## 'Welcome to BLACK WATCH TACTICAL'

A security provider with more than 100 years front line experience in Military, Security & Risk Management that will find you the very best solution for your business.

With the face of security changing and the threat of terrorism from fanatical organisations directed at soft targets in the United Kingdom is your company safe?

Good management ensures that you are provided with the right type of security personnel of high 'calibre' that deliver the best security solutions for your needs, to establish and develop the most effective, highly flexible responsive unit to cover your risk on the ground & in the air when you need it the most.

The first impression your Company requires is of a smart well trained **Crime Prevention Tactical Officer (CPTO)** that can deal with any situation.

Our security personnel have been trained to protect Government buildings, airports, power stations, fuel refineries, anywhere that you will need a high 'calibre' security protection that can be deployed anywhere across the UK.

You can now inquire about Black Watch Tactical **UAVs** new brochure.

## RISK MANAGEMENT

Risk is part of all our lives. As a society, we need to take risks to grow and develop. From energy to infrastructure, supply chains to airport security, hospitals to housing, effectively managed risks help societies achieve. In our fast paced world, the risks we have to manage evolve quickly. We need to make sure we manage risks so that we minimise their threats and maximise their potential.

Because risk is inherent in everything we do, the type of roles undertaken by risk professionals are incredibly diverse. They include roles in insurance, business continuity, health and safety, corporate governance, planning and protection of **assets**

Black Watch Tactical has designed an all inclusive package for the Commercial Sector to help support Managing Agents and businesses in the North West by incorporating CCTV for FREE .

You can now view you're premises or your clients premises 24/7, conduct a controlled site visit or read a simple meter from your home or office, saving an average of three hours per day, travelling to and from Managing your site.

## CODE OF PRACTICE

**BS 7984** gives recommendations for the management, staffing and operation of an organization providing Key Holding and Response Services on a contracted basis. It also provides best practice for Security companies and the principles of Key Holding.

Specific recommendations are given on the organization and its documentation, including structure, finances, insurance, premises, sale of services, and drafting of contracts.

Organizations should possess a clearly defined Management structure showing control and accountability at each level of operation.

This British Standard gives recommendations for the management, staffing and operation of an organization providing Security Guarding Services on a static site and/or mobile patrol basis.

**BS 7499** explains the normative references as well as the terms and conditions relating to Security Services. It takes an in-depth look at the organization and its resources to ensure the right safety measures are put in place. Other topics include best practice services and the [training](#) of security personnel
