

The Ezone is excellent seating for your entire office. AFRDI tested and approved to Level 6 and GECA certified, the Ezone Task Chair exceeds OHS standards and is available under Government contract.

Our bodies were not designed to sit at the computer all day. We were designed to be moving, so our Ezone chairs are designed to move with you offering adjustments performed individually, from the seated position.

Our Dual Density foam supports the buttocks and lower back and spinal region. Firmer towards the front of the seat and softer towards the back encouraging good posture and reducing slouching. The fully recyclable moulded foam encourages good blood circulation.

GECA Certified to Level B

Any fabric used on these products must be certified by GECA, ECNZ, Nordic Swan or EU Flower.

**Product ID**
