Welcome to Black Watch Tactical; an SIA approved with the Approved Contractors Scheme, which achieved its ISO 9001:2015. We comply with BS7499, BS7984, and, BS7858 and we are registered with the Data Protection Agency ICO and check an applicant's right to work through The Home Office. All of our Operational Teams have completed training courses in Risk Assessment and critical planning.

### [Key Holding Alarm Response](#)

The majority of businesses now have premises that are protected by audible alarms and remote CCTV systems linked to a 24 hr monitored station. On activation of an alarm or the detection by CCTV of an intruder, an alarm response is usually sent to a designated person from your business for them to go to investigate the source of the activation.

This action is a risk to the employee or the business person that responds as the incident could be fire/theft or some other high risk event. Sending out an employee to an alarm activation could also cause loss of productivity within the company as that person could turn up to work later that day extremely tired or not turn up at all!

We offer an alarm response service where you, the client, would direct the call from the monitoring station to our dedicated 24/7 manned phone line. We would then deploy our highly trained CPTO to investigate the source of the activation and if intruders are found on the site they will be dealt with accordingly or contained until the arrival of the Police. A fully qualified dog response unit is always on back up should it be needed at any time.

## Key Holding and Mobile Patrols Response.

Our Key Holding and Response Service protects your staff from unnecessary risk and your business from unnecessary costs and inconvenience (*Corporate Manslaughter and Corporate Homicide Act 2007 & Health and Safety at Work Act 1974* in relation to the *Duty of Care of Lone Working*).

We operate a fully insured Key Holding and Mobile Response Service for commercial and domestic customers and in accordance with BS7984 (Key Holding & Response Code of Practice).

In essence, Key Holding is the responsibility to hold keys for a predetermined property or portfolio of properties for the purpose of being able to respond and attend either to an emergency alarm or even make a pre-planned visit.

We employ **local people with local knowledge** and all our mobile response personnel are Security Industry Authority (SIA) licensed, uniformed and trained.

Unfortunately, emergency call outs, due to their nature, can be at any time, without any prior warning, and generally occur at the worst possible time for the Key Holder which generally would be out of normal working hours and, more normally, in the middle of the night.

## Mobile Patrols

Mobile Patrols provide a high visible deterrent protecting clients property day or night. We will provide a full report indicating the time of the patrol and details of any incidents that have takes place.

## 24/7 EMERGENCY RESPONSE

It's a well known fact that 95% of businesses act after the fact that they have had a break in or land invasion which could run into Thousands of pounds in damages.

The first 24 hours of any EMERGENCY is critical to your business and that is my why we would like to introduce BWT 24/7 Emergency Response. Our Crime Protection Tactical Officers (CPTO)'s have been trained to protect Government buildings, airports, power stations, fuel refineries; indeed, anywhere that you would need high calibre security protection that can be deployed anywhere across the UK

## CLIENTS

**Cousins Furniture Store** had eight alarm activations, two of which were on Christmas Day. We sat down with the client and tailored a new contract of one mobile patrol with unlimited alarm response to their premises as well as free security cover.

We have a duty to our clients and, when we received a call from the monitoring station that a customer had left their vehicle on the car park and the gates were now locked, we responded within fifteen minutes of receiving the call and, once we had established the owner of the vehicle, he was on his way.

‘Cousins’ says: “I would recommend BLACK WATCH TACTICAL Ltd for their professional service in handling our two contracts in the North West. We have had several alarm activations at both sites and with unlimited response to our premises it is an unbelievable saving.”

14 Years service to  
Cousins Furniture Store.

## CODE OF PRACTICE

**BS 7984** gives recommendations for the management, staffing and operation of an organization providing Key Holding and Response Services on a contracted basis. It also provides best practice for Security companies and the principles of Key Holding.

Specific recommendations are given on the organization and its documentation, including structure, finances, insurance, premises, sale of services, and drafting of contracts.

Organizations should possess a clearly defined Management structure showing control and accountability at each level of operation.

This British Standard gives recommendations for the management, staffing and operation of an organization providing Security Guarding Services on a static site and/or mobile patrol basis.

**BS 7499** explains the normative references as well as the terms and conditions relating to Security Services. It takes an in-depth look at the organization and its resources to ensure the right safety measures are put in place. Other topics include best practice services and the [training](#) of security personnel.

**Black Watch Tactical sponsors GUIDE DOGS for the blind:**

Hillfields, Burghfield Common, Reading, Berkshire RG7 3YG.

A company limited by guarantee registered in England and Wales (291646)  
and a charity registered in England and Wales (209617) and Scotland (SC038979)
