# SCOTT RIVER

*Charity Ball*

*Est. 1991*

Honouring

**OPENTHEGATE**

# Welcome

to the 9th Scott River Charity Ball.

Since the early 1990's this community has successfully raised a total of \$180'000 which has been donated to many large and small charities locally and across Australia.

Despite the ball being born from a serious accident requiring the services of the Royal Flying Doctors, it is also an amazing achievement for this community to create such a positive, exciting, and worthy event. This has now become an iconic date in the calendar for everyone here. The continuation of the Scott River Charity Ball proves that this community is passionate, enthusiastic, empathetic and proactive in preserving the wellbeing of people whether it be local or further afield.

This community will always require the services of the Royal Flying Doctor Service of Australia and we are proud, to once again, support them with funds raised at tonight's Ball. The RFDS directly service all the regional areas in our State and are an integral part of our safety and welfare.

Mental Health is also paramount to the wellbeing of our community. After much research into which service or community group to support from funds raised at the Ball, we decided to launch and implement our very own Mental Health Awareness and Suicide Prevention Program. This would specifically support the residents of the Scott River, Augusta, Karridale and Nannup catchments on how and where they can locate assistance in mental health. This program is called "Open the Gate".

This year we are honoured to be dancing in the place where international and renowned circus acts have taken to the stage and performed dazzling displays of art, comedy and contortion! Thank you to Matt Yates (Fatso) and Louise Moss, producers of the Lunar Circus, for allowing us to share this unique and spectacular venue in Karridale. Thanks to the band Lush we will be dancing the night away to some awesome toe tapping tunes along with Laundry 43 who will be feeding us with some gourmet delights.

So, we ask you to dig deep, again, for the 2019 Scott River Charity Ball! We have an amazing array of live and silent auction items up for grabs to suit all budgets plus a raffle prize worthy of a king. We would like to thank our major sponsors Optima, Augusta Bendigo Bank, Elders, Western Meat Packers, CSBP and Shire of Augusta Margaret River for their generous support plus all the businesses who have sponsored or donated to the ball. We look forward to supporting all of you in the future with our business. Finally, we would like to thank the volunteers and the Lions Club of Leeuwin for the many hundreds of hours spent planning the ball to which we can attribute its outstanding success over the past 25 years. Congratulations on another successful ball and thank you!

**Miriam Avery**  
Chair Person  
Scott River Charity Ball Committee.

## Open The Gate to conversation...

The Scott River Charity Ball Committee are thrilled and proud to announce the launch of a mental health awareness and suicide prevention program which will directly support and educate the people in the catchments of Scott River, Augusta, Karridale and Nannup.

**OPENTHEGATE**

Open The Gate is a true grass roots project reaching out to support its people by giving them the tools to respond positively to mental health.

With your generous support and funds raised at the Scott River Charity Ball we will be able to implement Open The Gate into our region by hosting the following presentations:

### **Mental Health Awareness Community Presentations**

Presented by Laurissa Knowles CMC B.A (Psych.Theol.), Dip.Ed, P.M.A.C.A. 4838, M.C.A.WA A6237, WACOT.

Laurissa will be promoting the use of mental health, counselling, alcohol and other drugs services, and reducing stigma and discrimination against people using these services. The presentation will also include information on where people can find support locally and will be followed with an informal social time with morning or afternoon tea served. Venues to be confirmed but will be located in Augusta, Karridale, Scott River and Nannup.

### **SafeTALK Training**

safeTALK is a half-day alertness workshop that prepares anyone over the age of 15, regardless of prior experience or training, to become a suicide-alert helper. Most people with thoughts of suicide don't truly want to die, but are struggling with the pain in their lives. Through their words and actions, they invite help to stay alive. safeTALK-trained helpers can recognize these invitations and take action by connecting them with life-saving intervention resources. Venues to be confirmed but will be located in Augusta, Karridale, Scott River and Nannup.

Open The Gate is an exciting initiative for our region. The vision and intention are authentic. By being a community driven project together we can make a difference. Together we can Open The Gate to conversation.

**RFDS** provide extensive life-saving aero medical evacuations and transfers and offer a range of primary health care services to those who live, work and travel across Western Australia.

In WA alone, the Royal Flying Doctor Service supports over 2.5 million square kilometres, with five operating facilities located at Broome, Kalgoorlie, Jandakot, Meekatharra and Port Hedland.

With the support and confidence of the Australian community behind RFDS, they hope to continue to grow and expand their services to meet the future challenges and health care needs of country Australians.

# Major Sponsor

Optima Agriculture is a proudly owned West Australian company working in your local community. We are pleased to have partnered up with the Scott River Charity Ball Committee as a major sponsor for the 2019 ball.

For over 45 years Optima together with its industry partners have been researching and developing lime products for the WA agricultural and environmental remediation markets. We are committed to improving and developing effective practices for increased soil health and productivity.

Our commitment behind this partnership is two fold;

- To support local community, charities and volunteer groups in the area; and
- Give recognition to the services provided.

From my own personal near death experience dating back some 23 years ago when I was involved in a tractor farming accident, the local support my family and I received from our regional St John Ambulance and the community at large was overwhelming.

I hold farm safety and the Royal Flying Doctor Service close to my heart, and while this accident led to a career change, my work with Optima has created another chapter in farm life.

Optima, as part of its agricultural industry servicing, has invested in your region through Neil's Lime Pit at Boranup and the Karri Ridge Chalets. Having a resource in the area has allowed us to be supportive of local services and over the past 4 years have built very sound friendships and associations with many in the area.

Neil's Lime Pit at Boranup is a high grade, reactive lime sand resource. This material will be invaluable to continuing the fight against soil acidity in the surrounding catchment areas and throughout the Wheatbelt. By neutralising the acid produced in these areas, nutrient leaching into the water systems in the Margaret River region including the Blackwood River will be reduced and crop health improved.

Optima understands the importance of local support and are proud to be involved with this charitable community event.

We welcome and thank the Committee, all attendees, volunteers and supporters and trust this evening will be a memorable occasion for all.

**Brendan Edwards**  
Optima Agriculture Pty. Ltd.

Whilst all care is taken by Fat Red Bird Designs in producing proofs and final artwork, it is understood that the client assumes and accepts liability for any and all errors not corrected. The Client is responsible for proof reading and identifying any errors or omissions, prior to signing approval. Final artwork is not released to the client or third parties (eg. printers) until final approval of artwork is provided to Fat Red Bird Designs in writing – verbal approvals cannot be accepted and balance of payment received.

Due to variations in computer settings, on-screen colour proofing may differ between monitors and devices, and can differ from the final printed result. The Client acknowledges that on-screen proofing is not an accurate representation of the final printed project and that Fat Red Bird Designs is not responsible for any colour variations that may occur between on-screen proofs and the final printed outcome. Colour accuracy is best determined at the chosen print company, by the production of pre-press calibrated high-resolution proofs. Depending upon the print company, such colour-accurate hard copy proofs may attract an additional cost. Prices are available upon request. The client accepts that Fat Red Bird Designs is not responsible for any print inaccuracies that may arise.
