'Welcome to BLACK WATCH TACTICAL'

A security provider with more than 100 years front line experience in Military & Security, that will find you the very best solution for your business.

With the face of security changing and the threat of terrorism from fanatical organisations directed at soft targets in Europe, is your company safe?

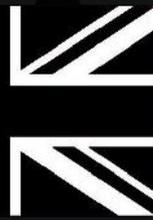

Good management ensures that you are provided with the right type of security personnel of high calibre that deliver the best security solutions for your needs, to establish and develop the most effective, highly flexible responsive unit to cover your risk when you need it the most.

The first impression your Company requires is of a smart well trained security officer that can deal with any situation.

Our security personnel have been trained to protect Government buildings, airports, power stations, fuel refineries, anywhere that you will need a high calibre security protection that can be deployed anywhere across the UK.

We recognise that partnerships are stronger than working alone. Innovation and 'BLACK WATCH TACTICAL' go hand in hand throughout the life of the contract; with the free-flow of ideas making the innovation quicker and more relevant to the unique situation of protecting your assets.

Training from site Instructions and service level agreements (SLAs), ensures that all relevant information is correct and to hand whilst still being secure. This gives a confident and smooth running of the day to day operations. Staff and visitor searches can be a contentious issue; 'BLACK WATCH' carries out this important task in a sensitive yet confident manner.

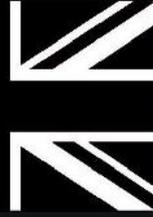

Adopting a flexible approach to every assignment, we find out how your organisation works, get to know your customers, management team, corporate ethos and your business environment. Together, we make sure **we understand what makes your company tick** and develop a bespoke first point of contact .

Our image is tailored for your guests to complement your vision and **enhance your corporate brand.**

Meet The People

Wayne Blance Director

I am the owner and Managing Director of Black Watch Tactical Ltd. With 28 years in the Security industry and in risk management, I have gained a wealth of experience consulting for the corporate sector with major clients like Virgin Group, Dunlop Heywood, King Sturge, GVA Grimley, Knight Frank, AMC Cinemas, Manchester Arndale, Grosvenor Casino, Salford University, AMC Cinemas, Major Events and local authorities to name but a few.

I have implemented the structure and documented the movement of vehicles for one of the largest distribution centres, built in the North West with an annual turnover of £2.4 billion. My strengths are the ability to listen to people and understand what they require, the ability to negotiate, retain contracts, deal with any situation and respond to the client within hours of an Incident. As mentioned, the fact that there has never been an insurance claim made against this company speaks volumes in this industry.

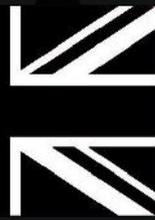

Mark Fishwick Senior Operations Manager

I am a highly motivated and meticulous Security Operations Manager/Contracts Manager with over 22 years experience in the Armed Forces, serving worldwide; a professional individual with proven expert situation management skills, founded upon extensive legal knowledge, proficient communication ability and a highly adaptable 'can do' attitude. I have expert knowledge of Personal Security, particularly Close Protection and Counter Terrorism.

I'm responsible for the day to day running of a large security team and, in particular, the overall security for all Events/ Conferences and Exhibitions held at various venues, working alongside Government Parties, Conference Planning Units, Police and Special Branch in order for Conferences to take place in safe and secure locations. I planned all training activities that took place at these venues in support of a variety of visits and had overall responsibility for controlling Security Operations for visiting VIPs and at Special Events, ensuring that all security staff were trained, capable and cognisant of their duties and responsibilities.

RISK MANAGEMENT

Risk is part of all our lives. As a society, we need to take risks to grow and develop. From energy to infrastructure, supply chains to airport security, hospitals to housing, effectively managed risks help societies achieve. In our fast paced world, the risks we have to manage evolve quickly. We need to make sure we manage risks so that we minimise their threats and maximise their potential.

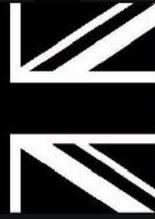

Because risk is inherent in everything we do, the type of roles undertaken by risk professionals are incredibly diverse. They include roles in insurance, business continuity, health and safety, corporate governance, planning and protection of assets

CLOSE PROTECTION

Choosing the right provider is essential in today's world, with the threat of Terrorism or personal attack being on the increase across Europe. Black Watch Tactical works closely with all its clients, offering a full risk and threat assessment to maximize safety.

We are very selective in choosing our Close Protection teams and all our operatives are UK licensed with the Security Industry Authority (SIA). Using operatives who have been trained within specific organisations ensures that our clients receive our very best service.

Our 21 day 'Close Protection' courses are very selective; we take on only the top two candidates to pass our rigorous training course.

Gate House Security

It's the very first access point into many industrial sites, residential areas and business parks which is why it's vital that you keep this area manned with only the best security possible.

This is accomplished by training from site Instructions and Service Level Agreements (SLAs), ensuring that all relevant information is correct and current whilst still being secure. This provides confident and smooth running day to day operations. Staff and visitor searches can be a contentious issue; Black Watch Tactical Ltd carries out this important task sensitively but confidently and thoroughly.

