KALETECH

Technology at work for you

Connecting your business to the technology resources you need

Flexible Solutions for Your Infrastructure Needs

Technology consulting provides a total end to end solution

ABOUT US

Founded in 2009, Kaletech LLC is a full-service professional services engineering firm. Headquartered in Aurora, Kaletech's team of engineers offers a variety of civil, construction inspection, environmental engineering and information technology services to clients within the public and private sector.

CERTIFICATIONS

- Professional Engineering Design Firm State of Illinois
- Disadvantaged Business Enterprise (DBE) with IL Department of Transportation, (IDOT), Chicago Transportation Authority(CTA), METRA, and PACE.
- Minority Business Enterprise (MBE) with City of Chicago and Metropolitan Water Reclamation District of Greater Chicago (MWRDGC), Milwaukee Metropolitan Sewerage District

CONSTRUCTION INSPECTION

We provide construction inspection, project finalization and documentation, including PCC & bituminous concrete paving operations, drainage, patching, bridge structures, bridge painting and provide general assistance as a member of a field crew.

WATER & WASTEWATER ENGINEERING

We work in the evolving field of wastewater engineering adapting to the new view of a wastewater as a source of energy, nutrients and potable water; more stringent discharge requirements related to nitrogen and phosphorus.

BUILDING INFORMATION MODELLING

We provide engineering support services for BIM modelling. By stocking a virtual, three-dimensional visual model of a building with exhaustive information about every construction component involved, BIM is changing the entire industry. MicroStation V8, AutoCAD Civil 3D 2016, Revit as well as Navisworks software is used by our team.

KEY SERVICES

✔ Construction Inspection/ Management

✔ Water/Wastewater Engineering

✔ Building Information Modeling (BIM)

✔ Construction Engineering

✔ Transportation Engineering

✔ Airport Engineering

TECHNICAL RESOURCING

Our expertise includes Staffing/Recruiting in the areas of Construction Engineering, Environmental Inspection. We have professional engineers who work with you as per your project requirements.

CONSTRUCTION MANAGEMENT

Project Supervision, Communication with PM, Cost and Value Management. Tracking Project Schedule, Construction Safety Supervision, Post-Construction Submission of all documents to client, Response to Queries Final walkthrough with the clients, As-built drawings preparation information.

FACILITY CONDITION ASSESSMENT

The goal of the FCA is to identify remaining life of all major building systems. Capital replacement needs, Overall system compliance with original design engineering intent and Prioritized list of repairs
