  
We were honoured to help fulfil his dream.*

*Desk, beam and screen-based workstations. 25mm, 55mm and 70mm screens with choice of leg styles including sit / stand solutions. You can be as creative as you like.*

## | HEIGHT ADJUSTABLE |

- Manual Winding
- Electric Height Adjustable
- Pneumatic Height Adjustable
- Sit- To- Stand
- Wheelchair Compliant

*Our bodies were not designed to be still for any length of time. We have been helping bodies move for nearly 30 years. Yes, even before it was fashionable to have a height adjustable desk, we have been supplying them to offices throughout Australia.*

*We have various options available: technician adjustable desks, winding height adjustable, electric and the new pneumatic (these adjust up and down without any effort or power). We have the largest range and can offer your workstation a height range of 300mm to over 500 mm. The recommendation for true sit to stand is to adjust from desk height - 700 up to over 1100.*

## | MEETING TABLES |

- Coffee Tables
- Break out Spaces
- Collaborative
- Meeting Rooms
- Executive Board Rooms

## | PROCESS |