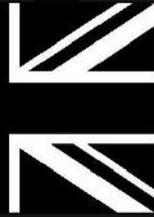

We understand that every client requires a varying degree of following services, amongst many, all of which can be tailored to suit your individual entry point security needs:

- Regular foot and mobile perimeter patrols.
- Thorough reporting of suspicious activity.
- Control and monitoring the movement of vehicles, personnel and visitors to your site.
- Carrying out vehicle and personnel searches.

RETAIL

All our plain clothes and uniformed officers are fully trained prior to their appointment to your store. We also provide fully trained Store Detectives and train your staff in loss protection. Regarding checking tags and receipts for customers; we can send a supervisor in plain clothes for test purchases upon request, even while your regular officer is working.

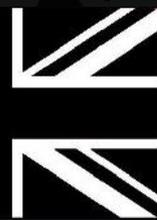

We believe in a close partnership with our clients' Management within the retail unit and also that of the Head Office and Field Management. Enforcement of Company Search Policies sometimes gets forgotten but you can entrust this duty to our security team and have the reassurance that all procedures will be carried out as outlined with no members of staff being missed. This can also include Management.

BLACK WATCH TACTICAL Ltd provides teams of security personnel trained in Customer Care to enhance your customers' shopping centre experience.

Our clients can feel secure, knowing that our personnel act as great ambassadors for the asset managers and owners. It is not only good customer care that shopping centres need, it is the whole retail experience, which is why Black Watch Tactical looks at the outside of the shopping centre too and creates strong partnerships with both the local Police and Business Organisations.

EVENTS

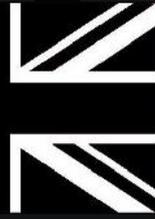

We have a wealth of experience providing security and stewarding for exhibitions, concerts, sporting events, product launches, private parties and temporary commercial or leisure work places. We do not just provide 'guards on gates'; we have a clear understanding that our Security Officers must be smart, articulate and fully briefed to handle any incidents or situations that may arise. Black Watch is also aware that we would be acting as ambassadors for your event, venue or company.

Event organisers can have full confidence with Black Watch Tactical on site, secure in the knowledge that we do more than just manage security. As an organiser of an event you want to ensure that all paying or invited guests are kept safe and that the event is free from gatecrashers.

With High Visibility event shirts and jackets along with radio communications, potential breaches and incidents can be passed over to our Response Teams with the correct authority to deal with the situation. Our Response Team is a hand-picked team of our most highly trained staff. They are always ready to respond to any situation safely and effectively, without causing a fuss to other guests. Once a situation has been contained it is then passed to the relevant Emergency Services where appropriate.

TRAFFIC MANAGEMENT

All of our operatives are fully trained in accordance with The Highway Agency Sector Schemes 12/A/B/D and all work is carried out in accordance with the requirements contained in the New Roads and Street works Act (NRSWA), and Chapter 8 of the Traffic Signs Manual.

Event organisers can have full confidence with Black Watch Tactical on site secure in the knowledge we do more than just manage security. As an organiser of an event you want to ensure that all paying or invited guests are kept safe and that the event is free from gatecrashers.

CLEANING

Black Watch Tactical is a market leader for the provision of cleaning services in the North of England. With over 20 years' experience in supplying cleaning services to Utility, Construction, Commercial and Industrial companies, Black Watch Tactical delivers appropriate site solutions that satisfy clients' requirements in their particular environment.

Taking into consideration the agreed specification and delivering the solution on time, at the agreed cost, first time, we provide a tailored solution from initial assessment to final delivery. Technology helps enhance the performance of our personnel so making the working environment safer and more monitored for our client sites. Man and machine work well together with the right training but never replacing the human element due to customer needs that a machine cannot bring.

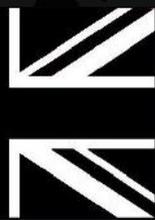

Through innovative solutions we are able to give our customers a competitive edge in promoting a **best value, best practice philosophy** as we continue to monitor competitors' products, prices and services to underpin the higher levels of trust that our clients put in us to meet their service expectations.

We have a full cleaning brochure on request.

CLIENTS

Cousins Furniture Store had eight alarm activations, two of which were on Christmas Day. We sat down with the client and tailored a new contract of one mobile patrol with unlimited alarm response to their premises as well as free security cover.

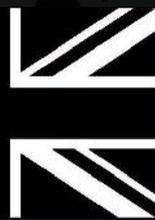

We have a duty to our clients and when we received a call from the monitoring station that a customer had left their vehicle on the car park and the gates were now locked, we responded within fifteen minutes of receiving the call and once we had established the owner of the vehicle, he was on his way.

'Cousins' says: "I would recommend BLACK WATCH TACTICAL for their professional service in handling our two contracts in the North West. We have had several alarm activations at both sites and with unlimited response to our premises it is an unbelievable saving."
