

CHEMICAL & BIOLOGICAL TERRORISM

AN INTRODUCTORY SESSION FOR PUBLIC SAFETY PROFESSIONALS

This free program is sponsored by
New York Rescue Response Team (NYRRT),
in collaboration with
The Bridge Multicultural Project

What is this About?

This 90-minute program will include a lively and up-to-date discussion on what exactly is Chemical and Biological terrorism. The event will cover what CBRN agents are, a look at the pathophysiology of the agents, the basics of initial treatment, and what the REAL threats are.

Who Should Attend

This class is open to all NY/NJ Public Safety personnel and those interested in the subject matter. Attendees will receive a certificate for their attendance.

Date / Location

Wednesday July 25, 2018
7pm sharp at 'The Bridge'
1894 Flatbush Avenue

Street parking is plentiful, and refreshments will be available.

ABOUT THE FACILITATOR...

Shelomo Alfassa is a full-time Emergency Management planner in NYC. He is certified as an EMT, PHTLS, and as an Occupational Health & Safety Specialist; he also has a certificate in Microbiology and Forensic Science. He has 25+ years public safety experience and was a Deputy Commander of a US Public Health Service/FEMA national CBRN response team. Mr. Alfassa has a BA in Homeland Security from APUS and is currently completing his MPA with a concentration in Emergency & Disaster Management. He's a vetted member of the US Department of Homeland Security's Public Health Emergency Preparedness and Response Group.
