

## Interested in shipping more boxes, in less time, for less cost?

**Output Management Group** has partnered with **Pinnpoint™** to provide our customers with the latest innovation in label manufacturing. Developed in partnership with Lexmark, Pinnpoint's Print & Ship offering is the industry's first fully integrated solution for combining the shipping label and packing slip into a single duplex printed document.

This innovative solution is a simple and effective way for 3PLs, Retail enterprises, and growing e-commerce companies to ship more boxes, in less time, with less errors by eliminating the need to marry-up separate packing slips & shipping labels for each box.

More than just a label & packing slip, Pinnpoint's Print & Ship solution offers the ability to include QR codes for generating return labels, in addition to personalized marketing messages designed to drive repeat purchases & increased customer loyalty.

We are equipped to integrate their Print & Ship solution into any ERP or WMS environment without requiring any system or application changes.

### What Print & Ship will do for you:

- Empower you to ship more boxes, in less time, with less errors
- Less printer hardware to purchase, power and maintain
- Fewer consumables to purchase, store and reorder
- The right packing slip on the right box – 100% of shipments
- Ability to include promotional messaging for driving repeat purchases
- Implementation is simple – The Pinnpoint Integration Module integrates your existing Packing Slip & Shipping Label data.
- Cloud based SW is available to help you shop your parcel shipping & LTL rates in real time
