Candidate Selection Process

STEP 1

Contact 10,000+ talents

Target more than 10,000 middle/senior level data scientists and machine learning engineers who are seeking jobs.

STEP 2

Receive 1,000+ resumes

Receive the resumes of 1,000+ qualified candidates.

STEP 3

Select top 800 resumes

Use a comprehensive scoring algorithm to score and filter out the best 800 candidates.

STEP 4

Invite top 500 candidates

Hand picks the best 500 out of 800 candidates to attend the job fair/networking event.
